DALLAS is the most progressive City on the West Side of the Willamette River, with a pull together population, and the best prospects for future advancement. She has a number of good, sound industries, but wants more, and is open for any sound, business-like proposition from manufacturers who have capital behind them and the experience in making the goods.

Dallas now has a fruit packer, a flouring mill, a foundry, a planing mill, wagon shops, tannery, saw mill, axe handle factory, wheel barrow factory, and the other usual small industries, and prospective oil wells.

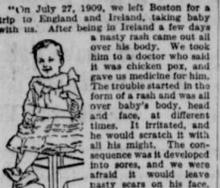

Dallas wants a cement factory, a woolen mill, a match factory, a furniture factory, a barrel stove factory, a ship knee and bow sprit factory, piano factory, box factory, etc.

Our timber resources are unlimited and we desire them worked up into anything that can be made of wood.

For further particulars address the Secretary of the Dallas Commercial Club.

COULD NOT SLEEP WITH ITCHING RASH

All Over Baby's Body, Head and Face. Scratching Made Sores. Used Cuticura Soap and Ointment and Have Had No Further Trouble.

"On July 27, 1909, we left Boston for a trip to England and Ireland, taking baby with us. After being in Ireland a few days he had a rash on his face and neck. It was a nasty rash that came out all over his body. We took him to a doctor who said it was chicken pox, and gave us medicine for him. The trouble started in the form of a rash and was all over baby's body, head and face, at different times. I irritated, and he would scratch it with all his might. The consequence was it developed into sores, and we were afraid it would leave nasty scars on his face. When we reached England we took baby to another doctor. He said his condition was due to change of food and climate, and gave more medicine. The rash got no better, and it used to fret and burn at night so bad that the child could not sleep. He was completely covered with it at different times. It was at this time that my mother advised us to try Cuticura Soap and Ointment. After using Cuticura Soap and Ointment for about nine months the places disappeared. There are not any scars, or other kind of disfigurement, and baby is completely cured by the Cuticura Soap and Ointment. We had had no further trouble with baby's skin. Nothing stopped the itching, and allowed baby to sleep but Cuticura Soap and Ointment." (Signed) Mrs. Margaret Gunn, 29 Burrell St., Roxbury, Boston, Mass., March 12, 1911.

IT IS WHISPERED

That the knockers are so elated over their semi victory that they threaten to enter county politics.

That some of them are very liable to want assistance to get rid of an incubus they are very certain to have foisted upon them at the primaries.

All is not gold that glitters, as a would be Polk millionaire found out to his discomfiture last week.

That if our base ballists want a play ground, they must first show they have the goods.

That Dallas is doing her part toward raising Oregon made hen fruit, but we have noticed no diminution in price.

That people who own large street frontage in a town must expect to pay the cost of improvement in Dallas and not retard progress.

That street improvement for the year should be in progress and not held up by hickering as to who is to boss the job.

That lots of people will have to be sworn in for the primaries.

That the main thing is to allow no political bickering to create hard feelings and retard our progress.

What is known as the Smith ranch, located six miles west of Salem in Polk county, was recently sold by Thomas E. Langley to Dr. J. M. Hansman and M. N. Moore for \$35,000. This farm contains 320 acres of as good land as is to be found in the Willamette valley, and is a highly improved place. The improvements consist of a large modern 14-room dwelling equipped with all of the essential conveniences, barns and outhouses. The residence is heated with hot water and all the buildings are piped for water which is secured from a large spring on the place. The new owners plan to develop a nearby water power to supply the place with electrical power, light and heat.

WEST STRONG FOR WOODROW WILSON

Rank and File of the Party in That Great Section Recognize His Worth.

HAS REDEEMED HIS PLEDGES

His Actions as Chief Executive of the State of New Jersey Show His Political Ability and Integrity—Loyal to People.

BY CHARLES G. HEIFNER, Chairman of Democratic State Committee of Washington.

I know pretty accurately the sentiment of the rank and file of the democrats of the West. They are strongly in favor of Woodrow Wilson for our Presidential nominee next year. I feel sure that this statement will hold good in every state west of the Mississippi River. I recently spent some time in the east on business that brought me in touch with a number of influential business men. Incidentally I have had occasion to discuss political conditions with these men and I am glad to say that, regardless of past affiliations, I find them strongly in favor of Governor Wilson. It is not difficult to ascertain the cause of this faith and trust and confidence on the part of farmers, wage workers and business men in the political ability and integrity of Woodrow Wilson. He kept the faith. A year ago while a candidate for Governor of New Jersey he made certain pledges and promises to the people of that trust ridden state. The people took him at his word and elected him, the first democrat to be elected Governor in that state in sixteen years, and to the gratifying amazement of all honest men and to the utter consternation of the political tricksters he and his loyal supporters in the legislature proceeded to enact laws and carry out plans in strict conformity with his pledged word to the people. Among the plain people everywhere he has come to be regarded as a man of his word. He has squared with his promises. Just such a man is imperatively needed as the chief executive of the United States. Having demonstrated his practical capacity as a trust breaker in his own state, though one branch of the legislature was of opposite political faith, it is not surprising that there is such an overwhelming demand for his elevation to the White House.

