R. M. Jennings, manager of the Oregon Power company, returned last night from a trip of inspection of the company's plants down the valley, report that the Dallas Lumber company is installing motors of 282-horsepower capacity to drive the machinery in its mill at Dallas, thus eliminating steam power to a large extent. The work of installing the motors will be completed within 15 days. The motors vary in size from two to 100-horsepower. This practically puts this mill on an electric power basis.—Eugene Guard.
Well, it is on J. D. Belt this time. He has been rusticating in the hopfields, we are told and had made enough to buy a fine beef roast, had stayed overnight all night and had roasts it to a turn, just the finest piece of art that a royal chef ever turned out. Then he turned into his virtuous couple for the consolation of the few morning hours left to him. You may try but you cannot imitate his feelings when he got up for breakfast to learn that some animal had visited his camp and carried off the roast. Life is very uncertain, J. D. just when you are about to put your finger on a flea, bejabber he isn't there, and just as you are about to take a bite of nice juicy roast some other dog is chewing it. The philosopher says life is one blessing after another, but the trouble is, that it hardly ever catches it.—Willamina Times.

GOD WILL LAUGH AT HUMAN PRIDE
An Old Prophecy Is About to Be Fulfilled, Says Pastor Russell.
It Has a Double Application—It Applied to Jesus Personally, but Also to the Body of Christ, the Church—The Kings of the Earth—The Rulers Amongst God's People—Their Coalition Vain—God Will Laugh at Them. Jesus Will Deride Them—The Breaking as a Potter's Vessel Will Follow. Only Those Who Put Their Trust in Him Will Be Lifted Up and Blessed.
On the Atlantic, September 7.
—Pastor Russell's text today was: "He that sitteth in the Heavens shall laugh; the Lord shall have them in derision."
—Psalm 2:4.
The vast ocean, on which this stately ship is but a toy, reminds me of the "Kings of the Earth" and also of the vastness of Divine Power and human insignificance, said Pastor Russell. Humanity may justly feel encouraged by its present progress. Steel ships, a thousand feet long, carrying thousands of passengers, have replaced the wooden dories of a century ago. Not only have the oceans been underlaid with cables, but the majestic steamer is outfitted with wireless telegraphy. This is only one of many avenues of progress.
God's people, counselled by their Father's Word, see that God is behind the wonderful developments of our day; for we are living "in the day of His preparation" (Isaiah 2:3) for Messiah's Kingdom. They perceive that God is gradually lifting the veil of ignorance and superstition.
"Kings of Earth Set Themselves."
"The kings of earth," in a broader sense include financial kings, captains of industry and political chieftains. These wise men of the world grasp the situation only in part. They perceive the riches and blessings rolling in upon the world through invention, and are fortifying themselves in luxury and power. Thus have they set themselves.
Moreover, "the rulers" of the people—professedly God's people—ecclesiastical rulers and princes—are affiliated with them. "Together they take counsel." Their next step will be to put their counsels into practise.
"Let Us Break Their Bands."
For centuries kings and governments have been more or less restrained by the people, guided by the Bible and its spirit of liberty. The new conditions of today, however, have evaded many restraints. So the people are intent upon making new regulations to cope with the trusts and the wealth of financial kings and with the great power of political kings.
Through the Bible, the stronghold of liberty, the masses have learned that rich and poor must all eventually stand before the Judgment Seat and be judged by one Law. This Bible portrays the rolling away of the curse of death, shortly to be inaugurated in a great Time of Trouble.
The Bible spirit of liberty is the Divine restraint, the "bands" and "cords" of our context. What form opposition will assume toward the Bible is difficult to detail in advance.
Jesus the Head, the Church His Body.
The Lord's Anointed is the Christ of glory. This prophecy was fulfilled respecting Jesus when Pilate and Herod took counsel with the chief priests, scribes and Pharisees. The religious rulers were the prime movers in the opposition against Jehovah and His anointed Son. They knew not what they did, for, as Isaiah declares: They

took counsel against Jesus, realizing that His influence was against their own false expectations respecting Messiah's Kingdom.
We should expect shortly the complete fulfillment of this prophecy. Opposition will arise against the Lord and His representatives and mouthpieces. The federated religious interests, with cherished plans opposed to the Truth, will denounce it as a Caliphic denunciation of Jesus. We may expect that the last saintly members of the Body of Jesus will suffer similarly "for the good of the cause," as seen by modern scribes and Pharisees.
God in Heaven Shall Laugh.
Jesus' enemies supposed that their projects would flourish. But God laughed at them. Under Divine direction they entered into the time of trouble which culminated in the complete overthrow of their polity. Here we expect the same.
The plans of kings and rulers will be measurably carried out (v. 1). The irreligious will be in tumult, not knowing of the Messianic Kingdom. The people (nominal Christians) will imagine a vain thing—either that they can bring the Kingdom, or that it is here, but waiting until millions are poured into the missionary treasury.
The picture of God's laughing at those who rebelled is forever. The failure of human pride is forever. The failure that will come to the professed people of God and the world will be a great lesson in humility. The absurd position would make us all laugh, if they could realize that without Divine interposition God's will cannot be done on earth as it is in Heaven.

GOOD SUGGESTION.
Polk Circuit Courts Come Wrong Time of Year.
The suggestion that Secretary of State Olcott, in his biennial report, recommend that the legislature make some changes in the dates for holding terms of the circuit court and in the method of serving jurors, is embodied in the report of District Attorney D. H. Upjohn, just received by the state department.
The legislature has seen fit to fix the term of court for Polk county for August and for September in Yamhill county. This, says Mr. Upjohn, works an unnecessary hardship on both jurors and principals, as the citizens of the counties are largely farmers, who cannot spare the time from their farms at this season of the year.
The requirement that the sheriff serve the jurors with papers is an unnecessary proceeding entailing too much expense just as well through the mails and that a large saving could be effected through this system.—Salem Statesman.
