

WHY NOT SPECULATE WITH No Chance To Lose

An Investment of \$1,000 now will
double in one year and more
than triple in two.

We are selling 10 acre fruit tracts right on the edge of town for \$200 an acre. They will be worth \$800 in two years, when the fruit on them comes into bearing. There is no question about this increase. It has happened in orchard land all over the valley. We give you a chance to pick up easy money without a bit of trouble to yourself. It is a safe investment and can not decrease in value. We have only seven of these tracts left, and they may be all gone any day now. Don't wait any longer but

OLD SORES FED AND BY IMPURITIES IN THE BLOOD

Whenever a sore refuses to heal it is because the blood is not pure and healthy, as it should be, but is infected with poisonous germs or some old blood taint which has corrupted and polluted the circulation. Those most usually afflicted with old sores are persons who have reached or passed middle life. The vitality of the blood and strength of the system have naturally begun to decline, and the poisonous germs which have accumulated because of a sluggish and inactive condition of the system, or some hereditary taint which has hitherto been held in check, now force an outlet on the face, arms, legs or other part of the body. The place grows red and angry, festers and exudes into the surrounding tissue until it becomes a chronic and stubborn ulcer, fed and kept open by the impurities with which the blood is saturated. Nothing is more trying and disagreeable than a stubborn, non-healing sore. The very fact that it resists ordinary remedies and treatments is good reason for suspicion; the same germ-producing cancerous ulcers is back of every old sore, and especially is this true if the trouble is an inherited one. Washes, ointments, and ointments, no matter how good, applied directly to the sore, can do no permanent good; neither will removing the sore with caustic plasters or the surgeon's knife make a lasting cure. If every particle of the diseased flesh were taken away another sore would come, because the trouble is in the blood, and the blood cannot be cut away. The cure must come by a thorough cleansing of the blood. In S. S. S. will be found a remedy for sores and ulcers of every kind. It is an unequalled blood purifier—one that goes directly into the circulation and promptly cleanses it of all poisons and taints. It gets down to the very bottom of the trouble and forces out every trace of impurity and makes a complete and lasting cure. S. S. S. changes the quality of the blood so that instead of feeding the diseased parts with impurities, it nourishes the irritated, inflamed flesh with healthy blood, leaves the place scab over, and when S. S. S. has purified the blood the sore is permanently cured. S. S. S. is for sale at all first class drug stores. Write for our special book on sores and ulcers and any other medical advice you desire. We make no charge for the book or advice.
