Guy Bros. & Dalton, the hardware and furniture merchants, now have the largest electric light sign in the city, or in the county for that matter. It is the handiwork of Walter Guy and Fred West, the former doing the carpenter work and the latter attending to the electric wiring. It is 12 feet long and the letter space nearly four feet long. It is solidly and firmly constructed, and its makers are to be congratulated on their achievement. It cost about \$250, put up, and carries 223 small lights, and used up 1000 feet of copper wire.
Now that the cows are to be kept up, the city will be threatened with another menace from fire in the summer. Let the grass grow up, as it will do, and become dry with a strong east wind, something is going to happen should it once get on fire, for it will spread with such rapidity that it will resemble a small prairie fire and endanger the entire city, if measures are not taken to keep down the grass, which old Bossy need to do without cost to the city.--Tillamook Headlight.
They must raise hay in the streets over there.
W. H. Sportsman is having a tough time. It will be remembered that he had his leg broken in the Russell piling ca up several months ago. The leg was taken out of the plaster cast too soon and had to be rebroken and re-set. It seemed then as though the limb was getting all right, of late, and Mr. Sportsman was congratulating himself that he would soon be able to resume work, but an examination shows that the large bones of the body have not knit, in fact they do not come together by about an inch. Next Sunday Dr. Hill of Albany, will operate on the leg and will wire the bones together. This will necessitate the patient remaining in bed for six weeks or more which he can ill afford.--Jefferson Review.

The furniture of Mr. F. C. Brobst arrived from his old home in Nebraska Monday. For some unexplained reason the car had been changed, and instead of being nicely packed in straw as it started, the straw occupied the center of the car and the household goods were without wrapping, being consequently much damaged in transit.

The Willamette Valley Company have in their office one of the most and most regular pair of elk horns we have ever seen. They are nearly absolutely symmetrical and are five pronged, each prong being ornamented at the tip with a tiny candle power incandescent light. These horns have for a number of years been on the front of Stow Bros. barn, but the company boys brought them, had them sand papered, varnished and reset, and they now make as pretty and unique an ornament as one could find.

DECEMBER REDUCTIONS

The kind of clothes you appreciate being able to get at less than established prices

The quality of our Suits and Overcoats gives particular tone to this Mid-winter event

December has always been a record month with us, and we hope to eclipse our previous records during this sale, if the attraction exerted by low prices and splendid values will accomplish that end. Our superb line of Sincerity Overcoats and Suits is now placed at your disposal at about one-fifth less than their established prices. While these reductions are most decisive at this time of the year, we are only following our established rule to diminish our stock as early as possible to avoid the chance of being forced to carry goods over into another season.
