WINS ANOTHER GAME

DALLAS DEFEATS CORVALLIS BY A SCORE OF 32 TO 11.

The Dallas college basketball team added another to its long string of unbroken victories by defeating the fast O. A. C. team on their own court at Corvallis Friday night, February 21st, by a score of 32 to 11. The game was safe for Dallas from the start, the O. A. C. players at no time having even a look in the Dallas players made 14 baskets from the field, Corvallis 2. The winning of this game gives Dallas the undisputed lead in the southern division of the state league, and it is thought they will prove an easy winner over any of the Portland teams for the championship of the state league.

INDEPENDENCE.

Courtesy West Side. The infant son of Mr. and Mrs. Homer Hill died Wednesday morning, aged four days.

Mrs. Fred Hess, of Buffalo, Wyoming, after a three weeks visit with her sister, Mrs. Strickler, left Tuesday for home, via Seattle and Tacoma.

Rev. J. H. Douglas, former pastor of the Baptist church here, has accepted a call to the First Baptist church of Pomeroy, Washington.

James Hanna has just completed a new concrete sidewalk in front of his property on Fourth street. It is a noticeable fact that whenever he takes hold of a piece of property it begins to improve at once.

A. B. Taylor's new barn is one of the best of its kind in the county. It is built on modern lines and is large and commodious. It was built by C. Purvine and son and is well constructed. There is ample storage room for hay and grain. The new barn is built on the site of the old one that was partially destroyed by fire some six weeks ago. Mr. Taylor has been in the livery business in Independence for the past 11 years and that he is satisfied with the town as a business point, his rebuilding in such a substantial way fully testifies.

As showing what can be done on a small piece of Polk county land it is a fact that the Lee Brothers marketed \$20 worth of strawberries off of a half acre of ground last summer. This was done without any extra care and the marketing was done between jobs on the farm and did not take up any time that would interfere with their farm work. Does it not stand to reason that with one's entire attention turned to the business that the land would give larger returns?

Of Interest To Women.

To such women as are not seriously out of health but who have exacting duties to perform either in the way of household care or in social duties and fancy sides which seriously tax their strength, as well as nursing mothers, Dr. Pierce's Favorite Prescription has proved a most valuable spring tonic and invigorating nerve. By its timely use, much nervous sickness and suffering may be avoided. The operating table and the anaesthetic would it is believed seldom have to be employed if this most valuable remedy were resorted to in good time. The 'Favorite Prescription' has proven a great boon to expectant mothers by preparing the system for the coming of baby, thereby rendering childbirth safe, easy, and almost painless. Bear in mind, please that Dr. Pierce's Favorite Prescription is not a secret or patent medicine, against which the most intelligent people are quite naturally adverse, because of the uncertainty as to their composition and harmless character, but is a medicine of known composition, a full list of all its ingredients being printed, in plain English, on every bottle wrapper. An examination of this list of ingredients will disclose the fact that it is non-alcoholic in its composition, chemically pure, free from all irritating and the place of the commonly used alcohol, it may not be out of place to state that the 'Favorite Prescription' of Dr. Pierce is the only medicine put up for the cure of women's peculiar ailments, and ailments, and sold through druggists, all the ingredients of which have the unanimous endorsement of all the leading medical writers and teachers of all the several schools of practice, and that too has remedies for the ailments for which 'Favorite Prescription' is recommended. A little book of these endorsements will be sent to any address, postpaid and absolutely free if you request same by postal card, or letter, of Dr. R. V. Pierce, Buffalo, N. Y.

Neglected Cold Threatens Life.

From the Chicago Tribune. 'Don't tifle with a cold' is good advice for prudent men and women. It may be vital in the case of a child. Proper food, good ventilation and dry warm clothing is the proper safeguard against colds. If they are maintained through the changeable weather of autumn, winter and spring, the chances of a surprise from ordinary colds will be slight. But the ordinary light cold will become severe if neglected, and a well established ripe cold is to the germ of diphtheria what honey is to the bee. The greatest menace to child life at this season of the year is the neglected cold. Whether it is a child or adult, the cold slight or severe, the very best treatment that can be adopted is to give Chamberlain's Cough Remedy. It is safe and sure. The great popularity and immense sale of this preparation has been attained by its remarkable cure of this ailment. A cold never results in pneumonia when it is given. For sale by Bolt & Cherrington.
