There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local remedies, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer $100 for any case they fail to cure. Send for circulars and testimonials. Address F. J. Cheney & Co., Toledo, Ohio. HIDDEN DANGERS.

Nature Gives Timely Warnings That No Dallas Citizen can Afford to Ignore.

Danger Signal No. 1 comes from the kidney secretions. They will warn you when the kidneys are sick. Well kidneys excrete a clear amber fluid. Sick kidneys send out a thin, pale and foamy, or a thick, red, ill smelling urine, full of sediment and irregular of passage.

Danger Signal No 2 comes from the back. Back pains, dull and heavy, or sharp and acute, tell you of sick kidneys and warn you of the approach of dropsy, diabetes and Bright's disease. Doan's Kidney Pills cure sick kidneys and cure them permanently.

Geo. W. Richardson, living on Monmouth St., Independence, Ore., says: "I suffered from a severe pain in the small of my back for a long time. the troubling bothering me a great deal at night and causing me to arise in the morning feeling so lame and stiff that I could hardly put on my clothing. I was very miserable when Doan's Kidney Pills came to my attention. I began to use them and can say I received a great deal of benefit from their use. I do not hesitate to recommend Doan's Kidney Pills to others suffering from kidney complaint."

Home Proof—There is plenty of local testimony like the above. Call at Belt & Cherrington's drug store and ask to see copies of statements of Dallas people who have used Doan's Kidney Pills.

For sale by all dealers. Price 50 cents Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

TWO SUCCESSFUL DAIRYMEN.

William Morrow and Charles E. Brooks Building up Fine Business Near Rickreall.

Dairying is being more generally practiced in Polk county of late years, and a number of new dairies have been established. Elsewhere in this issue we have illustrated the herds of William Morrow and Charles E. Brooks, who are building up a fine business near Rickreall. Mr. Morrow expects shortly to bring his herd within a short distance of Salem, where he will retail milk. He is building up a herd of registered Jerseys, having now 12 registered cows, and the same number of registered heifers, besides a fine pure bred registered bull. He sells his cream to Portland creameries and realizes an average of $75 to $80 per cow each year. Mr. Morrow is living on a rented farm and has a large hay crop, which has averaged three tons to the acre. He has sold a part of the crop at $12.50 per ton, reserving the balance for feed. His experiments in alfalfa have been very satisfactory, getting two good crops, and having two months pasturage from the third crop.

A little further south on the same road, Charles E. Brooks has a fine herd of Holsteins, the foundation stock for which he brought from California. He milks 17 cows. He uses his vetch and corn crops for silage, and has a modern barn. Mr. Brooks has just sold for $90 a young Holstein bull, ten months old, to W. H. Dean, of Monroe. The mother has a record of 20 pounds of butter fat in seven days, and the sire, Legend, of Siney Hollow, is a half brother to the world's champion Holstein. Mr. Brooks is well satisfied with the results so far, and feels there is a great future for dairying in the Willamette valley. He feels sure he is on the right track and has the right cows for general dairying. While Jerseys are a little richer in butter fat, he states that Holsteins give a greater quanity of milk. He realizes about $75 per cow each year.—Statesman.
