The Portland Commercial club has done considerable valuable advertising for Oregon, but when they descend to a rubber stamp as a return card on their envelopes it detracts from their dignity as an organization and the value of the advertising.

Mr. Geo. Rowcliffe writes us from Portland renewing his subscription to the Itemizer and Commoner, and requests us not to publish a notice of his death until he is dead. It is an unexplained mystery how such a report ever got started.

A correspondent of the Sunday Journal says rock oysters are to be found at no place in the world except at Nye creek. This shows lamentable ignorance. We do not suppose there is a resort on the Oregon beach but what has plenty of them.

If our correspondents continue the good service they have been giving our readers, we will soon have to devote a whole page to their newsy letters. We hope that we will have to do so, as we know that our fourth page is the best of the paper.

There are many new canneries to be started in Oregon. In a few places the talk is to have a cannery to use the surplus fruit. This is a poor basis for a cannery. In order to have a successful cannery, raise fruit for the cannery and ship the surplus. Naturally the fruit that will sell best on the market will be the "surplus" selected for shipping, but canneries which have to depend upon the use of fruit which cannot be otherwise sold will not be a success. If Oregon is to build up a great canning industry it will be because it cans first-class fruit.—Oregon Agriculturist.

POLK FOR SHEEP.

Experts Say Quality Better Than Output of Argentine or Australia.

Leslie M. Scott, son of W. H. Scott, has purchased through Food and Dairy Commissioner J. W. Bailey, 100 head of Lincoln ewes of J. B. Stump, Monmouth. He has also bought two registered imported rams. The sheep are one, two and three-year-olds and are practically all from the Dudding flock in England. The sheep will be placed on the Scott farm southeast of the city.

"For the production of long wool stock," says J. W. Bailey, "the authorities are of one accord in saying that the Williamette valley is surpassed neither by Argentine nor England. The wool of the Williamette valley is pronounced by experts to contain more life than the best the Argentine, Australian or English flocks can produce.

"This is due to the mild winters during which the sheep can live in the open pasture practically all the time. Where they have to live for weeks at a time in close sheds the wool will show it. Another factor is the variety of green feed always at hand that puts life in the product.

If we can get stockmen with money to give the Willamette valley the proper trial I thoroughly believe we will astonish the world in the quality of wool we can produce. Not only are the wool growers certain that the Willamette valley is most favorable to producing wool but also are the wool manufacturers who have looked into the matter. They say with half the care given sheep in the east the Willamette valley will produce a better quality of wool by far. —Oregonian.

Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous sufaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. ANOTHER NEW FIRM.

Ladies and Childrens' Furnishings and Millinery.

On March 1st the vacant store room in the Riley block will have as tenants a new firm among our business circle, who will deal in the articles mentioned in the second heading. The room they will occupy has never as yet been plastered, but Mr. Riley assures the proprietors that everything will be ready for their installation some days prior to the opening day. The new firm will enter the business arena under the title of Smith & Shelton, and is composed of Mrs. Jennie Smith and Miss May Shelton, so well and favorably known to our readers as the obliging clerks of Ellis & Keyt's large mercantile establishment. They are going to fit up a swell place and will put in such a stock of goods as was never before seen on the west side. They will cater to the very best trade, and are only going to put in the very best of goods along the lines mentioned. The ladies of Dallas and vicinity will then have an opportunity to get just what they want, and not have to go to the metropolis for it. Mrs. Smith went to Portland this morning to order goods and to spend several weeks in getting thoroughly acquainted with all the very latest in the fashionable world in millinery. Miss Shelton will also soon go down to assist in so doing.

The ladies in this vicinity are to be congratulated that Smith & Shelton have seen the need of such an establishment and are willing to engage in it. That they will enjoy a good patronage is the prediction of the Itemizer, as the members of our fair sex hereabouts never fail to note a good thing when they see it, and will be generous with their patronage.

We keep the Scientific American on file in our office and all who desire to look over this great mechanical expounder are at perfect liberty to do so.

ENGLAND SAYS NO ALUM IN FOOD

and strictly prohibits the sale of alum baking powder—

So does France
So does Germany

The sale of alum foods has been made illegal in Washington and the District of Columbia, and alum baking powders are everywhere recognized as injurious.

To protect yourself against alum, when ordering baking powder,

Say plainly—

ROYAL BAKING POWDER

and be very sure you get Royal.

Royal is the only Baking Powder made from Royal Grape Cream of Tartar. It adds to the digestibility and wholesomeness of the food.

Resolutions of Condolence.

Whereas, it pleases the Almighty God in His infinite wisdom to call from the scenes of his earthly labors our esteemed neighbor, Robert Gaynor; be it resolved that by the loss of our deceased neighbor that Dallas camp, 209 W. O. W., has lost a true neighbor and a faithful Woodman; be it farther resolved that this camp extend its condolence and sympathy to the bereaved family; be it farther resolved, that a copy of these resolutions be spread upon the minutes of this camp, that a copy be sent to the family, that a copy be sent to the Oregon Woodman, and that the charter be draped for thirty days.

Fraternally submitted,

It is now a foregone conclusion that the final game of the basketball league, if it turns out that it is necessary to play a game at the close to determine who the champions are, will be between Dallas and one of the Portland teams, and there has been some talk of trying to have this game pulled off on the Pacific College floor. Newberg is a halfway place between the two points and we have an excellent floor. It is also a sure thing that we could insure a big crowd.—Newberg Graphic.
