BABY TORTURED FOR 6 MONTHS

By Terrible Itching Eczema—Face and Head a Solid Sore—Spread to His Hand and Legs—Would Scratch Until He Bled—Tiny Sufferer Immediately Relieved and

ENTIRELY CURED IN 2 MONTHS BY CUTICURA

"When my son Walter was three weeks old, eczema appeared on his face. We did not know what it was so went to a doctor who treated him for three months. Then he was so bad that his face and head were nothing but one sore and his ears looked as if they were going to fall off, so we tried another doctor. He said he could cure him and we doctored there four months, the baby never getting any better. His hand and legs then had big sores on them and as for his sleeping, we could not think of it, the poor little fellow suffered so terribly. First I tied his hands to the crib to keep him from scratching, but when it got so bad I tied him in a shawl or he would scratch himself all bloody. When he was seven months old we tried a set of the Cuticura Remedies. The first application of Cuticura let him sleep and rest well, in one week the sores were gone but it stayed red and sometimes it would itch so we used Cuticura for two months, then he had a clear and white face. Now he is two years and seven months old and has never had eczema again. I hope this letter will help some who are suffering from skin disease. Every mother who has a baby suffering with skin disease should just try Cuticura; there is nothing better. Mrs. Louis Beck, R. F. D. 3, San Antonio, Tex., Apr. 15, '07."

A single set of Cuticura Remedies is often sufficient to cure torturing, disfiguring, itching, burning, and scaly humors, eczemas, rashes, and irritations, from infancy to age, when all other remedies fail.

Complete External and Internal Treatment for Every Humor consists of Cuticura Soap, (25c.) to Cleanse the Skin, Cuticura Ointment (50c.) to Heal the Skin, and Cuticura Resolvent (50c.), (or in the form of Chocolate Coated Pills 25c. per vial of 60) to Purify the Blood. Sold throughout the world. Potter Drug & Chem. Corp., Sole Props., Boston, Mass.

Mailed Free, Cuticura Book on Skin Diseases.

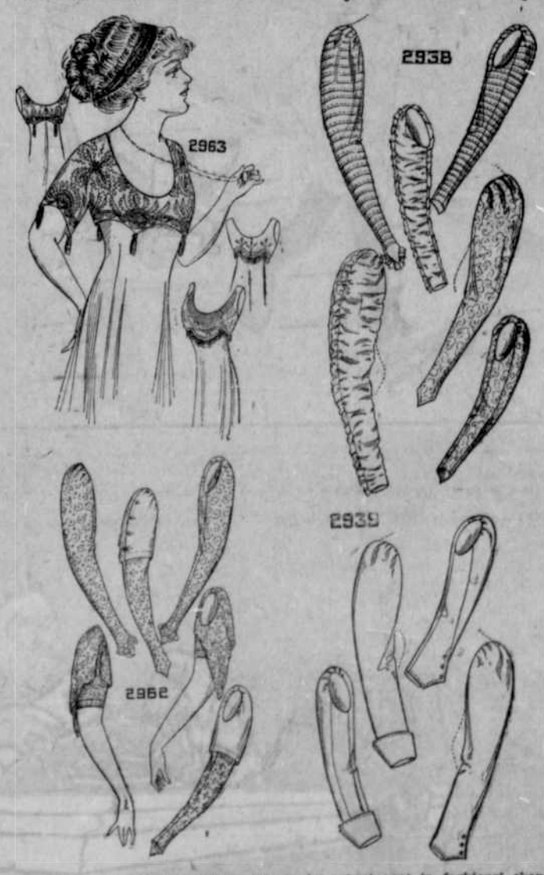
A Fashion Chat on the Styles of the Day.



Sleeves and accessories play such an important part in fashions' changes that too much attention cannot be paid to these details. Charming little skeleton jackets or boleros formed of lace passementerie or material heavily braided or embroidered forms the principal decorative feature of many of the new waists and costumes, these are especially attractive with a tight fitting princess gown or the high waisted Empire styles. With the costumes of simple clinging skirts, it is necessary that the bodice have some effective elaboration and it will be found that these little boleros are especially adapted to filling the bill. Pictorial Review Pattern No. 2963 is a particularly happy idea in this line, two styles being combined in the one pattern, one having a short sleeve cap cut in one with the body portion, also a sleeveless bolero.

Sleeves grow longer and more close-fitting, if that is possible. It is seldom that an extreme style has rung in so many changes as the present long sleeve. They are plain, tucked and shirred, one-seamed and two-seamed, with caps and without, so no one need to go sleeveless. Pictorial Review Pattern No. 2938 embraces several very popular varieties, the plain and tucked sleeves having two seams. No. 2962 has several excellent suggestions for sleeves in evening gowns. The long sleeve is dart fitted to the elbow. No. 2939 is a two-seamed coat sleeve in two styles—a straight sleeve with cuff and the new flare or bell sleeve. Either are suitable for the new jackets and coats. Bolero in sizes 32, 36 and 40 inches bust measure, sleeves in three sizes to correspond with 32, 36 and 40 inches bust measure. Price, including cutting and construction guide, 10 cents.

RHEUMATISM
CAN NOT BE RUBBED AWAY

It is perfectly natural to rub the spot that hurts, and when the muscles, nerves, joints and bones are throbbing and twitching with the pains of Rheumatism the sufferer is apt to turn to the liniment bottle, or some other external application, in an effort to get relief from the disease, by producing counter-irritation on the flesh. Such treatment will quiet the pain temporarily, but can have no direct curative effect on the real disease because it does not reach the blood, where the cause is located. Rheumatism is more than skin deep—it is rooted and grounded in the blood and can only be reached by constitutional treatment—IT CANNOT BE RUBBED AWAY. Rheumatism is due to an excess of uric acid in the blood, brought about by the accumulation in the system of refuse matter which the natural avenues of bodily waste, the Bowels and Kidneys, have failed to carry off. This refuse matter, coming in contact with the different acids of the body, forms uric acid which is absorbed into the blood and distributed to all parts of the body, and Rheumatism gets possession of the system. The aches and pains are only symptoms, and though they may be scattered or relieved for a time by surface treatment, they will reappear at the first exposure to cold or dampness, or after an attack of indigestion or other irregularity. Rheumatism can never be permanently cured while the circulation remains saturated with irritating, pain-producing uric acid poison. The disease will shift from muscle to muscle or joint to joint, settling on the nerves, causing inflammation and swelling and such terrible pains that the nervous system is often shattered, the health undermined, and perhaps the patient becomes deformed and crippled for life. S. S. S. thoroughly cleanses the blood and renovates the circulation by neutralizing the acids and expelling all foreign matter from the system. It warms and invigorates the blood so that instead of a weak, sour stream, constantly depositing acrid and corrosive matter in the muscles, nerves, joints and bones, the body is fed and nourished by rich, health-sustaining blood which completely and permanently cures Rheumatism. S. S. S. is composed of both purifying and tonic properties—just what is needed in every case of Rheumatism. It contains no potash, alkali or other mineral ingredient, but is made entirely of purifying, healing extracts and juices of roots, herbs and barks. If you are suffering from Rheumatism do not waste valuable time trying to rub a blood disease away, but begin the use of S. S. S. and write us about your case and our physicians will give you any information or advice desired free of charge and will send our special treatise on Rheumatism.
