IF YOU WERE BORN IN FEBRUARY

YOU will have great strength and great weakness, will be optimistic, kind and a lover of home. You will have great possibilities and unusual talents of a special nature, which you should develop, and you should aim to depend on your own judgment rather than the advice of others and to concentrate. You should marry only when YOU KNOW YOURSELF, preferably a person born in January, June or October. You should wear sapphire, turquoise or opal ornaments and will do your best work wearing black, blue and pale shades of green and pink.

Great persons born in February: Abraham Lincoln, George Washington, Henry W. Longfellow, Charles Darwin, Horace Greeley, Thomas A. Edison, Joseph Jefferson, Sir Robert Peel and Dwight L. Moody.

The Bull Moozers are finding it hard sledding getting up excitement with the Colonel sojourning in South America.

Some people are so constituted that when they get elected to an office in a lodge or order they get more puffed up than a little dog with a red blanket on him.

Economy is an excellent quality, but there is an injudicious economy. That person who is constantly seeking to drive the closest bargain is not an economist. This is niggardiness, and is a quality of the infirm mind. You need the best, and it is always worthy of the price.

You have heard the saying about being able to fool part of the people all the time, all of them part of the time, but not all of them all the time. It's the same relative to pleasing them. Ever think of that? The fellow who thinks he can please all the people all the time is fooling himself. Don't try it.

THE INDIAN PROBLEM.

In our opinion there is no one thing that acts so much toward the deterioration of the present generation of red men as the placing of them in government schools isolated from the reservation where they have lived and are to live. The young Indian is taken from an age when his physical well-being needs such more than at any other time, is placed in constricted, steam-heated quarters, red on foods to which he has not been accustomed, taught to a very great extent things that are of no practical benefit to him, and which he cannot utilize on his return to the reservation. The result is that when they return they go back to their old way of living, forgetting all the good that they have been taught and remembering and practicing only the evil that they have assimilated while living at the agencies, thereby not separating the children too remotely from their natural heritage or habitat, but instilling into them at their home center, where it could be of a more practical benefit to them, the study and manual training best suited to make them good and useful citizens. Students of the Indian problem from all standpoints are rapidly coming to this viewpoint. It is the only certain way in which the Indian can ever take his place and be able to cope with the whites in agriculture or other pursuits.

DIVINE JUDGMENTS ARE ALL BLESSINGS

God's Gracious Provisions For the World of Mankind.

Eternal Torment Wholly Foreign to the Divine Character—God's Judgment is "Righteous Allegorizer." Death the Divine Judgment Against the Race of Adam—God's Special Judgments—The World's Judgment During the Millennium—Healing and Uplifting From Sin and Death—Destruction to Wilfully Rebellious.

—Pastor Russell's text for today was: "When Thy judgments are abroad in the earth, the inhabitants of the world will learn righteousness."—Isaiah 26:9.

In beginning, the Pastor stated that only those who reach an advanced degree of knowledge of God's Word can realize that Divine judgments are all good. Under the influence of superstitious, understanding the Scriptures aright, supposing that they were eternal torments for the majority of the race, we feared God rather than loved Him. We dared not say that such a judgment on God's part was wrong, malicious, devilish; yet we were unable to see it in any other light. Many intelligent minds decline to think about God and His supposedly terrible punishments respecting humanity—all the result of a misunderstanding of the Bible.

The Pastor demonstrated that the torments doctored of the Dark Ages are wholly out of accord with the Divine character, which is distinctly marked by Wisdom, Justice, Mercy and Love toward all. He showed that instead of a judgment of eternal torment against the race, the penalty for sin is death; that the verdict, or judgment, is righteous; that God had a perfect right to destroy in death the creature who refused to render the obedience which he was able to give, be long another.

Another part of the Divine Judgment against humanity is that the death process is gradual. Thus the race is the better enabled to learn the lesson of the "exceeding sinfulness of sin," to the intent that, when granted the new trial secured by the merit of Christ's sacrifice, mankind may profit by it more.

The Pastor further explained that all the race will have opportunity of coming to a full knowledge of the Truth during the Millennium Reign of Christ, which is God's provision for the world in general. What God did for Natural Israel during the Jewish Age and for Spiritual Israel during this Gospel Age are matters apart from His dealings with mankind. From these two Israel overcomers have been chosen, or elected, the overcomers of Spiritual Israel will constitute the Kingdom class, the highest sense. The overcomers of Natural Israel will constitute the Kingdom's earthly phase. Mankind will see these, but not the glorified Christ-Head and Body, the King of Glory.

God Will Judge His People.

The world, the Pastor declared, has been under one general sentence of Divine Justice, "Dying thou shalt die." But Natural and Spiritual Israel have been dealt with as freemen from the original sentence and on trial afresh for life or death under God's judgments, or disciplines. Not all under these have understood them—not all were in condition of heart to receive them.

During the Jewish Age Israel often lapsed into more or less darkness and idolatry, and failed to see their special privileges and relationship to God under their Covenant. A few, however, discerned with the eye of faith the righteousness of God's dealings. Among these were the Prophets, who declared that the Divine judgments were merciful in the extreme.

