DALLAS, OREGON, AUGUST 21, 1913

NO. 38

Rural Carriers Meet.

Last Sunday at Independence the rural carriers of Polk county had a most interesting meeting, there being five of the eight county carriers present, and one visitor in the person of J. H. Maxwell, of Eugene. The time was spent in talking over problems incident to their vocation and by interchanges of opinion tending to improved service. A pleasant feature of the meeting was the discussion of a banquet given them by the Independence postoffice employees, all considering it about the best that ever happened. The carriers present were F. J. Morrison and Milt Grant, of Dallas; M. K. Crowley, Airlie; Archie Parker and P. J. Dickinson, of Independence. All officers were re-elected. Great preparations are being made by the Oregon City lads to entertain the rural carriers of the state there on Labor day.

New Library Rental Books.

The Parasite—Martin. Bunker Dean—Wilson. Comrade Yetta—Edwards. The Heather Moon—Williams. Port of Adventure—Virginia—Glasgan. New Lives for Old—Carleton. The Lucky Seventh—Van Loan. Veronica—Kingsley. Lo, Michael—Lutz. The Lady and Soda San—Little. The Uphill Climb—Bower. Poor Dear Margaret Kirby—Norris. Concert Pitch—Danby. The Southerner—Dixon. Stella Maris—Loeke. The Air Pilot—Parrish. Three new magazines have been added to the reading table—American, Collier and Pictorial.

One-half Block East of S. P. R. Depot Sundays: 9-1

Dr. Toel has again been compelled to extend his stay in Dallas on account of many new cases. He will again accept new patients for treatment and stay in Dallas until he has finished their cases.

Constipation and Heat Often Fatal.

Regularity of Bowels Very Important to Health at This Time.

At no time of the year should people be more careful of the condition of their bowels than in hot weather. Many things may cause constipation in summer, but whatever it may be the trouble should be promptly remedied. A constipated person lays himself or herself open to serious and often fatal diseases. That feeling of congestion, lassitude or dull headache is the first warning of trouble. Don't try to remedy it by the excessive eating of fruit, which usually has a laxative effect but lacks action in extreme cases. What is needed is a reliable but mild laxative- tonic like Dr. Caldwell's Syrup Pepsin. Take a dose of it at night before retiring—it is pleasant-tasting and free from gripping—and by morning your bowels will be emptied and your head clear. You will feel energetic again. You cannot obtain such results with cathartics, purgatives, salts or pills, as unlike Dr. Caldwell's Syrup Pepsin, they are without tonic value and entirely too harsh. Among the thousands of dependable converts to Syrup Pepsin are the families of Mr. F. C. Harris, Live Oak, Fla., who now finds his stomach better than it has been in ten years, and Mrs. T. D. Diemer, 835 San Pedro st., Trinidad, Colo., who is cured of various digestive troubles after all doctors that she knew had failed. A bottle can be obtained of any druggist at fifty cents or one dollar, the latter size being for family use. Results as claimed are guaranteed or your money will be refunded. This grand remedy is the safeguard of health in thousands of good American families. Families wishing to try a free sample bottle can obtain it, postpaid, by addressing Dr. W. B. Caldwell, 418 Washington St., Monticello, Ill.

WELL KNOWN MAN DEAD.

Captain Hatch, Formerly of Salem Sees Away. Captain Z. J. Hatch, formerly of this city, recently of Oakland, Cal., died at his home in that city August 15th. Mrs. P. H. Raymond, who is an old friend of Captain Hatch, received the news of his death yesterday but has been unable to learn any of the particulars. Captain Hatch lived in this city many years during which time he was captain of the steamer, McCully, which plied between Independence and Portland. He was well liked and respected and the departure of the family to California several years ago, caused universal regret among their many friends. Recently Captain Hatch has been owner and manager of the Monticello line of steamers, which run out of Oakland. It is said that he has amassed quite a fortune in this manner.—Statesman.

Can Dry Loganberries Here.

Mr. H. A. Wood tells us we were a little bit in error last week in stating that there was not a market for loganberries here. He bought all that offered during the season and dried them at his drier. The price paid by him was a shade better than Salem, and he could have put in marketable shape a good many more than he did. As it was some 500 bushels of the dried project was turned out, finding ready sale. The Itemizer is glad to note this industry, and hopes another year will see more turned out of like quality.

LETTER LIST.

The following letters remained uncalled for in the Dallas postoffice Tuesday: Mrs. W. A. Armstrong. Mrs. Jane Boyle. Mrs. E. I. Butler. A. E. Bartell. Mrs. Fraser. Mrs. F. S. Gunning. Mr. Joe Jones. Al Lambert. Albert Smith. Mrs. Mimi Smith. John Freitas Brindeiso. Antonio de Freitas Brindeiso. Soir de Reception. C. G. COAD, Postmaster.

GIRL ACCUSES UNCLE.

Says She Was Taken to Dallas for Criminal Operation. Has R. R. Liggett violated his moral obligations as uncle and guardian and maltreated Mabel G. Liggett, aged 14 years? The girl left her own home and went to the home of a neighbor some distance away. Letters and telephone message from a sister in Portland urged Judge Moses, of the court to protect the girl. It was claimed that the child's uncle had maltreated her and would probably kill her if he knew she had made the matter public. Deputy Sheriff Piel went after the girl on Saturday, kept her at his home over Sunday and Monday and Tuesday an investigation has been on. The girl accuses her uncle of having had intimate relations with her for over a year, and he denies all she says. The girl has been stripped up in some of her statements and has created the impression that she is an expert prevaricator. In one case she claims that she was in a serious condition, and that Mr. and Mrs. Liggett took her to Dallas, where a physician performed an operation that kept her shame from being known. On the other hand Mr. Liggett readily admits that the girl was taken to a Dallas physician, but says she was treated for bladder trouble. The girl talks glibly, shows perfect knowledge of all things a girl should never learn, and it is said admissions have been made by her that make the truth of her accusations against her uncle seem improbable. Mr. Liggett says the whole effort of the girl is to shield others with whom she associated and to whom he objected. R. R. Liggett was appointed guardian of Mabel Liggett aged 13 and Joseph Liggett aged 7, in September 1912, their parents being dead. The girl has developed rapidly though not large physically. The case is being looked into.—Corvallis G. T.

