Campbell & Hollister

DALLAS, OREGON

Portland Business College

"THE SCHOOL OF QUALITY"

Tenth and Morrison, Portland, Oregon A. P. Armstrong, L.L.B., Principal.

☐ We occupy two floors 65 by 100 feet, have a \$20,000 equipment, employ a large faculty, give individual instruction, receive more call for office help than we can meet. Our school admittedly leads others in quality of instruction. It pays to attend such an institution.

☐ **Said a Business Man:** "Keep hammering away everlastingly on thorough work. It will win out in the end." **Said an Educator:** "The quality of instruction given in your school makes it the standard of its kind in the Northwest."

☐ **Open all the year.** Students admitted at any time. Catalogue free. References: Any bank, any newspaper, any business man in Portland.

Our Salem Railroad.

Work on the grading of the road from here to the state capital is progressing rapidly as a crew of 40 men and 20 teams can do it, and it is expected that by fall all the heaviest part of the grading on the line will have been completed. The balance of the route, after the grading near Eola is completed, will be comparatively easy.

Sentenced to Death.

At a special sitting of Judge Barnett's court last Monday A. J. Hembree, who stands convicted of the murder of his wife and daughter in Tillamook county, was sentenced to pay the full penalty of the law. The motion to set aside the verdict was overruled by the judge, but the defense will have until the first of November to file a bill of exceptions.

MUST EDUCATE.

Dallas Girl Wins--Near Beer Taxed--More Republican Promises.

FREDA LAUNER WINS.

Gets the Big Prize in the Portland Journal's Contest.

Again has a Dallas girl demonstrated to the state of Oregon that Dallas is the place where they do things, and that this town never goes back on its girls. In every contest in which Dallas girls have entered, they have come out large winners, and in most cases at the very top notch. The latest is the case of the Oregon Journal's educational contest, in which was entered Miss Freda Launer, a little miss of some 16 summers. She is small in stature, but has certainly done some pretty tall rustling and comes out at the top of the whole bunch, beating her nearest competitor, lad from Portland, by 1290 votes. This gives her a cash prize of \$150, and entitles her to a year's scholarship in one of the several colleges that he may select from. Miss Launer has certainly worked hard and deserves the prize she has striven so earnestly for.

SOMETHING WRONG.

Same Promises Made Before. Why Were They not Kept.

On many dead factories in the United States this notice is being posted:

"Believing that the election of Taft and Sherman means a safe and progressive business administration the day following their election we shall start his plant on 'Full Time and Keep Going.'"

There seems to be something radically wrong about this notice, other than its aim to draw votes for Taft and Sherman. Do we not remember of like notices being posted up at former presidential elections. I guess we do. Then why are those factories not running now? Are we to believe that the word of the proprietors, and the instigators of the notices is of no account whatever? It certainly looks that way. If they have kept their promise of former years, the factories would now be running. Were we not assured that the election of McKinley would insure a full dinner pail and a job for everyone. Was not this promise also made for Roosevelt? Why, sure. And other promises were also made and not kept.

INTERESTING MEETING

Of City Dads--Near Beer Establishments Taxed.

The city council met in regular session last Monday evening with all the officials present.

The street committee was given authority to put in certain street and alley crosswalks on Washington street where sidewalks had recently been laid.

On suggestion of Cosper the fire chief and mar had been instructed to make a thorough test of all fire hose prior to putting it away for the winter, as several leaks had developed at the last fire. On motion of Ellis \$100 was ordered drawn from the general fund to the credit of the fire library.

The city engineer made the following report of the cost of construction of the several blocks of macadam streets as here given: The block on Main street, between Court and Washington, \$1,177.71; Court, between Main and Jefferson, \$1,184.83; Court, between Main and Church, \$1,515.50; Mill, between Main and Jefferson, \$1,202.98. The cost of the intersection at Main and Court was reported at \$231.03, and that of the arch over the mill race on Main, \$153.18.

A resolution ordering the building of a cement walk in front of D. C. Crider's Main street property was passed.

Claims allowed:

O. Hayter, salary	\$ 22.50
F. H. Morrison, salary	150.00
Dallas Lumber Co.	12.32
Will Shewey, hauling	2.50
Stow Bros., hauling	2.50
Dave Reddekopp, hauling	5.00
Total	\$217.92

An ordinance providing for a cement conduit for race in block 9 read first time.

