

# S.S.S. CURES OLD SORES

Every old sore is an infected spot on the flesh, kept open by constant drainage of impure blood into the place. One of the principal constituents of blood is plasma, a healing property. Where the circulation is pure this element of the blood, which is of a glutinous or sticky nature, performs the necessary work in healing all sores, wounds and lacerations. It does this by sticking or joining the parts together, while nature causes a knitting of the tissues and solidifies the place.

This healing property is frequently destroyed by impure accumulations in the blood, and this vital fluid not only loses its power to heal, but becomes a source of irritation and disease to any open sore or ulcer on the body. Constantly it discharges its morbid matters into the place, and gradually it causes the infection to spread, and the sore enlarges. The morbid matter in the blood comes from different causes. A long spell of debilitating sickness, which breeds disease germs in the system, the retention of the refuse matters of the body because of a sluggish condition of the eliminative members, a continued malarial state of the system, inherited bad blood, etc., are usually responsible.

S.S.S. heals sores and ulcers in the very simplest way. It just goes into the circulation, and removes the impurities and polluted matter that are the means of keeping the ulcer open; then the sore is bound to heal. S.S.S. is the greatest of all blood purifiers, and not only does it cleanse the circulation, but it also gives every necessary property to it to promote good health. It is of the very greatest tonic value, and those who have been weakened and run down by the constitutional drainage of an old sore will find it the very remedy needed.

S.S.S. does not simply cause a scab to come over an old sore, but beginning at the bottom it heals the place permanently by building new tissue and filling in the place with firm, healthy flesh. Special balm on sores and ulcers and any medical advice free. THE SWIFT SPECIFIC CO., ATLANTA, GA.

To watch the daily shipments of beer and other stuff to Dallas, does not impress a stranger that Dallas is a dry town, in fact it is asserted that the shipments of wet goods are greater than ever before in the history of the town. But of course we have grown in population greatly since the saloons went out?

One day during the week Rev. Brackenbury went to Portland and married a niece of his, Miss Ella Blanche Houston, daughter of S. B. Houston, a prominent Portland attorney, to Harold H. Any lady reader of this paper will receive, on request, a clever "No-Drip" Coffee Strainer Coupon, privilege, from Dr. Shoop, Racine, Wis. It is silver-plated, very pretty, and positively prevents all dripping of tea or coffee. The Doctor sends it with his new free book on "Health Coffee" simply to introduce this clever substitute for real coffee. Dr. Shoop's Health Coffee is gaining its great popularity because, first, it is exquisite taste and flavor; second, its absolute healthfulness; third, its economy—1½ pound 25 cents; fourth, its convenience. No tedious 20 to 30 minutes boiling. "Made in a minute" says Dr. Shoop. Try it at your grocer's for a pleasant surprise. L. H. Scholtz.

In sickness, if a certain hidden nerve goes wrong, then the organ that this nerve controls will also surely fail. It may be a Stomach nerve, or it may have given strength and support to the heart or kidneys. It was Dr. Shoop that first pointed to this vital truth. Dr. Shoop's Restorative was not made to dose the Stomach, but to tenderly stimulate the Heart or Kidneys. That old-fashioned method is all wrong. Dr. Shoop's Restorative goes directly to these failing inside nerves. The remarkable success of this prescription demonstrates the wisdom of treating the actual cause of these failing organs. And it is indeed easy to prove. A simple five or ten days test will surely tell. Try it once, and see! Sold by W. V. Fuller.

ELECTRICITY FOR LIGHTING IS ONLY EXPENSIVE

TO PEOPLE WHO ARE WASTEFUL AND CARELESS.

TO YOU, WHO ARE NATURALLY CAREFUL,

IT DOES NOT COME HIGH.

It is economical because it can be quickly turned off when not needed. With gas or kerosene there is the temptation to let light burn, when not needed, to save bother of lighting and adjusting. In some homes the electric light bill amounts to only about \$2 per month. You can probably get some kind of artificial light for less money than electric light, but does it save you anything when it limits opportunities for work and recreation, ruins your eyesight, smokes your walls, mars decorations and increases household work. You can probably save a dollar tomorrow by going without your meals, but it wouldn't be economy. It is not so much what you save, but how you save, that counts. We are always ready to explain the "ins and outs" of the lighting proposition to you. Call on us or phone to us. We are never too busy to talk business.
