Patronize One Another for the Upbuilding of Town and County.

"There isn't a fat king in Europe," says a London paper. Nearly all of them have fat jobs, however.

Hon. David B. Hill was Richard Crocker's guest in Ireland recently. My, but what a talkin over of old times there must have been.

Under the Republican tariff labor has sought employment in vain. Wage earners have learned that the trust gets the cake from protection's table and the wage earners get the crumbs.

We advise the "Young Turks" not to get too enthusiastic about the fact that the Sultan has granted them a "general assembly." We have had one for years, and we don't know what on earth to do with it yet.

One day the Republican National Committee gives it out that it has returned checks offered by corporations because such contributions are unlawful, but they have never yet returned the checks Cornelius N. Bliss obtained from insurance companies, and only last week they were caught in the act of soliciting contributions by addressing appeals to corporations. Andthe chairman has appointed Bliss, who got the money from the insurance companies, as a member of the "advisory committee."

The Republican committee meeting in Portland Saturday is reported as harmonious in the extreme, notwithstanding the factional differences that the Oregonian has been at so much pains to repeatedly tell us about. When Cake appeared with the sack all was harmony instanter. There is nothing like good honest gold to grease up machinery—rust and stagnation fade before it, every cogwheel fits nicely in its place and performs its duty unbidden, andtheengine works once more as when in its palmy days.

Recurring car shortages are burdens exceedingly oppressive. They are the cause of enormous annual losses to all sections, to all branches of trade and commerce and they bear with equal oppressiveness on builder, on merchant and machanic. Yet the remedy is easily found. In the improvement of the waterways of the United States on the plan advocated by the National Rivers and Harbors Congress, the remedy would be found. The waterways of the country are of inestimable value, but not utilized as they would be if improved upon the plan suggested, embodying the work as part of the fixed policy of the government, upon definate plans, with annual appropriations adequate to the work, with the work continuous and embracing a policy butno special project. There is no necessary hostility between rail and river. Europe, with its wise policy on the subject of waterway improvement, finds the one means of transportation complementing and supplementing the other, the river carrying the heavier articles, as it would carry the lumber for the American lumbermen and avoid the present prospective shortage, avoiding congestions when the necessary grain movement begins and inevitably avoiding all other congestions of the railways which are admittedly inadequate in their facilities for carrying the freight offerings of the country. The true remedy and the enduring remedy for freight congestion is in the improvement of the waterways on the plan suggested by the National Rivers and Harbors Congress.

If all the campaign lies are to be spiked, the nail industry should be looking up.

It is going to be a whirlwind campaign, but so far we've had more wind than whirl.

The Turkish populace cheered the Sultan as he drove through the streets of Constantinople. The people evidently thought he was going away.

It is said that Taft has said that a dollar a day is enough wages for a lab ring man. Mr. Taft's reputation in the east is on a line with such an assertion. He is a member of the so-called aristocracy and has use for the working man only as he needs him in his business.

Dallas is certainly in a religious frame of mind at the present time or should be, as there are assuredly incentives enough to such a feeling. Besides the regular church meetings, there are four other organizations holding special meetings, two in tents. All report new adherents of their faith, and the present winter will see an unusual religious revival in this section.