An ordinance fixing license on the sale of near beer came up for final passage. On motion of Starin the license was placed at \$900, four of the councilmen voting for such a tax and three against. No license is to be taken out for less than three months, and the penalty for violation of the provisions of the ordinance was placed at a fine of not less than \$25 nor more than \$100, or imprisonment for more than 30 days. This ordinance provoked considerable discussion, and the wet and dry propo-

sition was talked over to a finish. Some of the councilmen took the stand that \$900 a year was entirely prohibitive, out of all reason and an unjust discrimination, and the city attorney gave it as his opinion that such a tax would not hold under the charter. Other councilmen looked at it from an entirely moral standpoint rather than from their authority as allowed by the charter. The happenings of Sunday night, when it is said a number of young men were in an intoxicated condition, entered largely into the discussion. At last a motion to reconsider was made by Cosper, placing the tax at \$75 a quarter or \$300 a year, and the ordinance was so passed by a vote of six to one, Myers voting no.

The marshal was ordered to have Mr. Kearns' sidewalk laid straight and with the city engineer's stakes. Coad moved that a committee of two be appointed to investigate the question of putting the sewer laterals through private property, and Cosper and Eglov were instructed to act with the city engineer in the matter.

The city engineer was instructed to hire a man to superintend the laying of the sewers.

The marshal was ordered to locate Judge Stouffer's private drain pipe.

COMPULSORY EDUCATION.

Parents Liable to Fine if Children are Not Schooled.

Parents are liable to arrest and punishment by fine and imprisonment if they do not send their children to school throughout the school year. The law was changed by the last legislature and many do not know that it is much more drastic than it was formerly. County Trust Officer H. C. Seymour says that parents, guardians and others having control of children, are charged with the duty of sending every child between the ages of 6 and 14 and all between 14 and 16 who are not regularly engaged in any useful employment, to school. Children who are physically unfit must exhibit to the trust officer a certificate of a competent physician. The penalty imposed on parents for neglecting to send their children to school is a fine of \$5 to \$25, 2 to 10 days in the county jail or both fine and jail sentence. Teacher, principals, and school officers are charged by the new law under penalty of a fine, with reporting to the trust officer all information they have regarding any violation of the school law, and all cases of children who do not attend school. Teachers who fail to obey the law in this respect may be fined from \$5 to \$25 for each offense.

Fall Showing Of

Ladies Tailored

Suits

You will see at a glance the difference between our "La Vogue" garments and those of other makes.

We can assure you a perfect fit—the latest styles—the most perfect finished garments in all America, and our prices are very reasonable.

The Bee Hive Store

A RELIABLE PLACE TO TRADE

DALLAS, OREGON

SQUARE AIR-TIGHT

DID YOU EVER HEAR OF ONE BEFORE?

The body is made of genuine planished iron and is protected by a cast lining, the front section of which is so formed that the draft admitted by the screw damper is carried downward nearly to the stove bottom. The door opening is very large and is provided with a smoke curtain. There is a check damper under the pipe collar to be used in keeping fire at night. Heavy cast ribs to hold a layer of ashes. We will be pleased to show you the many good points of this wonderful heater.

A Firm Foundation

New Era Paint

It's pure paint—every atom of it.

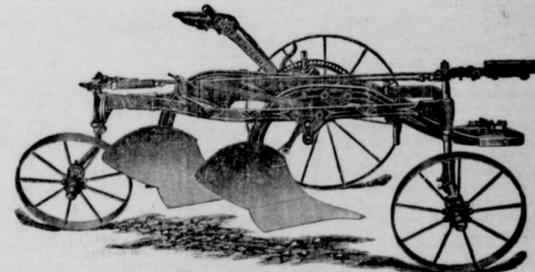

The reputations of thousands of good painters all over this country has been firmly built on the foundation of New Era Paint, because their work was so excellent that it defied complaint or criticism.

New Era Paint is made from the highest grade of materials, and its quality is established by years of practical tests.

Ask for color card, showing latest fashionable shades and proofs of New Era quality.

Made by
Acme White Lead & Color Works, Detroit, Mich.

NEW TRIUMPH GANG PLOWS

It combines perfectly the four great essentials in a gang plow: First, it is strong and durable in construction; second, it does absolutely perfect work; third, it is extremely light of draft; fourth, it is easy for the operator to handle. The wheels carry the entire weight; not only the weight of the driver, but also the weight of frame, furrows, turned and landside pressure are all carried on the wheels. That is the reason it is the highest draft gang plow. That is one of the reasons that it is so popular. No one accuses the New Triumph of being a horse killer.
