MOONEY GETS RUSTY INTO LOTS OF TROUBLE

RECORDS

A great pleasure in an- Phonographs a number Records, which will add in its present form, and made by Mr. Edison at we now have to offer process and playing an l. Its most important e twice as fine as the than twice the playing er of the Record itself. dnt it became necessary the we r of the smaller d a 200-thread Record, changes and refinements to secure these results, and supervised by Mr. lution of its kind that nute that the eye can- en more clearly, more e the same time, they nimate records will be b, making it the lowest longer than any other present Phonographs, ord in addition to the to offer an attachment nograph, so that users omer to play the new on Phonograph so that easy to attach to any ying the speed of the carry either the two- oducing point so that it Triumph Phonographs, o will explain also the both the present and ator. le for playing both the bel the Edison Standard ipa Combination Type me Combination Type, Phonographs equipped ell the Gem, Standard, store. r estimated. Everyone ind that interest greatly hearing the Amberol d have been made by men—that is, the long e best Phonograph for