The Republicans are trying to make the voters believe that there is practically no issues in this campaign, but issues are appearing rapidly and issues of such character are developing as will overwhelm them at the November polls. The tariff has loomed above the horizon in a very threatening manner to the the Republican interest. The Republicans have been preaching the doctrine of protection for years and years and the fallacy of that doctrine has been overwhelmingly established and in fact, the word protection means now nothing more than protection to the trusts. The protective tariff is not in the interest of the people but of the rapacious trusts that are gouging every cent possible out of Americans. For instance the great steel trust is selling steel rails in London for $22 per ton and are charging the Americans $28 a ton. If it were not for the tariff they would be compelled to sell the steel rails to the Americans at the same rate that they sell them to the English, but they have the benefit of the high tariff, can exclude the competition of the English manufacturers and thus play on the Americans at their pleasure. The same is true of the wire nail trust which is charging the farmers 50 per cent more for their wire, fences and nails than they do the foreigners. The same is true of household articles; the sewing machine trust is selling machines in London and Paris for about $15 less than they are to the American consumer. The same is true of the watch trust and numbers and numbers of articles can be mentioned along the same line. The American people have been tricked and defrauded on these lines long enough and the worm is going to turn and with it, they will turn the Republican party out of power, for they have not only permitted this tariff robbery to go on but they have done absolutely nothing effective in the way of curbing these great trusts. In fact, they are as strong today as when Roosevelt came into power. This is shown by the case with which they nullified the $29,000,000 fine against the Standard Oil Company in the Circuit Court of Appeals. The trusts absolutely own the Republican party and the judges which has been appointed by that party.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

Home of Swamp-Root.

Do not make any mistake, but remember the name, Swamp-Root, Dr Kilmer's Swamp-Root, and the address inghampton, N. Y. on every bottle.

Polk County should support several Bryan and Kern Clubs and the work of organizing should be started at once

Atlantic City is evidently troubled with a lid that won't stay on.

If a flying-machine really has to go anywhere, it takes the railroad or a steamboat.

ANOTHER BUSINESS CHANGE.

The Edison Picture Show Has New Proprietor.

Messers E. W. Randall and C. F. Bartlett, who have been recently conducting the popular 5-cent Edison picture show in the Crider building on the corner of Main and Mill streets, this week disposed of their business to W. N. Brown, of Salem, who will conduct it hereafter as a 10-cent show, after certain improvements are made which he hopes to have completed for reopening by next Saturday evening. It will be known as the Vaudette, and will have all the needed paraphanalia to make it a first class show of that kind. The show closed Tuesday night to allow of these changes being made. The front is being taken out and what is known as a theatre front will be substituted. The ticket office has been enlarged and the working mechanism placed overhead in front, instead of at one side. The rear wall has been moved back 15 feet, thus allowing a larger curtain surface and more seating capacity, and they will then be able to house 140 people. A disaster has been installed, which does away with that jumping effect so noticeable in changing slides, and a fine large phonograph added for song work. In fact Mr. Brown informs us that he will have one of the very best outfits of the kind to be found on the coast. Look for the small dodgers announcing the opening next Saturday night and their new program.

Mr. Randall will return with his family to Michigan, from whence he came to this coast some two years ago. Mr. Bartlett and family will continue as residents of Dallas, but he is not yet certain in what line of business he will engage.

Brown & Stout, lawyers, abstracters, notary public. Collections. Uglow Bld.

A box of shells was left in some store a couple of weeks ago. Will the finder please phone this office.

A week from next Wednesday the Hembree case will again come up for hearing before Judge Burnett.

Mr. J. E. Smith has so far recovered from his recent illness as to be able to appear on the street on crutches.

If you find a lack of news in this paper just bear in mind that several of our compositors are in the hopfield and that the old man has his hands just a little more than filled.

Kodol will, in a very short time, enable the stomach to do the work it should do and the work it should do is to digest all the food you eat. It makes the stomach sweet and it is pleasant to take. It is sold here by Conrad Stafrin.

NATURE AND A WOMAN'S WORK

LYDIA E. PINKHAM

Nature and a woman's work combined have produced the grandest remedy for woman's ills that the world has ever known.

In the good old-fashioned days of our grandmothers they relied upon the roots and heros of the field to cure disease and mitigate suffering.

The Indians on our Western Plains to-day can produce roots and herbs for every ailment, and cure diseases that baffle the most skilled physicians who have spent years in the study of drugs.

From the roots and herbs of the field Lydia E. Pinkham more than thirty years ago gave to the women of the world a remedy for their peculiar ills, more potent and efficacious than any combination of drugs.

Lydia E. Pinkham's Vegetable Compound is now recognized as the standard remedy for woman's ills.

Mrs. Bertha Muff, of 515 N.C. St., Louisiana, Mo., writes:

"Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my troubles public.

