

BULL BOUGHT FOR \$3350.

Ross H. Nelson Obtains Prize-Winning Jersey in Kentucky.

Ross H. Nelson, of Independence, who in May went to Boston to receive a large shipment of Jersey cattle which W. R. Spain had selected on the Isle of Jersey, has gone east again to bring to the valley two carloads of imported and fancy thoroughbred Jerseys for himself and J. B. Stamp, of Monmouth. Among these are some of the finest bred cows in America.

A telegram from Mr. Nelson says that he bought Noble Pier, a fine bull, for \$3350 at the big sale on November 3 at Burr Oak farm, Shelbyville, Ky. Noble Pier was a first prize winner Jersey and has taken first prizes wherever exhibited in the United States.

A Cow Worth Owning.

Some cows may give better milk, but no cow in the world gives so much of it as Josephine, an eight-year-old Holstein-Friesian, the queen of the herd of the Missouri State College of Agriculture. Just now Josephine is undergoing a test of how much milk she will give in a year. Having already broken all the other records it is a pretty safe bet that Josephine will establish a clear title to the heavy-weight milk producing championship and hold it safe for some time.

Colanthe 4th Johanna, owned in Rosendale, Wisconsin, used to be the prize cow, but Josephine has beaten every one of her records. In the first six months of the present test Josephine produced 16,834 pounds of milk against 15,541 pounds for Colanthe. In one day Josephine produced 110.2 pounds of milk against Colanthe's 105. In one month Josephine produced 2,990 pounds against the Wisconsin cow's 2,783 and she has beaten the Wisconsin cow's averages for two, three, four, five and six months.

The average farmer is satisfied if his cows give ten quarts of milk a day, but Josephine gives enough to fill fifty-four quart bottles. Giving the average person two-thirds of a quart of milk a day three times a day, naturally with such a high production, the milk given by Josephine is inferior to that given by the average dairy cow, although it meets and exceeds the legal requirements of

butter fat. It is estimated that her milk will produce a revenue of \$1,200 to \$1,500 a year.—From "Prize Cow of the World," in Technical World Magazine for November.

The Roberts Murder Case.

"That Roberts had met his death by a gunshot wound administered by a party or parties unknown," was the verdict of the coroner's jury Saturday. To establish the cause of death was the only aim of the jury and neither murder nor suicide theory was discussed. Seven witnesses were summoned, among them Earl Gardner, who has not yet cleared himself to the satisfaction of Chief of Police Gibson. After the inquest the Roberts brothers announced that they had offered \$500 reward for the capture of the murderer if murder is proved. The county offered \$500 reward. Funeral services were held from the First Methodist Episcopal church under the auspices of the Odd Fellows. The last carriage of the plain funeral cortege was the vehicle in which Roberts met his death. It was occupied by two of the younger sons, Roberts survived by six sons and a daughter. They are Charles and William Roberts, of Independence; Frank B. and Harry Roberts, of Salem; Clarence Roberts, of Marion; Ernest Roberts, of Montezuma; Mrs. Myra Dutton, of Salem. Roberts was born in Ohio 68 years ago and when 12 years old removed to Iowa. Thence he went to California where he resided in Humboldt county. He then moved to the Chehalis country, Wash., where he engaged in the logging and timber business. About four years ago he purchased 450 acres in the Willamette Valley and took up his home with his son-in-law here. All his Willamette Valley tract but 25 acres was sold by him and he invested it in a mystery.—Statesman.

Will Have Apples to Exhibit.

J. K. Guttry is preparing a five-box lot of Northern Spy apples for his orchard for exhibition at the Portland Apple show this month. So far as we know apples from this section have never yet been placed on exhibition at any of the various apple shows, and Mr. Guttry's move is one in the right direction. This year has proven beyond a doubt that apples of the best grade can be and are raised here and a little public spirit in getting them on exhibition will at least draw attention to the possibilities of the land in that direction.—Amity Standard.

HIDDEN DANGERS.

Nature Gives Timely Warnings that no Dallas Citizen Can Afford to Ignore.

Danger Signal No. 1 comes from the kidney secretions. They will warn you when the kidneys are sick. Well kidneys excrete a clear amber fluid. Sick kidneys send out a thin, pale and foamy or a thick, red, ill smelling urine, full of sediment and irregular of passage.

Danger Signal No. 2 comes from the back. Back pains, dull and heavy, or sharp and acute, tell you of sick kidneys and warn you of the approach of dropsy, diabetes and Bright's disease. Doan's Kidney Pills cure sick kidneys and cure them permanently. Here is proof in the statement of a nearby resident. J. A. Simmons, Log Cabin street, Independence, Ore., says: "I do not believe I would be alive today were it not for Doan's Kidney Pills. I suffered for a long time from kidney trouble and lumbago. The kidney secretions were too frequent and painful in passage and caused me much annoyance. I tried a number of remedies but was not helped until I began using Doan's Kidney Pills. They helped me from the first and I am now free from kidney complaint."

