Portland Business College

"THE SCHOOL OF QUALITY"

Tenth and Morrison, Portland, Oregon A. P. Armstrong, L.L.B., Principal

Ⓔ We occupy two floors 65 by 100 feet, have a \$20,000 equipment, employ a large faculty, give individual instruction, receive more calls for office help than we can meet. Our school admittedly leads all others in quality of instruction. It pays to attend such an institution.

Ⓔ **Said a Business Man:** "Keep hammering away everlastingly on thorough work. It will win out in the end." **Said an Educator:** "The quality of instruction given in your school makes it the standard of its kind in the Northwest."

Ⓔ **Open all the year.** Students admitted at any time. Catalogue free.

For Sale by RAY & CO., Dallas, Oregon

ELECTRICITY FOR LIGHTING IS ONLY EXPENSIVE

TO PEOPLE WHO ARE WASTEFUL AND CARELESS.

TO YOU, WHO ARE NATURALLY CAREFUL,

IT DOES NOT COME HIGH.

It is economical because it can be quickly turned off when not needed. With gas or kerosene there is the temptation to let light burn, when not needed, to save bother of lighting and adjusting. In some homes the electric light bill amounts to only about \$2 per month. You can probably get some kind of artificial light for less money than electric light, but does it save you anything when at limits opportunities for work and recreation, ruins your eyesight, smokes your walls, mars decorations and increases household work. You can probably save a dollar tomorrow by going without your meals, but it wouldn't be economy. It is not so much what you save, but how you save, that counts. We are always ready to explain the "ins and outs" of the lighting proposition to you. Call on us or phone to us. We are never too busy to talk business.

J. O. Brien, labor 61.00

Total \$2240.75
Street Commissioner Morrison made a report on the block just macadamized on Main between Oak and Academy in which he showed the cost of such improvement to be, including curbs, approximately \$1,677.89.

Resolutions were passed authorizing the street commissioner to have built the wooden curbs called for in the streets to be improved.

On motion the plans and specifications as drawn by Architect Morrison for the contemplated sewers on Washington, Clay and other streets were approved, and an ordinance providing for the same was read last time and passed.

An ordinance providing for certain new sidewalks was read last time and passed. This ordinance provides that a cement walk in the street shall be made 5 feet 4 inches in width.

The J. M. Sears sidewalk was ordered removed at the expense of the city. The street commissioner was ordered to put in cement crossings for the alley ways on Court street, between Railroad and Third.

The auditor was instructed to give notice to the property owners along the way of the macadam street improvement, fixing the cost for the road, road at \$2.25 a front foot and for the curbs at 25 cents for cement and 15 cents for wood.

The relocation of the stand pipe for street sprinkling was left in the hands of the fire and water committee with power to act. This pipe has been located on Court, but as the street improvement progressed had to be moved.

The county court was requested to replace the walk at the foot of Clay street.

The marshal was instructed to have overhauled grass and brush removed from the sidewalks in certain localities.

FOR A HIKE.

Company H to Practice Camping Out.

Captain C. D. Corpening informs us that next Saturday night Company H will take a lengthy march for practice in the rudiments of military camp life. The boys will leave the armory soon after supper and march up to Ellendale, where they will camp for the night, returning next morning in time for breakfast. Each man will carry one blanket, half a shelter tent, and a collapsible tent pole. The march is given to familiarize the men to some extent with military camp life, and give them an inkling of how they will have to live during their encampment next month at American lake. There will be shown how to carry and erect their tents, given an insight into the mysteries of guard mount, and the thousand and one things that make the difference between a rookie and the finished article. The officers of the company are doing all in their power to bring about such a state of affairs at the earliest possible moment, that our company may prove an honor at the encampment to the town from which they come. It will take hard and persistent effort on the part of the men to bring this about. It is no easy task to transform civilians into soldiers. Strict attention must be paid to details, the drills must be long and frequent, and every private must do his duty and by quick comprehension and individual attention assist his officers to the best of his ability. No shirking of duty can or will be allowed. Each man has entered into an obligation that must be kept, or into the consequences. You are, your own master no longer, but are now subject to the laws of military rule, and

the sooner this is thoroughly understood and lived up to, just that much sooner will Dallas be able to say that she has the crack organization of Oregon's state militia.

AUTO DROPS FROM TRESTLE.

Fall of 35 Feet to Mud Flats Probably Fatally Injures A. J. Kruger.

Going at the rate of 45 miles an hour, a 40-horse power automobile, driven by A. J. Kruger, smashed through the railing at the side of a street built on trestle in the southern part of Seattle and plunged 35 feet to the tide flats below. Kruger was dug out of the soft mud and taken to hospital, where he is reported probably fatally injured. The hood which covers the engine was loose from its fastenings and in the wind suddenly tore it off and it whirled over the front of the machine into Kruger's face. He was knocked backward and his hands were torn from the steering wheel. Mr. Kruger has conducted several sales in Polk county and is quite well known here. Later reports are that he was not seriously injured.

Broke His Ankle.

Monday morning while John Taylor and Wm. Shelton were painting a barn for John Love on the B. F. Smith place on the Lockmanite, the scaffold gave way and precipitated them both to the ground in short order and without so much as asking them how they wanted to alight. John came to earth in such a manner as to suffer a badly strained back, while William got off with a fractured ankle. Dr. McAlton brought the fracture and Mr. Smith brought Mr. Shelton to town. His condition is now resting comfortably at the home of his brother, Evan, in this city.

STRANGER KILLS HIMSELF.

Logger Cuts Jugular Vein With Pocket Knife.

