He will have supervision of the job department of the Beacon office, which means that the work executed here will be the equal of any to be had anywhere in the state, and far superior to most of the printing which the consumers have to use. THE ELITE MILLINERY

MILL ST. UGLOW BLOCK

A Flashion Chat on Negligee Apparel

At this season of the year when the counters of shops, both large and small, teem with bargains in the way of remnats of pretty fabrics of all kinds, not to mention the exquisite bits of lace, embroidery, medallions and motifs that one can pick up for a more nothing, the temptation to indulge in these odds and ends for the delight of conjuring them into fascinating little garments for our later appareling is too strong to be resisted.

Now that embroideries, two or more kinds of insertions and the medallions as well are comprised in one garment, the remnant counters can readily supply the foundation for most charming negligees.

Easter is so late this year that many are waiting until the last moment before deciding positively as to the last little mark of distinctiveness which shall spell the newest in fashion in tailored suits. For this reason, the present time is most opportune for the making of the indispensable kimono or lounging robe. The little combing sacque, too, should be included and as many of these can be worn for dressing sacks, the consideration accorded them should greater than usual.

No matter how simple the design it should be constructed with neatness, as the wearing qualities of a garment depend quite as much upon the way in which it is put together as upon the fabric of which it is made. Because the materials have been purchased from the remnant counter is not an excuse for carelessness in any part of the work.

Numerous possibilities are suggested by the models illustrated for any one of which bargains and remnants may be requisitioned.

For early spring wear when the fires have been allowed to die down or perhaps been entirely dispensed with, soft cashmeres and challies make extremely practical and comfortable robes and if one does not care to invest in laces, the bordered patterns with the border serving as trimming are very effective, while inexpensive silk, satin, mull or ribbon creates pleasing decoration on any and all fabrics.

Pictorial Review No. 2432 may be appropriately donned as a dressing sack although in reality a combing jacket. It is a most fascinating little model requiring but one and one-half yards of thirty-six inch material and is entirely in one piece; not a seam anywhere,—and so easily made that a knowledge of patterns is not essential to successfully make this dainty affair. Silk, challie, cotton voile, cashmere, cotton crepe or lawn are equally appropriate for the reproduction of this design, while lace edging and insertion is the most effective trimming if it is desired to wear it as a dressing sack, but if for a combing jacket, bands of silk or ribbon may outline the edges. The pattern is in sizes 32-36-40 and 44 inches bust measure. Price 10 cents.

Pictorial Review Pattern No. 2574 is suitable not only for the materials mentioned in the preceeding description but as well for the pretty ginghams, swiss and similar fabrics from which may be developed the garment for practical morning wear, trimmed with bands of harmonizing or contrasting color as one may fancy. The sleeves are novel, yet simple of construction and the complete garment is as charming and neat as one could desire for simple negligee wear or for a breakfast jacket. The pattern is in sizes 32-34-36-38-40 and 42 inches bust measure. Price 15 cents.

Pictorial Review Patter No. 2634 is suitable for a lounging robe and at the same time is very pretty for wear as a wrapper and equally appropriate. A graceful line is given to the back by the long panel section and the short waisted side backs. The waistline is almost normal at the front a belt extending from the back confining the fulness, which is created by tucks taken up to yoke depth. The pattern is in sizes 32-34-36-38 and 40 inches bust measure Price 15 cents.

Cutting and construction guides are included in the above patterns.

DALLAS MERCANTILE CO

G. N. TO LEAVE.

Cherrington to Open Drug House in Portland.

It is with the regret that the Itemizer announces the fact that Dallas is to lose one of its most prominent, successful and enterprising business men, one who has been associated with the development of the city for many years, and who has by his example aided materially in the development of the town. We refer to Mr. G. N. Cherrington, who will leave for New York city tomorrow to purchase a fine stock of drugs for a new wholesale house in Portland, that he and Mr. Wigman, the well known traveling man in that line, will open up there in the near future. That the firm of Wigman & Cherrington will be successful in this venture from the start is universally conceded by all of their friends, both here and in the metropolis. Mr. Wigman will continue on the road, and his long acquaintance with every pharmacist of note in Oregon, will at once give the new house a standing second to none. As manager of the Portland end Mr. Cherrington will make good, his agreeable personality, and thorough understanding of the business making this a foregone conclusion. During his years of residence among us Mr. Cherrington has built up a business second to none in the county, and has proved that a good drug store is certainly a paying proposition. As to what he will do with the store has not yet been determined, but as he has several offers, the new proprietor will be decided on in the near future. Mr. Cherrington will be greatly missed from business and social circles. The loss of him to Dallas will be a gain to Portland, and in view of the advancement the change will give him in the business world, the Itemizer wishes him God speed and the best of success, financially and otherwise.

SIX KICKS.

Valuation Lowered on Half a Dozen Property Owners.

The city council met in adjourned session last night, with all present except Myers, Coad and Shaw, to consider and decide on half a dozen kicks relative to the valuation placed on their property by several citizens. and a consequent request for decreased assessment in the late sewer matter. The matter had been gone over thoroughly by City Attorney Hayter and Mayor Muir, and their findings were to the effect that the property in question was valued higher than that of surrounding property. The council took the same view of the matter and a reduction was ordered on the property named, amounting in the aggregate to $197. This will have to be borne by the general fund, as there is no way of getting at the deficit.

Judge Collins appeared in behalf of the White Sewing Machine Co. regarding the sewer not reaching the lot line by a few inches. This the city will make good as they fully expected to do.

Bids were ordered advertised for re garding the macadam work to be done this year.

Charley Gregory was elected auditor to fill out the unexpired term of Judge Brown, whose resignation took place today.

R. L. Chapman appeared to protect against a 20-foot curb on Oak between Robb and Church and the ordinance will be so amended as to make it a 12-foot one on that block.

Considerable discussion was had regarding the fencing of the quarry lands to prevent stock from getting out while hauling, and Ellis was appointed to decide what was best to be done.

Fiske, The Best Printer.

Ned Thielsen, son of H. B. Thielsen, a prominent local capitalist, and Alice Meyer, daughter of H. G. Meyer, president of the State Board of Barber Examiners, were married quietly today in San Francisco. Both families are prominent, and it had been expected the marriage would be an important social event, but the young folks spoiled the plans by sliping out of town for the ceremony.—Oregonian.