The last rally at Falls City took place at Falls City Saturday evening. Two coach loads went up from Dallas, and about the same number came down from Black Rock, a free train having been chartered for their accommodation. They were met at the depot by Chairman J. G. VanOrsdall, Judge L. D. Brown, and Hon. G. W. Myer, the main speaker of the evening took the place of Hon. Harry Lane, who could not get there on account of other engagements. All the seats in the large hall were filled, together with the gallery, and many were left to stand. The enthusiasm was rampant, especially when the speaker made telling points against the present method of ring rule, and a good proportion of the audience were republicans, it showed that the hatred of assembly methods was sincere. The train left for Black Rock at 10 and for Dallas at 10:30, after one of the most enthusiastic rallies in the history of the democratic party in Oklahoma.

Remember the name—Doan's—and take no other.

Death of Polk County Lady.

The many friends of Mrs. Lynn H. Briggs will be pained to learn that she passed from this life Saturday afternoon at 2 o'clock. Her death will be a great shock to many of her Salem friends, as her condition had not been considered serious until within the last two weeks. She will be greatly missed by all. She was born in 1877, and spent her girlhood days in Salem. She was married to Mr. Lynn H. Briggs, October 2, 1907, and has lived in Portland for the past ten years. Besides her husband, she leaves her father, J. W. Harritt, one sister, Mrs. A. G. Lawrence, and one brother, Frank B. Harritt to mourn her loss.—Salem Statesman.

Penny posts by the hundreds at L. D. Daniel's.

NOT MUCH OF AN EFFORT.

Proposition to finish High School Goes Through by big Majority.

The proposition to further bond school district No. 2 in the sum of \$10,000 to complete the high school building was the issue in town last Saturday afternoon, and called out some 100 voters. It was hardly expected that any serious development to finishing up the building at the present time and getting the matter over with once and for all, would develop, but this did not deter the friends of the measure who thought of it when recording their preference, many ladies turning out to show that they desired the work well done while they were at it. There were 110 votes cast in all, 75 voting to issue the bonds, and 31 recording themselves as against any further expense at this time. The result of the vote has been anticipated by the school board, and as soon as the necessary formalities can be gone through with, the contracts for the completion of the structure and its furnishings will be awarded, and the work pushed as fast as it can be for occupancy in the near future.

Last Rally at Falls City.

The last rally at Falls City took place at Falls City Saturday evening. Two coach loads went up from Dallas, and about the same number came down from Black Rock, a free train having been chartered for their accommodation. They were met at the depot by Chairman J. G. VanOrsdall, Judge L. D. Brown, and Hon. G. W. Myer, the main speaker of the evening took the place of Hon. Harry Lane, who could not get there on account of other engagements. All the seats in the large hall were filled, together with the gallery, and many were left to stand. The enthusiasm was rampant, especially when the speaker made telling points against the present method of ring rule, and a good proportion of the audience were republicans, it showed that the hatred of assembly methods was sincere. The train left for Black Rock at 10 and for Dallas at 10:30, after one of the most enthusiastic rallies in the history of the democratic party in Oklahoma.

S.S.S. CURES MALARIA

Malaria is a species of blood poverty known as anaemia. It is a condition in which the circulation is so weak and impure that it is unable to supply the system with sufficient nourishment and strength to preserve ordinary health.

The medical profession is divided in opinion as to the manner in which malarial poison gets into the blood. Some take the position that it is an atmospheric poison, the specific germs of which are breathed into the lungs and thus transmitted to the circulation. Others advance the opinion that persons become inoculated with the poison through the bites of mosquitoes. All however agree that MALARIA is a blood affection, and any treatment to successfully overcome it must not only purify this vital fluid, but at the same time add the necessary qualities of richness and strength to the circulation.

The malarial poison destroys large numbers of the red corpuscles of the circulation, and the peculiar paleness of anaemic persons is due to this fact. In the first stages of Malaria there is a bilious condition of the system, constant bodily weakness, poor appetite, and a "no account" tired feeling.

S. S. S. searches out and destroys every particle of malarial infection and builds the blood up to a healthy, nourishing condition. Then the system receives its required nutriment, the bright red corpuscles begin to multiply in the circulation, sallow complexions grow ruddy and flushed with health, the liver and digestion are righted, the appetite improved, and the system vitalized and refreshed in every way. S. S. S. is a safe and pleasant remedy as well as an efficient one. If you have Malaria we will be glad to have you write us describing the case. We will send free our book on the blood and at the same time our physicians will give you some medical advice that will be of great service to you in curing yourself with S. S. S. No charge for the book or advice.

A PHYSICAL WRECK.

During 1900 I was running a farm on the Mississippi River, and became so impregnated with malaria that for a year afterwards I was unable to do any work. I took a number of medicines recommended by the doctor, but nothing did me any good until I began to use S. S. S. which I did about a year ago. The result was that after taking several bottles of the large size I was as well and strong as I ever was, and have never had a chill since. I expect to take S. S. S. every year as a preventive, and would advise everybody else to follow my example. S. E. COWLEY, Amory, Miss.