All Favor Wilson.

I believe the State of Washington will send a delegation to the next Democratic National Convention favorable to Governor Wilson, our presidential candidate, and I might say further that I believe he is the only democrat who can get the electoral vote of that state, and the western States. We democrats there are not unmindful of the merited consideration which other great democrats are receiving at the hands of their fellow citizens throughout the country, but we believe Governor Wilson, more nearly than any other avowed candidate, typifies in his record and his personality, those qualities and characteristics which the average American is proud to see exemplified in the President of his country. Hence, his popularity in the East, the West, the North and the South is well recorded as a scholar, an educator, an historian and as a student and writer on social and economic subjects all combine to equip him to be just what he is today—a finished orator, a great statesman and our logical leader in solving the great industrial and financial questions which now disturb the business world, and which the republican party has proved itself incapable either to understand or to solve. Governor Wilson is progressive in that he is not wedded to the midwived past or to precedent to such an extent as to make him timid and afraid to meet the demands of the present hour. I am for him because he stands for genuine representative government—the actual rule of the people after careful consideration of all governmental matters coming before them. He would free trade and commerce of the imposts and handicaps with which they are now burdened. He would place on the statute books a law regulating inter-state commerce so clear, so concise, so just and so definite that all men and all corporations would not be left in doubt as to whether they were complying with or violating the law. He would thus place our industrial affairs upon a solid and legitimate foundation, freed from uncertainty and distrust.

In his record as Governor of New Jersey he has literally lived up to and exemplified in his every act the time honored tenet of democracy: "Equal rights for all, special privileges to none."

He will bring to the discharge of his duties as chief magistrate of the Nation, the right scholarship of a Bachelor of Law and a Hawthorne, all whom held political office; he will have had the experience that comes from practical administration and executive responsibilities, and in every respect he will worthily rank those other great leaders of democracy whose achievements make brighter and more glorious the pages of American history. These are some of the reasons why I am for him and why the American people are for him.

RURAL PATRONS LOYAL

School Closes After Very Successful Term.

Ward school closed April 22nd after having a very successful term of six months' school. The patrons have been loyal and true to the school and ever ready to lend a helping hand to assist in the upbuilding of the school.

But few districts have enjoyed the courtesy and sympathy as that shown by the board in their untiring effort to aid and assist the teacher and pupils in fulfilling their duty.

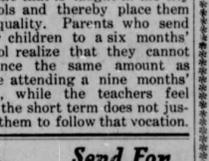

Because of this promiscuous effort on the part of the directors the school has become one of the standard schools of Polk county and has established a president that will be an incentive to the teachers and school officers that are to follow.

The pupils are to be congratulated on their success in the spelling contests and their good attendance throughout the year. Much progress has been made in the school work and the improvement in penmanship has caused the patrons to sit up and take notice.

The following is a brief report for the entire term: Per cent of attendance 96.5. number of visits made by superintendent and supervisor of Polk county 4, Benton county 1, number of visits made by directors during school hours 19, clerk 5, total visitors for the entire year 51.

Many of the patrons and teachers of the rural schools are inclined to feel that the time is fast nearing when the six months' term will be a thing of the past and the children will be given the same or nearly the same amount of time that is taught in the city schools and thereby place them on equality. Parents who send their children to a six months' school realize that they cannot advance the same amount as those attending a nine months' term, while the teachers feel that the short term does not justify them to follow that vocation.

A Remedy No Family Should Do Without

No matter how healthy a human being may be it is safe to say that not many months are passed without some obstruction of the bowels, in other words, constipation, even if only temporary. The bloating, the dull feeling may start after the evening meal. If a laxative is not taken that night it is certain that sleep will not be sound, and you will awaken unrefreshed.

Hence, it is important for you and for all the members of your family that a good, reliable laxative be always kept in the house for just such emergency. It is sure to be needed, and when needed you want it at hand. No family that is careful of its health can do without such a remedy. But the question of which remedy to have on hand is also of vast importance.

The laxative most highly recommended by the majority of intelligent Americans as being best for babies and grownups is Dr. Caldwell's Syrup Pepsin. It is a liquid laxative-balm, is mild, and never grieves, is effective on the stomach, its r and bowels, and many people like Mr. W. J. Wigner, Alma, Ohio, and Mrs. Albert E. Guest, Mead, Ohio, say they would as soon be without the necessity as without Dr. Caldwell's Syrup Pepsin.

Anyone wishing to make a trial of this remedy before buying it in the regular way (a druggist at 50 cents or one-dollar a bottle family size) can have a sample bottle sent to the home free of charge by simply addressing Dr. W. B. Caldwell, 405 Washington St., MountAIN, Ill. Your name and address on a postcard will do.
