AGAINST BULDOZING.

Prominent Republican Antagonizes Placard Posting.

There was made public today correspondence wherein John W. Kern, the democratic nominee for vice-president, sought and obtained from D. M. Parry, ex-president of the National Association of Manufacturers and a prominent republican an expression of opinion hostile to the posting of "prosperity placards" in factories to the effect that "on the day after the election of Taft and Sherman this factory will start up full force."

Kern asked Parry "in the light of the fact that the present high tariff has not maintained prosperity, I would like to ask whether the posting of these placards does not savor of trying to obtain money under false pretenses?"

Parry replied that he was not in sympathy with such abuse of the power of the employer; that it is poor business policy to promise to run a factory on full time in the event of any election; that the business reaction was quite beyond the power of political parties to control; that he could not bring himself to post such placards despite Republicanism and declares:

"I am no more in sympathy with the statement that Bryan is the enemy of industry than I do the statement that Taft is a creature of trusts," and said that the recent poll of the manufacturers' associations of the country had shown a majority of the members in favor of a revision of the tariff.

ITCHING HUMOR ON LITTLE BOY

His Hands were a Solid Mass, and Disease Spread All Over His Body —In Four Days the Child was Entirely Cured—Mother Strongly

RECOMMENDS CUTICURA SOAP AND OINTMENT

"One day we noticed that our little boy was all broken out with itching sores. We first noticed it on his little hands. His hands were not as bad then, and we didn't think anything serious would result. But the next day we heard of the Cuticura Remedies being so good for itching sores, etc., that I thought I would get them. By this time the disease had spread all over his body, and his hands were nothing but a solid mass of this itching disease. I went to the drug store and purchased a box of Cuticura Soap and one box of Cuticura Ointment, and that night I stripped my little boy and took the Cuticura Soap and lukewarm water and washed him well. Then I dried him with a soft bath towel, and took the Cuticura Ointment and rubbed him thoroughly with it. I did this every evening before I put him to bed and in three or four nights he was entirely cured. You have my permission to publish this because anybody who suffered as my baby did ought to know of the Cuticura Remedies. I will surely and gladly recommend the Cuticura Remedies, for they are a godsend to all suffering with skin diseases. Mrs. Frank Donahue, 208 Fremont St., Kokomo, Ind., Sept. 16, 1907."
