Dallas Will Make the Eagle Scram on July 3rd and 4th.

Last Monday evening on the steps of the court house a mass meeting of representative citizens was held to determine whether or not Dallas should celebrate the 4th of July in connection with the Pioneer picnic, already scheduled for July 3rd. After considerable discussion of the matter it was decided to get the opinion of the town's residents by the circulation of a subscription paper.

It was conceded by all that it would be useless to attempt to celebrate for two days unless at least \$800 could be raised, and President Loughery appointed B. M. Guy, J. C. Hayter and Ross Ellis to feel the public pulse at an early date as possible and decide the matter for good. The committee were out yesterday afternoon and are continuing their work today. So far they are meeting with good success, our people seem to feel that it is up to us to celebrate this year and to do the same in our usual first class manner. Nearly everyone approached so far is subscribing the amount apportioned them by the committee, and a willingness to give seems in evidence with all.

The time for a large celebration is now propitious for the year, as all the larger towns in the valley are to celebrate this year. We will have the only celebration in Polk county, and the closest town to observe the national holiday that we know of is Corvallis, 23 miles away. Salem is to put all her energy this year into her cherry fair, and Sheridan and McMinnville are also out of the race. Nothing but the lack of funds can prevent us from having a glorious old time. So let all pull together, go down in our pockets and dig up the necessary dollars, and keep up our town's reputation as the queen of entertainers.

ABOUT REAL TRAMPS

Ignorance of Public Regarding Them, by One Who Knows.

HOBBO IS SIMPLY A TOURIST.

He Works His Way Here and There and Takes In Scenery and Not a Few Adventures as He Goes, Says Dilapidated Gentleman.

[Copyright, 1903, by T. C. McClure.]

THE general ignorance of the public regarding tramps continues to be a source of surprise to me, though I have been bucking up against it for many years," said the dilapidated gentleman as he hitched a little nearer to the red hot stove in the corner of the lodging house. "The public draws a line between the doctor and the lawning their work today. So far they are meeting with good success, our people seem to feel that it is up to us to celebrate this year and to do the same in our usual first class manner.
