We have heard that if the tips of this pest are cut off and a little salt sprinkled on the stock, there will be nothing left in a short time. This is only hearsay with us, however, and we would like to hear from some one who has found out by actual experience the best and surest way of getting rid of this pest.

The amount then due, from each delinquent, will be placed in proper hands for collection. We hate to be arbitrary in the matter, but have no choice—it is either do this or be excluded from the mail. All you have to do is to pay up to date, and then we are allowed to give you credit for another year.
