PANY MAKE GOOD.

not come as a surprise. Some four years ago leasers took out and worker years ago leasers took out and worked through the Cumberland mine tons of ore that yeilded over the plates better than \$7500 to the ton. The nature of the ore deposits in the Osceola Campare such as to lead one to believe that the rich body of ore reached by the Cumberland will lead to more of a larger and richer nature. This claim is next to the Hornet owned by the Pilot Knob Gold Milling and Mining Co. In fact the Cumberland's tunnel extends within a close distance of the Hornet claim, making it an absolute certainity that their rich ore runs through the latchaim, making it an absolute certainty that their rich ore runs through the latter's chaim. At Oscoola, according to Mr. Burritt, a most hopeful and optimistic feeling prevails, and this season will witness heavy operations in this great gold camp. The New Moon in this district is nearing the ore body with its long tunnel, while Mr. Forest Goods the great rustler and irrepressional transfer and irrepressions. Goody, the great rustler and irrepres-able operator, has a force on the Cum-berland, and has a showing in its workings which would make the ordinary mining man go fairly wild. At present Osceola looks better than ever. Black Horse, near Osceola is also making good. In this Osceola camp are lots of mines paying dividends. The Raymond & Ely paid \$7 a month and some smaller divi-dends for years. The Meadow Valley, Chief of the Hills and 15 others paid dividends from 25 cents to \$1 a month These statistics have been carefully look ed up and are practically correct and we want to ask these knockers, how could you have made money any faster than to have invested in Nevada stock? Did you ever hear of a camp of three years old like Goldfield producing over \$2000,000 a mouth? The Pilot Knob Gold Milling and Mining Company own 16 claims in this district and have done sufficient developement work that their showing proves that they have the best opportunity in that district. Osceola will prove itself one of the very best in Newslein a short time. evada in a short time.

PIONEER WOMAN IS DEAD. Mrs. Viola B. Shurtleff Passes

Portland, Oregon, as the result of a paralytic stroke sustained in 1901, since which time she has been an involid.

C. A.

The Foresters team is out with sweeping challenge to the world, Dallas

alytic stroke sustained in 1901, since which time she has been an invalid.

Mrs. Shurtleff was born in Kansas, August 23, 1859, and was married in Iowa in 1858. With her husband she crossed the continent in 1862, arriving in Oregon and settling first in Polk county, afterwards moving to Portland, where, with the exception of a few years passed in New York, she resided until the time of her death.

Her husband was a Mason of high degree, was employed in the Indian service and afterwards was Deputy Collector Customs for several years, and on ac-

or Customs for several years, and on account of his efficiency was then appointed by President Hayes, Collector. Later, he was appointed, by President Arthur, one of the general appraisers of the customes service of the United States, and lived in the customes service of the United States, and lived in the customes service of the United States, and lived in the customes service of the United States, and lived in the customes service of the United States. to Portland and died a few years thereafter. He was a n.an of industry, energy and ability in all the places in which he served, and was of the highest integrity, and was trustworthy.

After her husband's death Mrs. Shurteff lived with her only daughter, Mrs. Otto F. Brandes. Mrs. Brands, a few days ago, fell ill and is now at the Good Samaritan Hospital.

After the stroke of paralysis of seven years ago, Mrs. Shurteff was practically helpless,
