Few are entirely free from it. It may develop so slowly as to cause little if any disturbance during the whole period of childhood.

It may then produce dyspepsia, catarrh, and marked tendency to constipation, before causing eruptions, sores or swellings.

To get entirely rid of it take the great blood-purifier.

Statement No. 1 did not get the vote in this county that the Itemizer expected. The election of a United States senator was in the hands of the people, but they turned it down here, and a majority in the legislature is yet a problem.

Some of our precincts must be divided in East Dallas. The judges in East Dallas worked hard all night and did not finish counting until nearly noon Tuesday, and in South Dallas they were nearly as long. Falls City did not get her votes counted until Wednesday morning.

A communication went out last week from the Portland Commercial Club to the organizations of the state asking for a supply of literature issued by each community. Special files of these publications are kept for the information and benefit of newcomers.

This is not the first time that Dallas has been a dry town. Away back in the early 80's there was for several months that there was not a saloon here. Business went on just the same as usual. There was no panic because the town was dry, and this is just what we want to impress upon our readers. Dallas is bound to keep on growing whether the town is dry or wet. Our citizens are too progressive and of too much business sense to allow of any backward movement. Let us not retreat one inch from any of our proposed improvements, but go ahead and complete them. It will not be long until things will adjust themselves to the changed conditions, and Dallas can continue to boast as never before. This is the year to have no retrogression of any kind. More new people are coming into our state than ever before, and we must have our share of the influx and not allow other towns to capture the newcomers. We need speed for the building up of the town and county. We have the land to spare to support double our present population, and all we have to do is to pull together and get these lands settled up by people who will utilize and improve every acre of them. Let us have no growling nor knocking. Let us bow with grace to the will of the majority. We have had no earthquake, inundation or fire. Take the medicine and look pleasant. Pull for the carnival, pull for the canner, pull for any and everything to make the town and county grow and reap the benefit in your own pocket of a stand-together community, bound by one single purpose, that of going ahead continually, with no stand still or pull back residents. Polk county nor Dallas is obliterated from the map. We are there and there to stay. Get busy and make things hum. Let other counties do the kicking. Polk county has not got time. We will be and are too busy.

In Salem the other day they had a republican rally and bag parade. At the tail end was a man dressed up to represent our George mounted on a mule. Some one threw a rock and hit the mule on the rump. Consequently our George and the mule got to the head of the procession in quick time and the laugh was on the other fellow.

HOUSE WORK

Thousands of American women in our homes are daily sacrificing their lives to duty.

In order to keep the home neat and pretty, the children well dressed and tidy, women overdo. A female weakness or displacement is often brought on and they suffer in silence, drifting along from bad to worse, knowing well that they ought to have help to overcome the pains and aches which daily make life a burden.

It is these faithful women that Lydia E. Pinkham's Vegetable Compound comes as a boon and a blessing, as it did to Mrs. F. Ellsworth of Mayville, N. Y., and to Mrs. W. P. Boyd of Beaver Falls, Pa., who say:

"I was not able to do my own work, owing to the female trouble from which I suffered. Lydia E. Pinkham's Vegetable Compound helped me wonderfully, and I am so well that I can do as big a day's work as I ever did. I wish every sick woman would try it."

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has credited thousands to health. Address, Lynn, Mass.

Well Tested. "It seems to me that I have heard most of the ideas advanced in your speech before."

"That" said Senator Sorghum, "merely goes to show that they are good things, which will stand wear and tear." Washington Star.

All electric light and telephone poles are to be put within the curbs in the proposed street improvement lines.
