tons of hay. There is oat hay here as high as my head, and everything is green and growing received by the provided and the provide amount for the neglect. Severe auditor's report was that 1 al of the councilmen went with him to view a portion of our macadam streets on which China lettuce, the most familiar name for the pest, was growing in very rank abundance, and just about to bloom and shed its seeds to the four winds, to become worse than ever during the next We hardly believe the year. thistle has got a growth of any amount elsewhere, but it is well to take every precaution against it, and avoid its spread. The stalks, which grow to a great height in a few days, should be pulled up by the roots and then burned, so as to be sure that all danger of spreading is eradicated. The city having taken 🟶 strenuous steps to at once stop its spread, all citizens should join heartily in the movement and see that on their private property there is not a stalk of
