Mayor's Proclamation.

At a meeting of the City Council Monday evening it was the sense of that Honorable Body that the Mayor issue a proclamation calling on the citizens to open their homes to the delegation of the Boys' Convention which will be held in this city on Friday, Saturday and Sunday of this week and entertain them while in the city. Now, my dear people, these boys are from all parts of the state, and it is to the interest of the city to be loyal, as she has always been to everything that has come up. The ladies of the different churches are doing all they can. Now let us all join in and help them, for when we help the boys and girls to a nobler life we make for a better citizenship and a greater country. Yours truly, J. G. VAN ORSDEL, Mayor

Expert eye examination is absolutely necessary to determine the proper kind of glasses to use. Selecting them by any other method may result in permanent injury to your sight. When Drs. Lowe and Turner prescribe glasses it is with absolute certainty they are the best and only kind suited to your eyes. If you do not need glasses, they most positively will not recommend them. They will be at Hotel Gail Monday and Tuesday, Dec. 1st and 2d, forget the days and dates.

THE HORN OF PLENTY AS A SYMBOL OF THANKSGIVING.

The cornucopia, or horn of fruitfulness and abundance, always used by the Greeks and Romans as the symbol of plenty, is an apt expression of the sentiment that prevails on Thanksgiving day. Filled with fruits and flowers, it makes one of the most charming of centerpieces for the Thanksgiving dinner table. The contents should be arranged so that the cornucopia is overflowing, the fruits and flowers running out of the horn and over the table. A cornucopia may be made of wire covered with silk, or again with linen, or it might be made of cardboard on which vines or autumn leaves are sewed. The leaves of the gairax, which do not fade, could be used, although

one should prefer the beautiful blackberry vine, which at this season is always at its best in color. The leaves of the vine should be made to run up toward the mouth of the horn and trail about its edges, suggesting a horn being wound about with them. Flowers, too, should fall about the brim so that fidelity to the original idea might be preserved.

Pride Goes Before a Fall.
"Stop!"

The word was hissed by a mouse just as a gobbler with all sails set strutted by. But the proud bird, intent on admiring his own plumage, ignored the command.

"Humph," sniffed the envious avian. "He's all puffed up because he heard the farmer say Thanksgiving would be his day to enter society."
