 Several members of the city council took a trip in the hills west of town Monday in quest of water for city use. Abundance of good spring water was found and now it is hoped something will be done looking to city water.  
 That birthday party given Richard Vanden Bosch was a sure enough surprise for Dick. His numerous friends took advantage of the occasion and left with him many useful and beautiful articles in kindly remembrance and expressions of good will.  
 Tuesday night the members of the Methodist church gave their new pastor, Rev. Paul and family, a surprise and pound party at the church. Addresses of welcome were given, short speeches and songs, after which a lunch was partaken of by the large number present.  
 There are rumors of some important business changes likely to take place. If the rumors materialize it will all tend to the upbuilding and advancement of Falls City. Our city is doing fine and some of our wide awake young men realize the great opportunities here and are being ready to take advantage of them.  
 The mask carnival at the skating rink Saturday night was a grand success. The large number of skaters presented a fine appearance in their costumes. It

## CATARRH BLOOD AND SYSTEM DISORDERED

Catarrh is not merely an inflammation of the tissues of the head and throat, as the symptoms of ringing noises in the ears, mucous dropping back into the throat, continual hawking and spitting, etc., would seem to indicate; it is a blood disease in which the entire circulation and the greater part of the system are involved. Catarrh is due to the presence of an excess of uric acid in the blood. The Liver, Kidneys and Bowels frequently become torpid and dull in their action and instead of carrying off the refuse and waste of the body, leave it to sour and form uric acid in the system. This is taken up by the blood and through its circulation distributed to all parts of the system. These impurities in the blood irritate and inflame the different membranes and tissues of the body, and the contracting of a cold will start the secretions and other disgusting and disagreeable symptoms of Catarrh. As the blood goes to all parts of the body the catarrhal poison affects all parts of the system. The head has a tight, full feeling, nose continually stopped up, pain above the eyes, slight fever comes and goes, the stomach is upset and the entire system disordered and affected by this disease. It is a waste of time to try to cure Catarrh with sprays, washes, inhalations, etc. Such treatment does not reach the blood, and can, therefore, do nothing more than temporarily relieve the discomfort of the trouble. To cure Catarrh permanently the blood must be thoroughly purified and the system cleansed of all poisons, and at the same time strengthened and built up. Nothing equals S. S. S. for this purpose. It attacks the disease at its head, goes down to the very bottom of the trouble and makes a complete and lasting cure. S. S. S. removes every particle of the catarrhal poison from the blood, making this vital stream pure, fresh and healthy. Then the inflamed membranes begin to heal, the head is loosened and cleared, the hawking and spitting cease, every symptom disappears, the constitution is built up and vigorous health restored. S. S. S. also tones up the stomach and digestion and acts as a fine tonic to the entire system. If you are suffering with Catarrh begin the use of S. S. S. and write us a statement of your case and our physicians will send you literature about Catarrh, and give you special medical advice without charge. S. S. S. is for sale at all first class drug stores.

#### TWICE CURED OF SKIN TROUBLES

First Case a Rash Which Itched and Stung—Threatened Ten Years Later With Blood-Poison in Leg—But Both Times the Sufferer's RELIANCE IN CUTICURA PROVED WELL-FOUNDED

"About twelve or fifteen years ago, while living in West Virginia, I had a breaking-out, and it itched and stung so badly that I could not have any peace because of it. I saw three doctors and they did not agree on what it was, so one of them gave me something that he called medicine, but I called it soda water. I might just as well have washed in rain-water. Then I got some Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent and began to get better right away. They cured me and I have not been bothered with the itching since, to amount to anything. About two years ago I had the grippe and pneumonia which left me with a pain in my side. Treatment ran it into my leg, which then swelled and began to break out. It got in pretty bad shape, so went to a doctor. He was afraid it would turn to blood-poison. I used his medicine but it did no good. Now I use Cuticura. I used three times and cured the breaking-out on my leg. My leg was so sore that Cuticura, J. F. Hennen, R. F. D. 3, Milan, Mo., May 13, 1907."

 Fiske, the best printer.  
 During last winter there came a deep snow, and we had nothing to use for cleaning the walks except a pressed steel shovel. The snow would not slip from the shovel without a hard jerk on the shovel handle. This tired me and I began to think of a remedy, which resulted in taking the shovel and heating it with hot coals from the fire. When hot I applied a wax candle to the surface, covering it all over. The snow then would readily slip from the shovel.—From December Popular Mechanics.

The snow would not slip from the shovel without a hard jerk on the shovel handle. This tired me and I began to think of a remedy, which resulted in taking the shovel and heating it with hot coals from the fire. When hot I applied a wax candle to the surface, covering it all over. The snow then would readily slip from the shovel.—From December Popular Mechanics.

 Fiske, the best printer.  
 During last winter there came a deep snow, and we had nothing to use for cleaning the walks except a pressed steel shovel. The snow would not slip from the shovel without a hard jerk on the shovel handle. This tired me and I began to think of a remedy, which resulted in taking the shovel and heating it with hot coals from the fire. When hot I applied a wax candle to the surface, covering it all over.
