WHY NOT PROTECT THE INDIVIDUAL.

The federal government requires of national banks a guarantee for the return of government funds. County and municipal governments, as a rule, require a similar guarantee. But the individual depositor has no guarantee. And freedom from bank runs and panics depends upon the confidence which individual depositors have in the safety of their bank accounts. The guaranteed deposit plan is, therefore, imperative for the safety of the individual's hard earned savings and for the maintenance of peace and order in the business affairs of every community.

Now it comes to light that Cleveland never wrote a letter supporting Taft for president, but that the whole thing was a rascally fery. Senator Gore's endorsement of the bank guarantee is much better than other people's theoretic sayso. The senator has seen it in actual operation and knows that it works. T. R. should remember the fate of other heroes that have come up before the American gaze. We are a people that tire easily, and can get e-ough and plenty of a good thing, especially if it gets a little tainted. There are other men just as good, just as honorable, and maybe a littl-an or two.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmor's Swamp-Root, the great kidney, liver and bladder remedy. It is the great medical triumph of the nineteenth century discovered after years of scientific research by Dr. Kilmor, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmor's Swamp-Root is the most recommended for everything but if you have kidney, liver or bladder trouble it will be found that the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a leaflet telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmor & Co., 215 Broadway, N. Y. The regular fifty cent bottle of Swamp-Root, dollar sizes are sold by all good druggists.

Do not make any mistake, but remember the name, Swamp-Root, Dr. Kilmor's Swamp-Root, and the address in Hampton, N. Y., on every bottle.

Confidence in the republican party. What a misnomer. Broken promises surely create confidence.

THIGH BROKEN.

A serious accident occurred to Mr. Forest Moyer at the sawmill of the Polk County Lumbering Company early yesterday morning, which will cause the young man to keep his bed for the next six weeks at least. Just after going to work in the morning it seems that a dead mite shoved a long piece of 2x12 stuff into the edger, which instead of going where it belonged, lit on the saw and was hurled upward with terrific force. Mr. Moyer was in its track and he was nearly sent through the roof of the mill, breaking his thigh and cutting him up considerably about the head. Dr. Starbuck was phoned for and managed to catch the up train, arriving there in good time to minister to the sufferer. Mr. Moyer is aged about 22, is married, and the accident will prove a serious handicap to his work.

The Salem Statesman says: Three Salem people are named as heirs of the estate of Thomas Price of Polk county. The estate is valued at \$15,000 and the principal properties in connection are in Polk county. The probating of the will is to take place here, the elder Mr. Price dying while on a visit to this city. The heirs named are: J. F. Otto and Emma Price, of Salem, and they request that appraisers of the estate be appointed as well as administrators.

INSPECTION OF COMPANY.

On last Saturday evening the members of Company H gathered at the armory for regular quarterly inspection. Lieutenant H. B. Stout, of McMinnville company had been designated by the regimental commander as inspection officer and was present to see that our boys put up the goods. Inspection took place in the Woodman hall, and was satisfactory in every respect. Inspector Stout announcing that he was more than satisfied with the way he found things. Captain C. D. Choening was present with the company he organized and brought into being, and made them a tender speech of farewell. The parting between him and his militia companions was most affecting.

Sheriff Grant was an Airlie visitor today.

Judge Galloway's court is in session this afternoon, clearing up some divorce cases.

George McDowell, who fell from a log house recently, and was paralyzed, passed away Tuesday.

PORTABLE X-RAY MACHINE.

Wonderful Advancement in Scientific Apparatus Nowadays.

Dropping in on Dr. Starbuck last evening we were shown a portable x-ray machine that he has just purchased, and which fully exemplifies the wonderful advancement that science, especially in the medical profession, is making in appliances for the better combating of disease and accidents. The doctor's machine is contained in a neat hard-wood box, no larger than an ordinary suitcase, and capable of easy transportation to wherever needed. It is capable of generating several kinds and an immense volume of electricity, and all that is needed is to attach it to any electric lamp. The doctor gave us a practical illustration of how it works. We will not go into any scientific description of the machine, as we are not versed in electrical terms, but when he applied the fluoroscope to our eyes, and placed his coat covered arm between that and the green globe thoroughly charged with electricity, everything was left invisible but the bones of his hand and arm, and they as distinct as could be. The only other objects to be seen were the ring on a finger and his sleeve button. With this machine it is intended to take a photo of any fracture that he may desire. This protects the surgeon from damage suits for mal-practice, and is for the benefit of the patient by showing at once whether the work has been properly done in the setting of a limb, and which has oftentimes proven beneficial in buntings, rheumatism, and kindred diseases. The cost of the machine, in toto, was a little less than \$300, and is one that will come in very handy, especially where so many accidents occur. It is the very latest thing of the kind, and shows what strides the profession is making in appliances for the benefit of the injured.

THE INDUSTRIAL FAIR.

A Grand Success in Exhibits and Attendance.

Our town is chuckle-buck today with people coming to view the work of Polk county's school children, and to decide for their own personal satisfaction as to which ones of them are entitled to the numerous awards. The exhibit along all lines is a good one and far surpasses those of former years. The children have all taken a greater interest, and the result is shown in the fully lined shelves at the Woodman hall. Our space is so limited this week that we cannot give a write-up of the many pleasing features. As we go to press the judges are hard at work making awards, a full list of which will appear next week. Mr. A. L. Peck, of O. A. C., and Mrs. Scudler, whose husband is a professor in the same institution, are the judges, and they are enthusiastic in praise of the showing made by our scholars, and say that it would be hard to improve upon in any particular. Stockwell's band turned out in uniform last night and gave the visitors a musical treat, both on the street and at the hall.
