

THE GAZETTE.

THURSDAY, November 6, 1890.

THE Republicans are beautifully skinned.

LAW POLITICAL differences and local disputes up on the shelf in the upbuilding of Heppner.

With all our prosperity, there seems to be no inclination to organize a board of trade. We need it don't we?

From present election returns, it is plain enough that the next congress will be democratic. Major McKinley had to overcome a gerrymandered democratic majority of 2,000, and if he has not done so, has greatly reduced it. Tammany is successful in New York, and the South has come to the front almost solidly democratic. Republicans are not surprised, and democrats are elated over the present success. What the people say, must be.

It is the duty of our people, regardless of politics, to encourage our own legislators in doing what they can at the next session to repeal obnoxious laws and enact better ones in their stead. If they do well as democrats, let them rejoice in their success. In the advocacy for better tax and assessment laws, as well as the repeal of the mortgage tax law, the press of the state is pretty well united, regardless of parties. It is a matter of principle and goes beyond mere party ties.

THE MORTGAGE tax law is nothing more than a scare-crow, but as such, is almost as effectual as though a mortgage tax could not be collected differently. It is almost a "dead letter," yet capital will not take the risk to locate in the matter, nor the risk in experimenting in a field where it is thus restricted. Capital will seek a place where there are no doubts, and where no unjust restrictions abound, even as the harmless knot, drowsed in cast-off duds in a modern washroom, puffed up. At a distance it looks gaudy, and captures capital, goes where there's smooth sailing, and its presence appreciates. It is the bengaloo that is causing the trouble, and should be removed.

A CANDID OPINION.

Some years ago England was manufacturing all the steel rails used in the United States. The industry was dead here in the production of rails, until Congress finally placed a duty on the importation of them; and for a short time, they reached a much higher price than was formerly paid. This induced capital to venture in the manufacture of them at home, and competition has long ago placed steel rails at a lower figure than was ever experienced in the days of free trade. So it is well to remember that of tin plate. Already anti-tariff protectionists are urging that tin plate in reaching a high price; a tin coffee pot, that cost 50 cents before the passage of the McKinley bill will now probably cost 52 cents. This is a terrible burthen, as any one can see. Now in the midst of this burthen, capital is preparing to open iron foundries in the United States, and tin plate works are already being erected. As it will be in the case of steel rails, so it will be in tin.

Gilliam & Bisbee and other merchants here are still selling tinware at the old prices. If tinware is going to cost so much, why not some of our free trade friends take advantage of this opportunity to sell the old prices, and get the benefit of the new? The trial of this matter is, the increased price of raw material amounts to absolutely nothing, and within three years will be cheaper than ever before. By the time these big industries get firmly established, competition will begin to regulate matters.

THE PULPIT AND THE STAGE.

Rev. F. M. Shront, Pastor United Brethren Church, Blue Mound, Kan., says: "I feel it my duty to tell what wonders Dr. King's New Discovery has done for me. My lungs were badly diseased, and my parishioners thought I could not live a few weeks. I took five bottles of Dr. King's New Discovery and am sound and well, gaining 28 pounds in weight."

Arthur Love, Manager Love's Funny Folks Combination, writes: "After a thorough trial and convincing evidence, I am confident Dr. King's New Discovery for consumption, beats 'em all, and cures what everything else fails. The greatest blessing I can give my ministerial friends to urge them to try it." Free trial bottles at T. W. Ayers' Jr. Drug Store. Regular sizes 50 cents and \$1.00.

EIGHT MILE NOTES.

(Intended for last week.)

Miss Anna Anderson will attend school in Heppner this winter.

Mrs. Charles Nelson visited her parents and other relatives last week.

Mrs. Charlie Talbot is visiting her friends on Eight Mile this week.

Mr. T. C. Aubrey will occupy the house recently vacated by Mr. Spray.

Weather pleasant, roads in good condition, and wheat-hauling to Heppner goes steadily on.

Mr. E. Crouch and family have returned from Baker City and will locate in Heppner, soon.

Mr. and Mrs. Spray will be greatly missed by their neighbors, who wish them well in their new home.

The sale at Mr. J. C. Spry's, last Saturday, was well attended, and the average price of articles sold, very good.