Walter East, a logger 40 years of age, committed suicide in his room at the Uncle Sam hotel at Fifth and Couch streets at 12:30 o'clock Monday morning by cutting his jugular vein with a pocket knife. The man had been in the city for a short time and was unknown to anyone at the hotel.

From papers found in the pockets of his coat his identity was learned and it was ascertained that he was a member of the Woodmen of the World and carried insurance of \$1000 with that order made out in favor of his son, Archie. The street commissioner was ordered to put in cement crossings for the alley ways on Court street, between Railroad and Third.

He Was the Parents.

Little Bertram had always longed for a live pet, but as he lived in an apartment building, he had to be satisfied with toy animals. After his parents moved to the country and Bertram became the happy possessor of a kitten. He hugged it close and remarked, "At last, I have the parents of a living creature."—The Argonaut.

IT IS SERIOUS.

Some Dallas People Fail to Realize the Seriousness.

The constant aching of a bad back, the seariness, the tired feeling, the pains and aches of the kidneys, are serious if neglected. Dangerous urinary troubles follow.

E. A. Sutton, of 1125 Walls St., Salem, Ore., says: "For ten or twelve years rheumatism and kidney trouble was the scourge of my life and two or three times I was completely laid up. I had to leave my farm and come into the city to doctor for the trouble but nothing brought me more than temporary relief. My limbs would scarcely support me and I could only get around at times with the greatest difficulty.

Doan's Kidney pills benefited me at once and when I had used the contents of three boxes I was absolutely free from every symptom of my old trouble and my health was better than it had been for fourteen years. I can conscientiously say that Doan's Kidney Pills are the best kidney remedy I ever used."

Home Proof—There is plenty of local testimony like the above. Call at Burt & Cherrington's drug store and ask to see copies of statements of Dallas people who have used Doan's Kidney Pills. For sale by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

For Sixteen Presidents.

Without doubt, one of the oldest men in the state of Oregon, is Thomas Shute who, with his wife, is living on the Maple Lane road near Oregon City. Mr. Shute has voted for each of the last 16 Presidents and hopes to live to see the next Presidential election. Mr. Shute was born at Bridgewater, New Hampshire, Jan. 9, 1819, and will be 90 years of age if he lives until next January. In 1872 he moved with his family to Kansas where he lived for 9 years. Becoming tired of the Kansas climate

and wishing for a change, he disposed of his property there and went to California, remaining there about six years. Finally Oregon attracted his attention, and 4 years ago he came to Polk county, where he followed the dairy business for some time. About this time his daughter, the wife of Mr. G. A. Brown, of Oregon City, came west and Mr. Shute then sold his dairy business and came to live with his daughter, where he has since resided. Mr. Shute is still hale and hearty and every nice day one is sure to see him out in the garden with his hoe. Mr. Shute holds his age well and one would hardly think he was so near the century mark. Mrs. Shute, who is only five years younger than her husband, is still enjoying good health, and the two together have bright prospects to round out the century.

A Sustaining Diet.

These are the enervating days, when, as somebody has said, men drop by the roadside as if the Day of Fire had dawned. They are fraught with danger to people whose systems are poorly sustained; and this leads us to say, in the interest of the less robust of our readers, that the full effect of Hood's Sarsaparilla is such as to suggest the propriety of calling this medicine something besides a blood purifier and tonic,—say a sustaining diet. It makes it much easier to bear the heat, assures refreshing sleep and will without any doubt avert much sickness at this time of year.

Our Married Couple.

Mr. Frank Dudley, of Wells Station, and his bride, nee Miss Clara Beverly, of Newport, are spending their honeymoon with the bride's parents. Last night about twenty young men went to serenade them and the groom offered them 10 cents apiece to help them out of the crowd, and then he wanted to certify his generosity and offered three for a quarter, the crowd balked at the offering, and no compromise being accomplished, they kept the happy pair from sleeping until dawn. Mr. Dudley intended leaving for the valley and got on the boat before he could easily do so, regarding the engine blowing off steam. But Morpheus won. He didn't "come out" until the train had left Yaquina, and had to say his fare back to Newport and is still here—sleeping.—Newport correspondence in Albany Herald.

Stood the Test.

Alcock's Plasters have successfully stood the test of sixty years' use by the public; their virtues have never been equalled by the unscrupulous imitators for a short time and today in the hands of Alcock's they are the best of the world, not only the highest medical authorities, but by millions of grateful patients who have proved their efficacy as a household remedy.

PASSES AWAY.

J. R. Hubbard Yields to Dread Destroyer.

All were shocked to hear Monday morning that the familiar face of Joe Hubbard would be seen on our streets no more, that he had passed to the great beyond from this human ken. He has been long a patient sufferer from Bright's disease, but had been out on the streets lately and his many friends hoped for complete recovery. He was laid to rest in the Monmouth cemetery Tuesday afternoon, the funeral services first being held in the Evangelical church here.

Mr. Hubbard was well known all over Polk County, having been a resident for many years, and was greatly respected for his many sterling qualities of both heart and mind. He was born on the ranch near Astoria in 1849, being a son of Charles Hubbard, a former Dallas resident. The family tried mining in California, then settled where Portland now stands, later going to Yamhill, but in 1894 they settled down for keeps in Polk county. Mr. Hubbard and Miss Ellen Berry were wedded in 1870, going onto a farm near Astoria, where they lived until 11 years ago, when they came to Dallas to reside. Besides many friends there are left to mourn his death his aged mother, Mrs. Mary Hubbard, five brothers, David, Henry, Curtis L., John and Douglas; his wife and four children: Mrs. Dora Shreve, of Stayton; William Hubbard and Mrs. Josie Griffin, of Dallas; and Mrs. Etta Hampton, of New York.

MARKET REPORT.

REPORTED WEEKLY BY E. S. LOUGHARY.
