If you produce 40 bushels of corn to
the acre your cost per bushel is less
than that of your neighbor who raises
only 20 bushels.

Therefore, you could sell more corn
for a dollar than your neighbor.

The same principle applies to shoes.
Roberts, Johnson & Rand make more shoes
than any other manufacturer. The more they
make the less they cost to make. This saving
goes into extra quality.

There are lots of good shoes, but—

OUT YOUR OWN OPINION

By JOHN D. TURNER, Attorney and Ex-Councilman, Salem, Ore., Sept. 21

FOR a statement concerning the effect of the dry
policy on Salem, and in answer to the article
by E. B. Lockhart, published in the Salem
Statesman at August 23, 1914, and in the New
Republic under date of September 11, 1914, I submit
the following:

December 1, 1913, Salem closed her fifteen saloons, three restaurants, two wholesale houses and
withdrew liquor permits from eight drug stores, thus
eliminating 24 saloons and 23 restaurants. The
saloons employed sixty-five men, the restaurants
twenty-five. Together they had a payroll of \$5,700
per month. Practically all those who conducted
saloons and those employed by the saloons and res-
taurants have left town. All the buildings occupied
a year ago by saloons are vacant, except six that
have been occupied by tenants who left another
building vacant, moving only to better their location.
Several of the best buildings in town have their
windows boarded up to serve as billboards. There
are now more than five hundred modern dwellings
for rent in Salem.

Rental returns have greatly depreciated. Store
property on State Street, which for five years had
rented for \$185 per month, was re-leased within four
months after the city went "dry" for two years at
the rate of \$110 per month. This is but a fair sample
of the reduction all through the business section on
property that was up for re-leasing or renting since
the city went "dry."

BUSINESS UNBEARABLE.
Every merchant in town, except one—a radical
Prohib., has complained of the poor business done
this year, and in order to keep going have depended
with all their surplus help, thus throwing a good
many clerks out of their regular monthly stipend.
Many of these have now left Salem, seeking work
some place else. Three shoe stores have closed,
two by the sheriff and one voluntarily. One of the
largest dry goods stores has been sued for the first
time in its twenty years' existence. Salem has been
the closing of fourteen places of business, other than
saloons, since the first of January, 1914. Does this
look like big improvement?

Now I will show you how Mr. Lockhart fixed up
his prohibition article. The \$20,000 public market
building had the roof on before the town went dry.
The only work that has been done on the building
this year was the lathing of the first story and the
plastering of one room, which is now occupied by
four stalls, constituting the public market. The
\$40,000 insurance block in being built by Geo. F.
Rodgers under a permit which gives the estimated
valuation at \$30,000, and for which the contract was
less for less than \$13,000.

BUILDING DURING DRY PERIOD.
Compare these facts with Mr. Lockhart's state-
ment:
For the last wet year the building permits from
January to August, inclusive, totaled \$388,925, and
from the first of November, 1913, to the twentieth
of September, 1914, \$288,164. I sit with
November first in order to show some real prohibi-
tion facts. During the campaign of 1913 J. G. Vo-
set, a howling prohibitionist, published a statement
that if the town went dry he would build sixteen
new houses. So immediately after the election in
November, 1913, he proceeded from the City Recorder
sixteen permits, and under those sixteen permits he
began the construction of nine houses of three and
four rooms each. Only two were completed, far
enough to receive the windows and doors, and they
have never been finished. No work of any kind has
been done on these frames since last December.
I met Mr. Lockhart last Saturday night in Mr.
Rodgers' real estate office, whom he was trying to
induce to give him an exaggerated statement as to

DECREASED BANK DEPOSITS.
The amount of deposits in Salem banks shows a
decrease of \$309,942.55 since the town went dry,
and this in spite of the fact that \$485,000 received
for bonds sold in Boston was on deposit in the
banks in January, 1914, statement. This money
was distributed to Salem people and left here. It
was used to pay a refund on sewer assessments and
to cover warrants outstanding.

NO WAGES TO GO.
A leading schoolman told me that he did not know
how the children would be equipped this year, but
that he expected many of them would have to be
aided with books, owing to the fact that so many
parents have been unable to secure work this sum-
mer. The contractor mentioned by Mr. Lockhart I
have been unable to find. A prominent—but why
continue? The list could be extended indefinitely.
I have shown enough to show that it will see. Clarence
True Wilson is reported to have said in a prohibi-
tion speech that Salem has a year had sixteen prohi-
bitionists and this year has only one. Common sense
would tell anyone this statement was "false." Just
remember that it is the hypocrite, "the wolf in
sheep's clothing," that always gets your goat.

I regret very much the necessity of making public
to the world the business condition of Salem, be-
cause I expect to live here for several years to come,
and with the hope that others may be saved I cast
the city's future a sacrifice upon the altar of the
State of Oregon.

**DESTROY THE INDUSTRIAL
PROGRESS OF OREGON?**

What the so-called "Water Front"
Numbers 328 and 330 on the ballot,
do if passed at at the November
election.

Why make it impossible to build saw mills or any
other industrial, labor-producing plants on the rivers
and bays of Oregon?
That's what the passage of these bills will do.

Why cripple the development of our great timber resources; why cripple
all future manufacturing in Oregon?
That's what will take place if the people vote "yes" on numbers 328 and 330
Why lock up thousands of acres of over-flow lands bordering upon the navigable
waters of the State and its miles of water front for "future generations;"
why not let the present generation have some of the benefit from the use of
these lands?

Industries of all kinds will be driven from Oregon and intending investors
will turn their backs upon the State if these so-called "Water Front" bills be-
come laws. That is why every man, woman and child in Oregon will be adverse-
ly affected if these bills are passed by the people in November.

Oregon needs outside capital to develop its great natural resources, but
we will drive it away if we pass Numbers 328 and 330 on the ballot at the No-
vember election.
If these so-called "Water Front" bills are passed by the people, a vast
amount of property will be withdrawn from taxation in this state and this great
burden will be thrown upon the rest of the taxable property, resulting in a heavy
increase in everybody's taxes.

These bills are vicious; they are destructive of the very best interests of the
State; they ought never to become laws.

The way to defeat them is to vote NO 329 and 331