"For twelve years I had been suffering with the worst forms of female ills. During that time I had eleven different physicians without help. No tongue can tell what I suffered, and at times I could hardly walk. About two years ago I wrote Mrs. Pinkham for advice. I followed it, and can truly say that Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice restored health and strength. It is worth mountains of gold to suffering women."

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Muff, it will do for other suffering women.

No Rest For the Weary.

If a man sits down at set of sun
To count the things that he has done
His good wife will suggest a few
More things that he ought to do.
—Detroit Tribune.

A Way Out.

"Scientists say the supply of coal is nearly gone. Then what'll we do?"

"Oh, burn coke, I suppose." — New York Times.

Dissatisfaction Guaranteed.

The climate as the seasons go
Doth still betray man's trust.
It's either cold and rain or snow,
Or else it's drought or dust.
—Washington Star

Medicos Perfect Organization.

As mentioned last week the doctors of Yamhill and Polk counties met last Monday evening in a room adjoining this office and perfected an organization for mutual benefit. Dr. Gilstrap, of Sheridan, was made president, Dr. Bollman, of Dallas, secretary and treasurer. Drs. Starbuck, Bollman and McCallon were named to get up a constitution and bylaws. The next meeting will be held in McMinnville on the first Monday in December, when they will permanently organize.

PEEDEE.

There is a new 8-pound baby boy at Mr. and Mrs. Ed. Pagenkoff's.

Rob Arnold began picking hops last Thursday and Mr. Lacey began Saturday.

Will Bush had to quit hauling gravel on account of one of his horses being sick.

Bluford Bush took a load of pickers to his brother, Clay's, hop yard near Parker.

Mrs. Ruth Nevills is boarding the hands and running a store at the Lacey hop yard.

Mrs. Womer and three daughters are picking hops in the Walker yard at Independence.

J. H. Hawley and Frank Mulkey, of Monmouth, were Dallas visitors today.

Bought a Fine Tract.

The Croisan Co. has just sold twenty acres of land to W. J. Newhouse. The tract is south of Lacreole, in Polk county, five miles west of Salem, and near Eola. Mr. Newhouse intends to raise peaches and onions. It is bottom land, some of it similar to land on which Mr. Newhouse made a success in raising onions, near Lake Labish. The price paid was $100 per acre, and there are no buildings on the tract. The land is more than worth the money, for there is no better in the state. The Croisan Co. are not anxious to sell any more of this bottom land, even at the price of the tract secured by Mr. Newhouse. They are preparing to plat 300 acres across the Dallas-Salem road from this bottom land, and north of it. This is cherry land, overlooking the bottom land[illegible] will pay those looking for [illegible]d to make a note of this. [illegible] better cherry district in [illegible]n than this one.—Statesman.

Rev. Knowles occupied the pulpit at the Methodist church for Rev. Dixon.

Mrs. Abel Uglow returned to South Bend yesterday with her daughter, Miss Pearl, who has been visiting here for some time.

A band of gypsies have been camped near town lately. They have a number of Shetland ponies that the small boys are awfully stuck on.

WISE TALKS BY THE OFFICE BOY.

LAUGHARY'S GROCERY.

Gee, wouldn't it disturb you the way some of the bottled and canned goods come in with the pure food labels on them? Some of them look like a tourist's suit case that has been going the rounds of the swell hotels. You see the government has a pure food law that works all over the country and each state has passed a pure food bill of its own which is supposed to line up with the federal law, but in a good many cases it is stamped up too tight. That doesn't do any harm, of course, only it puts the manufacturers to a whole lot of extra trouble and expense for printing the different labels, but our brand of canned goods doesn't need any pure food labels. These are the best grown and best made and best ever. They are as good as canned goods can be and far better than most of those sold. No artificial coloring or preservative of any kind. They are priced only a trifle higher than we would have to charge you for the cheaper brands and I guess they are about twice as good. Our puri-ton-ated coffee is canned, nobody can beat it and M. J. B.