Similarly during this Gospel Age Christendom as a whole has not been able to appreciate Divine judgments. But some have been "Israelites indeed," who have been able to rejoice in His judgments, and by faith to realize God's love for them.

Then the Pastor quoted numerous Scriptures showing that during the next Age God's judgments will be abroad in the earth, and will include every member of Adam's race. These will be administered by the Christ, of which our glorified Lord is the Head and the Church the Body, when glorified also. These judgments will not mean havoc and dismay, but relief and assistance to all who come into line with the righteous arrangements of the Kingdom. The judgments of that thousand-year Day will be severe. The wilfully wicked will be destroyed, but not until they shall have been brought to a clear appreciation of good and evil and their rewards, life and death.

The Pastor declared that there will be no failure respecting the God's Oath-bound Covenant made with Abraham—"In Thy Seed shall all the families of the earth be blessed." The words of blessing will be Christ's redemptive work, finished at Calvary. The continuing working of that blessing will come through the glorified Lord and the Church. The first work will be the establishment of a righteous government, in which justice will be laid to the line and righteousness to the plummet.

How is Your Boiler?
It has been stated that a man's stomach is his boiler, his body is his engine and his mouth his fire box. Is your boiler (stomach) in good working order, or is it so weak that it will not stand a full load and not be able to supply the needed energy to your engine (body)? If you have any trouble with your stomach, Chamberlain's Tablets will do you good. They strengthen and invigorate the stomach and enable it to do its work naturally. Many very remarkable cures of stomach trouble have been effected by them. For sale by all dealers.

A CLERGYMAN'S STORY
Came Near Losing His Life—How He Escaped

We quote from another letter, dated December 10, 1904: "I praise Peruna to all the sick. The people know my case, and they praise me also."
In a letter dated November 22, 1903, quoted Rev. Roberts: "Peruna gave me back my life ten years ago. All my acquaintances know that. I am certainly thankful to you for your kindness."
In a later letter, dated January 13, 1910, he says: "I shall ever in the future, as in the past, be ready to speak in praise of Peruna to all sufferers. I believe my miraculous cure has been the means of many others being cured in this county."
From a letter of September 5, 1911, we quote a few words: "I am still among the living. As to Peruna, I do not feel that I have words to express the faith I have in its merits. I feel that Peruna has been the means, through the kind Providence of God, of prolonging my life for more than ten years."
We quote a still later letter, October 31, 1912. He says: "I took a severe cold three weeks ago. I at once sent for Peruna. Have been taking it two weeks. I am now better. I consider that Peruna has carried me over a dozen years of life. I always stand ready to answer any question in reference to Peruna."
We quote from his last letter, dated January 2, 1913: "Dear Friends: I wish this bright New Year to express my thanks to you for your kindness. Trusting that you may have a successful and happy year, and that your medicine may prove a blessing to many as it has to me. I am yours as ever, G. W. Roberts, Hartsell, Alabama, R. F. D. 2, Box 27."

It is not necessary for us to add any words to this story. The eloquence and pathos of these letters are more convincing than arguments or affidavits. Who can doubt the clergyman's story? Why can we doubt that Peruna saved his life?

The A. T. Still Osteopathic Research Institute

These old buildings are being used at present. Laboratories and equipment have been installed. These buildings are to be replaced by others adapted to the work. The above property is right in the heart of the hospital district in Chicago, being only a few minutes walk from Cook County, J. Deason, M. S. D. O., who has done notable scientific work in the Chicago University before taking up Osteopathy, has been placed in charge with four assistants.

THE OSTEOPATHIC PRINCIPAL SCIENTIFIC.
Today the man who tells you there is nothing in osteopathy; that it is largely suggestion or massage, you can mark it down that he either wilfully misrepresents or has failed to investigate recent findings by scientific men along this line.
Mark Twain has said, "That loyalty to petrield opinions never broke a chain or reced a human soul in this world—and never will."
Listen! Seven years ago the American Osteopathic Association took action formally inaugurating the movement for establishing the A. T. Still Research Institute and began the accumulation of an endowment fund.
The income of this fund has been appropriated from time to time in small amounts to partially meet the expense of a few investigators, who were giving their spare time to research work.
The law of growth in knowledge is that art precedes science. Art does things. Science knows things. Osteopathy grew as an art in phenomenal fashion because it worked. Dr. Still's theory has stood the test of the most critical and exhaustive laboratory research. For more than six years five or six of the ablest scientists in the profession have devoted themselves to this experimental work. The results of these investigations were given out under the direction of the Institute at various times, attracting the attention of scientific men of other professions, as well as our own.
In bulletin No. 1 Dr. C. P. McConnell, D. O. M. D., of Chicago, in experiments with a great many animals, produced actual lesions of the spine. The diseased tissues and organs resulting therefrom were then studied both macroscopically and microscopically and photomicrographs made thus scientifically verifying our theory and practice. These same experiments were verified and confirmed by Dr. J. Deason, M. S. D. O., in bulletin No. 12, of the Institute.
Dr. Deason, in a report given in September, 1912, had at that time used about five hundred animals dogs cats, rabbits, monkeys and guinea pigs, in which he had studied the effect of osteop-
