SUCCESSFUL MEETING.

Methodist People Gather in Business and Social Session.

On last Friday evening at 6:30 the wives of the board of trustees of the Methodist church gave a banquet to the men who were members of the church and those whose wives were members and they were not. Forty-two men responded to the invitation and were welcomed by the trustees in a receiving line. In the dining room they were welcomed by the ladies who directed the seating.

After dinner, W. P. Miller, chairman of the board of trustees, acted as toastmaster, and the following responded to toasts: G. L. Hawkins, "The Financial Budget"; Dan P. Stouffer, "Members, their Duty to the Church"; Dr. A. M. McNeil, "We be Brethren"; Dr. L. A. Bollman, "The Sunday School"; Dr. McCallon, "The Church as Viewed by an Outsider"; Mr. Flagg, "Hard Surfacing of the Streets"; Mr. Taylor, "The Church and the Increasing Population." A toast to the ladies by W. P. Miller. All the toasts were good and well received.

A rising vote of thanks was extended to those wives with all her splendors but men have expressed a desire for another such meeting in the near future. These meetings will become a permanent part of the work of the Methodist church.

The Institute at Ballston. On May 3d, at Ballston, the last of the county institutes will be held. From a fairly arrived at conclusion I think the same a most opportune occasion since not only nature with all her splendors but men too will grapple the day and so assure that profitable, enjoyable and social time. The very willingness of the community to help along I trust will be so appreciated that Ballston may again be chosen. Then again our neighboring friends and fellow workers can so further our common cause that work for the coming year may be planned with renewed energies. To insure a receptive mind, provide an opportune moment, satisfy any midday cravings, a spread has been abundantly provided. In short this noonday hour, I trust, will prove a doubly advantageous one.

A. B. SACRE, Principal.

Osteopathy for Children. Children thrive under osteopathic attention as under no other treatment. They like it. Little ones by nature detest the bitter dose. They are right about it. There is a better way to health. The day has come when prudent mothers have the family osteopathic physician go over the spines of their children quite as regularly and as often as the dentist examines their teeth. Many troubles liable to develop in after life are thus corrected. Osteopathy is good treatment for all of childhood's ills, from cholera morbus, diarrhoea and croup, to scarlet fever, measles and diphtheria.—Reprint from Osteopathic Health.

Unusual talent is being displayed by some of the contestants and we may reasonably expect a literary treat in the succeeding gold medal contests. The offering was generous, amounting to \$4.85.
