# RHEUMATISM CAN NOT BE RUBBED AWAY

It is perfectly natural to rub the spot that hurts, and when the muscles, nerves, joints and bones are throbbing and twitching with the pains of Rheumatism the sufferer is apt to turn to the liniment bottle, or some other external application, in an effort to get relief from the disease, by producing counter-irritation on the flesh. Such treatment will quiet the pain temporarily, but can have no direct curative effect on the real disease because it does not reach the blood, where the cause is located. Rheumatism is more than skin deep—it is rooted and grounded in the blood and can only be reached by constitutional treatment—IT CANNOT BE RUBBED AWAY. Rheumatism is due to an excess of uric acid in the blood, brought about by the accumulation in the system of refuse matter which the natural avenues of bodily waste, the bowels and kidneys, have failed to carry off. This refuse matter, coming in contact with the different acids of the body, forms uric acid which is absorbed into the blood and distributed to all parts of the body, and Rheumatism gets possession of the system. The aches and pains are only symptoms, and though they may be soothed or relieved for a time by surface treatment, they will reappear at the first exposure to cold or dampness, or after an attack of indigestion or other irregularity. Rheumatism can never be permanently cured while the circulation remains saturated with irritating, pain-producing uric acid poison. The disease will shift from muscle to muscle or joint to joint, settling on the nerves, causing inflammation and swelling and such terrible pains that the nervous system is often shattered, the health undermined, and perhaps the patient becomes deformed and crippled for life. S. S. S. thoroughly cleanses the blood and renovates the circulation by neutralizing the acids and expelling all foreign matter from the system. It warms and invigorates the blood so that instead of a weak, sour stream, constantly depositing acid and excessive matter in the muscles, nerves, joints and bones, the body is fed and nourished by rich, health-sustaining blood which completely and permanently cures Rheumatism. S. S. S. is composed of both purifying and tonic properties—just what is needed in every case of Rheumatism. It contains no potash, alkali or other mineral ingredients, but is made entirely of purifying, healing extracts and juices of roots, herbs and barks. If you are suffering from Rheumatism do not waste valuable time trying to rub a blood disease away, but begin the use of S. S. S. and write us about your case and our physicians will give you any information or advice desired free of charge, and will send our special treatise on Rheumatism.

# TWICE CURED OF SKIN TROUBLES

**First Case a Rash Which Itched and Stung—Threatened Ten Years Later With Blood-Poison in Leg—But Both Times the Sufferer's**

**RELIANCE IN CUTICURA PROVED WELL-FOUNDED**  
 "About twelve or fifteen years ago, while living in West Virginia, I had a breaking-out, and it itched and stung so bad that I could not have any peace because of it. I saw three doctors and they did not agree on what it was, so one of them gave me something that he called medicine, but I called it soda water. I might just as well have washed my face with soap and water. About two years I had a grippe and pneumonia which left me with a pain in my side, and anything I ate or drank, which then swelled and began to break out. It got in pretty bad shape, so I went to a doctor. He was afraid it would turn to blood-poison. I used his medicine but it did no good. So I decided to try a doctor with Cuticure Remedies. I used them three times and cured the breaking-out on my leg. I have not had a skin trouble since. J. F. Hennen, R. F. D. 5, Milan, Mo., May 13, 1907."

**Deafness Cannot be Cured.**  
 by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound and imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; none can be cured by local means, and this, which is nothing but an inflamed condition of the mucous surface.
