One of the advantages of electric lighting is its flexibility. You can have as much or as little illumination as you may need and have the lamp just where you want it—on the ceiling, wall or table.

Although housewiring is now done without litter or disturbance to the household, one of the best times to make the installation is during the fall housecleaning.

Prepare for the winter months, not only with clean rooms and fresh paint and wall paper, but with clean lighting—electric.

Why not secure a cost estimate from an electric contractor?

**Osteopathy a General Practice**  
An American woman of note wife of a U. S. Senator, said that if Doctor A. T. Still, founder of the osteopathic system, had done nothing else except give to women the boon for their eschewed ills that osteopathy has proven to be, his name should be immortal. Many others speak with fully as great enthusiasm. But osteopathy is not a mere specialty practice. It does not deal with women's ailments only. Nor is its practice limited to chronic diseases of any type. It is an all-round, comprehensive system.

The osteopath is a trained physician. He diagnoses and treats all kinds of diseases, acute as well as chronic. He does no "rub" or massage, but treats specifically the conditions he finds in each case.

Rapidly increasing numbers of osteopaths are becoming "family physicians," the tried and trusted counselors in time of sickness of every nature.—Osteopathic Health.

**Salt Creek Wins.**

In the basketball game between Salt Creek and Perrydale played last Friday at Salt Creek, the tossers from Salt Creek came out victorious by the score of 19 to 17. The game was a very close one and when the referee blew the whistle at the end of forty minutes of good basketball, the score was a tie, an extra five minutes was played, when Ernest Buell, one of the Salt Creek guards, slipped in the winning basket. Salt Creek and Perrydale each have one game to their credit and the "rubber" to be played soon promises to be a first-class exhibition.

The knight of the whistle is an ancient Christmas game which modern young folks ought not to be allowed to overlook. It is a version of blind man's bluff and therefore particularly adapted to the season of romps and runabout games. To play it some one of the party is blindfolded and has a whistle hung on a cord put round his neck. The whistle should rest on the back of the blind man. The fun consists in seeing who can blow the blind man's whistle without being caught for his daring and compelled to assume the role of blind man. There is no time limit. The fun can continue until every one is too much out of breath to go on with it or until each player has been made blind man.

It is quite the thing to do—the practice is growing year by year. Besides, it adds a lot to the holiday sentiment. Perhaps you have priced those "fancy fixings" and found them "too expensive."
