Arrived Home Safe. Friend Fiske—Arriving home last week (Friday) we fully expected to find the Itemizer, but was greatly disappointed. Suppose you have neglected the renewal of the same, and am sending you herein \$1.50, as a little inducement to keep the good work going. We are at last installed in our old home and getting down to real business (housekeeping). Things are wonderfully on the bum down here; no rain and crops of all kinds have been a failure. Things don't look as good as we would like to see them. While in the city we had the most beautiful weather you ever saw, but coming on down the Valley everything is dust, dust and then some. The nearby fires in the Santa Cruz mountains are making it very warm and disagreeable in this Valley. Yours very truly, J. W. CRIDER.

BUDGET TANGLE TAKEN UP.

County and Town Share of Taxes Issue at Conference.

For the purpose of unraveling the tangle in preparing the next school levy and budget for the county and to bolster up the general road fund, a meeting was held Monday between County Judge Teal, District Attorney Uppjohn and Attorney General Crawford at Salem.

Several towns in the county have allowed the county to expend money in improving county roads within their boundaries and have later, after improvements have been made out of the county road funds, created the town into a separate road district and have taken the attitude that as such they should receive the full benefit of all the taxes collected from the taxable properties in the road district assessed for road purposes. A conclusion was reached at the conference that such road districts, as all others, should be entitled to 50 per cent of the amount raised out of the levy for county roads and that the remainder should go into the general road fund. So that hereafter each road district will receive 50 per cent of the amount levied against the property within the district and the balance will go to the general county road fund.