Check Stolen.

H. R. Reynolds, who lives about a mile from Independence, had a check for \$45 stolen from him Sunday. The check was taken from his pocket by a person yet unknown. The paper was signed by J. A. Wood. Banks have been notified not to honor the check if it appears.

Lost, Strayed or Stolen.

A yearling Cotswold ram, ear tag, Koser 148. Reward to the finder, W. C. Lewis, Rickreall, Bell phone 66. A22. Drs. Lowe & Turner will be in Independence August 28th.

AMERICAN OSTEOPATH ASSOCIATION MAKES GREAT GIFT TO DR. STILL.

Raises Birthday Gift of \$3,000 Which He Decries He Will Turn Over to the A. T. Still Research Institute.

Body Can Be Made to Manufacture Its Own Fluid for Fighting of Germs Under Osteopaths Treatment.

(From Wednesday's News, Kirksville, Mo.) At the A. O. A. convention yesterday the association raised \$3,000 as a gift to Dr. A. T. Still. It is understood that this will be turned over for research work to the A. T. Still Research Institute. In a report made before the meeting of the osteopathic physicians in convention here, Dr. J. Deason, director of the A. T. Still Research Institute, which is the osteopathic profession is what the Rockefeller institute is to the medical, announced an osteopathic substitute for the serums and vaccines which are at present attracting world wide attention in the fight against germ disease. Dr. Deason said that exhaustive research and subsequent experiments he had determined that the organs of the body under osteopathic treatment could be made to manufacture their own fluids for the fighting of germs. The same rule applies to coal tar products. "Coal-tar products," Dr. Deason said, "are manufactured in Germany but you will find that they are never used over there. The physicians of that country know too much about them. But they are shipped plentifully to America." He stated positively that osteopaths can increase the elimination of germ poisons from the kidneys and liver from 12 per cent to 10 per cent in from 15 minutes to a half hour. They have proved this in a series of experiments at the research institute. Dr. Deason said. This was accomplished without the slightest injury to the individuals. Dr. Deason said that osteopathy as a practice does not go on record officially as opposed to the anti-toxin or serum theory but as an individual he has proved these things in actual experiments against their administra-

TWENTY-SIX YEARS AGO.

Taken from the Files of the Itemizer Saturday August 20, 1887. Van B. Delashmatt was badly hurt in a runaway out near the White House in Multnomah county. Jane L. made the fastest time for an Oregon trot, going the mile in 2:20 1-2. A telegraph office was opened at Ballston, Otis Smith, of Dallas, having charge of it. Miss Jennie Rowell was spending her vacation at her father's mill up Brown creek above Falls City. Jap Miller and party had just returned from Upper Soda, where he killed a deer with a revolver. Frank Splawn and family were down from Kiekitat for a visit. Rev. Judy, who had been pastor of the Methodist church, was moving to Portland. The death of Prof. L. J. Powell, an old time educator, was noted. Hon. Stephen Staats and son Charley, were down from Eastern Oregon, where he had taken up a claim. Mrs. J. W. Bones passed away at her home on Mill Creek. It took 72 hours for a letter to go from Kings Valley to Philomath, a distance of 10 miles, it first having to go to Portland. Mrs. Eliza Berry was married to Wm. Shaw, both of Dallas. The school fund apportionment for Polk county amounted to \$2,899.20. George Sebring fell from the Luckiamute bridge and was badly hurt. Hudson Bevens was run over by a bundle wagon and badly bruised. Conductor Joe Crocker was on a business trip to The Dalles. Fred Toner dislocated his shoulder while oiling an engine at his Lincoln home.

NEW PROPRIETOR.

Barton Z. Riggs Now Owns and Operates Steam Laundry.

Some two weeks ago the Itemizer announced that Barton Z. Riggs had bought the Dallas steam laundry of Heistand & Thompson. Hearing that he was putting in some new machinery we dropped in Monday to see what it was and for the first time were shown a firstclass laundry in operation. The new machinery added by Mr. Riggs at a cost of some \$400 is an improved ironer for shirt bosoms, which by a rubber strap in the center of the board makes it easy for them to pass through the ironing cylinder, without damage to the buttons. A Torrance steam damper leaves a thin damp streak on the top of your collar where it should fold and another electrical iron in the shape of a half circle folds and irons it with the proper finish, it then going to a round celluloid cup, where it assumes the round shape in which delivery is made. These are the new machines and work could not be turned out any better than they do it. Mr. Riggs is a born inventive genius, and it is a pleasure to him to be always figuring out some superior way of doing things. A 12-horse power engine runs the plant with a 45 boiler, and from the time a piece of laundry enters the sorting room until it emerges as a finished article is a most interesting study of detail and efficient workmanship. A force of eight keep busy all the time, and several more on two days of the week.

Post Cards Five Cents Each.

From your own negatives. Have your films developed by an expert photographer. Prices as low as is consistent with good work. Postage paid on mail orders.—C. B. Stone, photographer, Dallas.
