BABY'S EYESIGHT WAS THREATENED

By Terrible Eczema—Head Became a Mass of Itching Rash and Sores—Would Scratch Till Blood Came—Much Money Wasted in Fruitless Treatments—Disease Was Soon Cured at SLIGHT COST BY CUTICURA REMEDIES

"Our little girl was two months old when she got a rash on her face and within five days her face and head were all one sore. We used different remedies but it got worse instead of better and we thought she would turn blind and that her ears would fall off. She suffered terribly, and would scratch until the blood came. At night we had to pin her hands down. This went on until she was five months old, then I had her eyes examined by a family doctor's care, but she continued to grow worse. He said it was eczema. When she was seven months old I started to use Cuticura Soap, Cuticura Ointment, and Cuticura Remedies for two months. It was a change! I kept using the Cuticura Remedies for two months and she was cured. I got my money's worth. I got five cents where we had spent ten times the money for doctoring. She is now two years old and has not had a sign of the eczema since. Mrs. H. F. Dinkler, El Paso, Tex., Le Sueur, Minn., Apr. 15 and May 2, 1907."
