Electric Driven Factories Are Safe for Workmen ...

Electric moters can be connected direct or close to machinery. Dangerous shafting and belts are eliminated. Doing away with belt transmission greatly reduces the chances of personal injury to employes. Insurance inspectors will bear out this statement with emphasis.

Electric drive means clean, safe surroundings; ease and convenience of operation; increased production with the same investment and more economical operation.

Advertisements do not sell electric power; they merely help to interest the prospective user and sometimes induce him to send for a power expert.

WARD SCHOOL CHILDREN CAN WRITE.

Take Lively Interest in Study of Current Literature and Events.

We had a good number of patrons from this district at the Educational Rally held at Airlie Saturday, March 16th. We are also planning to take part in the Parents' meeting to be held at Kings Valley on March 23.

Our reading table contains many of the leading magazines, periodicals and newspapers, which affords plenty of material for the reading period. All of the pupils take an interest in the study of current events.

New window shades have been supplied to the school room but we are still in need of some new blackboards which we trust will be added in the near future.

Superintendent H. L. Mack congratulates the pupils on the improvement made in penmanship and grades the writing test mailed to his office. Following is a partial list who are being taught free arm movement and their percentage given by the superintendent:

Olive Wilson, 7th grade, first test, Oct. 1911, 55 per cent; last test. March 1912, 90 per cent.

Bernadetta Wilson, 8th grade, first test, Oct. 1911, 40 per cent; last test, March 1912, 85 per cent.

Golda Bevens, 3rd grade, first test, Oct. 1911, 40 per cent; last test, March 1912, 85 per cent.

Dilph Bevens, 7th, first test, 48 per cent; last test 85 per cent.

Ray Maxfield, 7th grade, first test, Oct. 1911, 50 per cent; last test, March 1912, 80 per cent.

Bonnie Bevens, 5th grade, first test, Oct. 1911; last test. March 1912, 88 per cent.

Willard Wilson, 5th grade, first test, Oct. 1911, 50 per cent; last test, March 1912, 85 per cent.

Loyal Wilson, 5th grade, last test, March 1912, 80 per cent.

In the spelling contest of March 15th, the following is the per centage made by each grade: 8th grade, 97 per cent; 7th grade. 100 per cent; 5th grade 100 per cent.—Corvallis Republican.
