conditions, coughs, colds and grip, and many other aliments to which the family is subject. But since the change in the formula of Peruna I do not find it quite as useful to myself. My bowels are naturally very active. I cannot take a cathartic of any sort. It does me injury to do so. The old Peruna contained no cathartic ingredient and was therefore a very useful medicine to me. But I notice that the new Peruna has a slight lax-ative action, which almost makes it prohibitory for me to use. I was wondering if there was not some way in which I could obtain the old Peruna as you used to make it."

To this letter I made the following reply: "Yes, the new Peruna does contain a laxative element. You should therefore take the old Peruna (Ka-tar-no) which has no laxative quality. While prescribing the

CHRISTMAS

It is a game for a crowd of young or old. or both. Not a very deep or triente game, nor vet a particulariy ele vating one, but, nevertheless, full of mirth provoking qualities and just the thing for your holiday party. To carry out the idea properly slips of yellow paper should be handed to such participant and pencils provided for them. Each one is to write thirteen different letters at the top of their slit -that is, any thirteen from the alpha hetical twenty-six, but without repeti-

For instance, one might write B, G. K. L. M. T. E. W. C. S. H. O. R. Another A. B. C. D. E. F. G. H. I. J. K. L. M. and so on. The slips are then to be passed along to right hand neighbors, who must make an understandable telegram of thirteen words, using the character at the top of the slips handed them for the first letter of each word. To thoroughly illustrate, take the first example given above. Here is a speci men "telegram" from it:

"Better go Kingston late Monday. Try express Willie candy soldier. Hope rders rushing." Note the fragmentary sentences, such

as are generally employed in correspondence of this sort. The possibilities for good humored fun in the compiling of "telegrams" among a crowd of friends are endless. But, of course, they cannot be satisfactorily illustrated in public print. As in any similar game, care should be exercised in not ecoming dangerously personal, At first glance the second example of letters as given above (the first thirteen in our alphabet) might seem to be difficult of extension. But such is not the case in the wide latitude of sense (and nonsense) allowable in the game For instance, here is only one way out of the thousands in which it can be mickly written: "Any bright colored dress excellent
