## DALLAS HEADS

MORE LOADED CARS TRAVEL IN AND OUT

Of Dallas Than From any Other Oregon Town.

By the the courtesy of Mr. I. N. Woods, the accommodating S. P. agent bare, Bring me your accounts, and I will do the rest L. D. Butler, Dallas Ore.

we were yesterday shown the printed report of the number of loaded freight cars shipped in and out of the various cars shipped in and out of the various Democrats

Socialists... vere received and sen out of our depot, Total being a greater number than went out from any one other town in Oregon, the other side of the river which sent out 207 cars. This is certainly a wonderful record, and one which we might well be proud of and should use to advantage in all our talk and immigration literature. To be the town which each month does by far the largest freight business of a great and growing state like Oregon is no mean distinction. It is something to make a holler about. It shows that we are doing the business. It shows that our citizens are wide awake, energetic hustlers for business, and that there is no financial stringency of any kind whatsoever. It gives us a prestige over the other towns that cannot be gainsayed nor contradicted. And

> There was one month last fall that we fell behind, but that was the only one for many moons. Another thing, the Newberg logging frain which leaves here daily with about 10 cars is not included in this report, and we get no credit for that industry which starts and returns to Dallas every day, taking away our timber to be finished up at the town down the line. Hurrah for Dallas and her immense freight business. May it grow larger

the best of it is that this record for

March was not an unusual one. We

are doing the same thing month in and

month out, out classing other towns by

as much as 100 cars nearly every month.

### and larger as the months roll on.
