

**For Coupons Out of the Duke's Mixture Sack**

Many men are getting untold pleasure out of the Liggett & Myers Duke's Mixture sack. One 3c package holds many pipefuls of pure, mild smoking—or, if you please, it will make many cigarettes of the good old-fashioned kind that you roll yourself.

*Liggett & Myers*  
**Duke's Mixture**

Duke's Mixture, made by the Liggett & Myers Tobacco Co. of Durham, N. C., is the favorite with cigarette smokers. It's the tobacco that makes "rolling" popular with men who want the true taste of pure, mild, selected tobacco.

We're making this brand the leader of its kind. Pay what you will, you cannot get better granulated tobacco than Duke's Mixture.

You still get the same big one and a half ounce sack—enough to make many cigarettes—for 5c. And with each sack you get a book of cigarette papers and a present coupon, FREE.

**Save the Present Coupons**

With the coupons you can get many handsome, desirable presents—articles suitable for men, women, boys and girls. Something for every member of the household.

*Special offer for May and June only*

Our new illustrated catalogue of presents will be sent FREE to anyone who sends us their name and address.

Coupons from Duke's Mixture may be secured with tags from HOUSSE SHOE, J. T. TINSLEY'S NATURAL LEAF, GRANGER TWIST, coupons from FOUR PICK PLUG CUT, PIEDMONT CIGARETTES, CLIX CIGARETTES, and other tags or coupons issued by us.

**THE NEW TREATMENT of ENLARGED TONSILS CATARRH, ASTHMA BRONCHITIS and other LUNG DISEASES as used by Dr. Toel. THE CHICAGO SPECIALIST Now in Dallas To introduce His Physiologic Methods**

Catarrh is a chronic disease of the nasal cavity caused by germs that have infected the mucous membrane of the nose and post-nasal space.

In some of these cases there is a constant discharge of mucus; in others there is a pus discharge; while in others yet there is a swelling of the mucous membrane over the turbinated bones of the nose which makes it impossible to breathe through the afflicted nostril.

The routine treatment as applied by most physicians consists of sprays and douches. These of course clean the nasal passage, but the germs being in the glands of the mucous membrane cannot be reached by it and are not killed. The catarrh continues.

In the physiologic treatment as used by Dr. Toel electrodes are introduced into the nose connected with currents of five hundred thousand volts. These currents cause only a little warmth and a slight prickling sensation, but they generate an enormous amount of ozone which kills the germs in the mucous membrane. In those cases of catarrh where there is swelling and thickening of the mucous membrane Dr. Toel either shrinks this with the high voltage current or where the bones itself in the interior of the nose are afflicted he performs an electric operation with the low voltage current which permits him to destroy without the loss of any blood and with none or scarcely any pain as much of the diseased mucous membrane as may be necessary to allow the patient to breathe properly through his nose again.

In enlarged tonsils Dr. Toel either removes the entire diseased tonsil without any loss of blood in a few minutes with the electric loop operation, or he attacks the diseased spots in the tonsils with the low voltage current and thus brings the tonsil to shrinkage. Sometimes he uses the high voltage current for this. All these operations are bloodless and cause very little pain. They are also free of the danger of blood poisoning as the blood vessels and lymphatic vessels are securely closed up by the very operation.

In Asthma, Bronchitis and other lung diseases Dr. Toel uses a current of extremely high voltage which projects a stream of blue fire against the chest of the patient; but this fire does not burn; the fire can be seen by the patient but he feels only a slight warmth. The current however penetrates entirely through the chest and generates ozone in enormous quantities. Any disease germs in its path are quickly destroyed and in addition the blood circulation in the lungs is improved and regulated. Pain and expectoration of pus as in an attack of the grippe are very quickly stopped; fever goes quickly down and the heart beats become regular. Medicines taken into the stomach are almost useless in such cases, but electricity does the work quickly and without pain.

Dr. Toel has for 30 years made a specialty of electrical operations and treatments.

Dr. Toel can be found at 619 Washington street, Dallas, one-half block from S. P. railway depot from 9 to 12, to 5, and 7 to 8, week days and from 9 to 1 on Sundays. Telephone 1303.

People interested should cut out the articles above mentioned and paste them in a scrap book as they may come handy at any time.

**Osteopathy Appeals Most to the Intelligent Classes.**

Osteopathy as a healing art is here to stay. Persecutions and sneers from medical bigots will not hinder it. It appeals to the most intelligent classes. It has proved its worth in the cure of diseases generally. How strange it is, then, that dispensers of pills and potions, the pharmacologic guessers, as a famous writer calls them, should be the last to recognize its claims or to see the remarkable cures it is effecting day by day under their very noses! If the medical doctors studied osteopathy in a scientific spirit, their prejudices and fears would quickly fade away. Until they do that the public, which is not wholly ignorant of the merits of osteopathy, will be apt to regard them as incompetent witnesses. —Jersey City (N. J.) Journal.

Robert VanOrsdal was an over Sunday visitor from Portland.

**Nineteen-Thirteen Class Graduates.**

Friday, June 13, 1913, was the occasion for the graduation of 13 students from the Dallas high school. The auditorium was crowded to its seating capacity. The stage was a bower of loveliness with a background of green foliage containing the number 13 uniquely inscribed in white roses. The invocation was given by Rev. Curtis, of the Baptist church; Josephine Luebke gave the selection, "Thine Own" on the piano; Lena Skerries gave the salutatory, a vocal solo, "Perfect Day" by Claudia Brown; Loren Butler delivered the valedictory address, "Resistance of Obstacles." President Homan, of Willamette University, then addressed the class and Dr. McCallon presented the diplomas. A violin solo, "Scenes That Are Brightest," by Julius Herzog, ended the evening's program.

**Notice to People Attending the Chautauqua.**

Free camp ground, free Canyon Creek water and free stove wood will be furnished to people holding season tickets to the Chautauqua.

# WHO DOES THE TARIFF AFFECT

Right now there is much concern over the lowering of the duty on various and sundry articles---chiefly manufactured products.

Many manufacturers are much concerned over the final result of a lower duty but did it ever occur to you that the man who tills the soil is already on a "duty free" basis and that the products he raises will continue to be used in just as large quantities and be sold at prices that mean large profits to the producer.

For all this tariff talk you cannot find anything about lower prices to the farmer on hops, berries, fruits, cattle, hogs, produce; etc., No, because the demand keeps ahead of the supply, and high duty or low duty you'll be benefitted

## At Guthrie Acres

Wages may be reduced in all industrial lines but the man who gets his farm land NOW is SAFE.

Remember--we are presenting a FREE LOT in the town of GUTHRIE to every buyer of an acreage tract.

Shall we show you Guthrie Acres today.
