SKIN DISEASES

HUMORS IN THE BLOOD

When the blood is pure, fresh and healthy, the skin will be soft, smooth and free from blemishes, but when some acid humor takes root in the circulation its presence is manifested by a skin eruption or disease. These humors get into the blood, generally because of an inactive or sluggish condition of the members of the body whose duty it is to collect and carry off the waste and refuse matter of the system. This unhealthy matter is left to sour and ferment and soon the circulation becomes charged with the acid poison. The blood begins to throw off the humors and acids through the pores and glands of the skin, producing Eczema, Acne, Tetter, Psoriasis, Salt Rheum and skin eruptions of various kinds. Eczema appears, usually with a slight redness of the skin followed by pustules from which there flows a sticky fluid that dries and forms a crust, and the itching is intense. It is generally on the back, breast, face, arms and legs, though other parts of the body may be affected. In Tetter the skin dries, cracks and bleeds; the acid in the blood dries up the natural oils of the skin, which are intended to keep it soft and pliant, causing a dry, feverish condition and giving it a hard, leathery appearance. Acne makes its appearance on the face in the form of pimples and black heads, while Psoriasis comes in scaly patches on different parts of the body One of the worst forms of skin trouble is Salt Rheum; its favorite point of attack is the scalp, sometimes causing baldness. Poison Oak and Ivy are also disagreeable types of skin disease. The humor producing the trouble lies dormant in the blood through the Winter to break out and torment the sufferer with the return of Spring. The best treatment for all skin diseases is S. S. S. It neutralizes the acids and removes the humors so that the skin instead of being irritated and diseased, is nourished by a supply of fresh, healthy blood. External applications of salves, washes, lotions, etc., while they soothe the itching caused by skin affections, can never cure the trouble because they do not reach the blood. S. S. S. goes down into the circulation and forces out every particle of foreign matter and restores the blood to its normal, pure condition, thereby permanently curing every form of skin infection. Book on Skin Diseases and any medical advice desired sent free to all who write. S. S. S. is for sale at all first class drug stores.

I suffered with Eczema for forty years and could find nothing to cure me until I tried S. S. S. I suffered intensely with the itching and burning; pustules would form from which there flowed a sticky fluid; crusts would come on the skin and when scratched off the skin was left as raw as a piece of beef. I suffered agony in the long years I was afflicted, but when I used S. S. S. I found a perfect cure. There has never been any return of the trouble.

BABY GIRL CRIED AND SCRATCHED

All the Time—Torturing Eczema Covered Her Body—Could Not Sleep—Doctor Said Sores Would Last for Years—Skin Now Clear.

CURED IN THREE MONTHS BY CUTICURA REMEDIES

"I take great pleasure in telling you what a great help it was for me to use Cuticura Soap and Cuticura Ointment for my baby niece. She was suffering from that terrible torture, eczema. It was all over her body but the worst was on her face and hands. Her hands were so bad that she could not hold anything. She cried and scratched all the time and could not sleep night or day from the scratching. I had her under the doctor's care for a year and a half and he seemed to do her no good. I took her to the best doctor in the city and he said that she would have the sores until she was six years old. But if I had depended on the doctor my baby would have lost her mind and died from the want of aid.

"I used all the remedies that everybody told me about and I tortured the child almost to death. Then I saw in the paper how Cuticura was the thing for irritating skin. I bathed her with warm water and Cuticura Soap and used the Cuticura Ointment. She was cured in three months. Now her skin is as clear and smooth as it could be. I shall recommend the use of Cuticura wherever I see the skin in bad condition. Alice L. Dowell, 4709 Easton Ave., St. Louis, Mo., May 2 and 20, 1907."

Nature provides various means for the subsistence of life. This is a country of wonderful resources, and even in winter time there is so much of beauty everywhere, especially to the stranger wandering through the woodlands, with the evergreen ferns, and the green and silver moss covered oaks; its wonderful far famed firs; or standing on the hilltops gazing on the broad Willamette, winding in and out amoung the cities that nestle along its banks, till all is lost in the blue haze that envelopes mountains, hills and plain.

Both are well known and highly respected young people of Independence, and will have the congratulations of many friends on their return here. Miss Lockridge made her home here for nearly a year with Mr. and Mrs. L. G. Reeves, but went to Colorado some months ago. The young people will reside at Talmage, where the groom has already fitted up a neat cottage.

The fireman's Valentine ball was the success of the season from the viewpoint of those who were there and took part in the exercises. The firemen were out in force and looked well in their uniforms. Several of the ladies wore beautiful evening costumes, but it would require one familiar with the latest fashions to describe them in detail. The music was as fine as any rendered by the orchestras of much more pretentious places than Independence. This was voted as one of the swellest affairs of its kind ever held in this city.

Judge Kirkland has a visiting card that was issued in 1850 by the I. O. O. F. lodge to which he then belonged, on the eve of his departure for California. After working in the mines for several years he went back to the South by way of the Isthmus of Panama, and the card was in his pocket. There he enlisted in the Confederate service and carried the card with him through the war and thence across the plains to Montana, finally winding up in Independence. He intends having the card framed along with a history of his travel. He has had it for 58 years.