The many friends of Mr. Clark Ingram will be pleased to hear that he has received a patent on the light he has for some time been engaged in perfecting. Mr. Ingram has two other applications in the patent office.

County Superintendent, W. L. Salting, was out visiting schools last week, and did not neglect Eight Mile Center. He says he was not able to discover the "dead line." The records show ex-County Superintendent J. H. Simons to have been a visitor of that school on Nov. 20, 1889, during Mr. Salting's term of school.

The Eight Mile Locum holds weekly meetings at the school house, where the members discuss questions of weighty and grave import, and give the teacher an extra half hour's junior work on Monday morning, almost making her regret that the old Connecticut "Bite Laws" regarding the use of tobacco are not still in force.

Arthur Royce is giving excellent satisfaction as a teacher in the Hooker district.

Eight Mile, Oct. 27, '90.

A CHILD KILLED.

Another child killed by the use of opiates given in the form of Soothing Syrup. Why mothers give their children such deadly poison is surprising when they can relieve the child of its peculiar troubles by using Dr. A. A. Abbott's Soother. It contains no opium or morphine. Sold by Stoen-Johnson Drug Co.

The Union Pacific has not had an accident worth mentioning for more than a week. This is especially noteworthy.

Miss Ava Dodson is over from Fairhaven.

S. L. B. means Simmons Liver Regulator.

Lone Rock is getting to be quite a point for business.

Mr. and Mrs. Andrew Neal were over from Long Rock last week.

Some valuable cooking recipes appear on our eighth page this week.

It is reported that the Buffalo herd has escaped from the National Park.

Trial subscriptions to the GAZETTE, one month, 25 cents; three months, 75 cents. Take it.

Special attention is called to the new issue of Mrs. A. M. Stoen, Mat Lichtenthal and Leeser & Thompson, which appears in this issue.

Mrs. Thos. Quaid made a brief visit last week to Pendleton, where her daughter, Miss Katie is attending school, returning home Friday.

Bookkeepers and others of sedentary home cure constitution with Simmons Liver Regulator.

A LEVEL HEAD.

The Advantage of Presence of Mind in an Emergency.

During the late strike on the New York Central Railroad, the militia were ordered to be in readiness in case of a riot, but they were not called out.

In an interview, Gov. Hill said the troops were not to be called upon except in case of an emergency. The emergency had not arisen, therefore they would not be ordered out. He remarked that this was a wise and good step, which he had experience and he did his best to do.

On the stage line between Heppner and Long Creek, the militia were able to cope with it without calling on the militia.

The strike continued several weeks, and there was riotous action at various points along the line, but the civil authorities were able to cope with it without calling on the militia.

The test of a man's real ability comes when an emergency arises, which makes a hasty call on his good judgment and discretion. The man who retains his presence of mind, maintains his equipment, exercises sound discretion at such critical junctures, will be relied on and will be put to the front.

Men with level heads have the staying qualities which do not falter in the face of danger. Otto A. Cole, of Kinsman, O., June 10, 1890, writes: "In the fall of 1888 I was feeling very ill. I consulted a doctor and he said I had Bright's disease, emphysema, and the like. I would not stand in the shoes for the State of Ohio." But he did not lose courage or give up; he says: "I saw the testimonial of Mr. John Coleman, 100 Gregory St., New Haven, Conn., and I wrote to him. In due time I received an answer, stating that the testimonial that he gave was genuine and not overdrawn in any particular. I have a good many bottles of Warner's Safe Cure; have not taken any for one year."

Gov. Hill is accounted a very successful man; he is cool and calculating and belongs to the class that do not lose their heads when emergencies arise.

Mr. and Mrs. Orin L. Patterson arrived from the East last Saturday, and with the editor's better half, are sojourning in Portland a few days. They express themselves as pleased with their trip, which was via the Northern Pacific.

DEAFNESS CAN'T BE CURED

By local applications, as they can't reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies.

If you are troubled with any disease of the mucous lining of the Eustachian tube. When this tube gets inflamed you have running, ringing or buzzing in the ear, and when it becomes closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflammatory condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (cannot be cured) that we cannot cure by taking Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O.

ARTHUR COFFIN,
Arlington.

FRANK McFARLAND,
Heppner.

LADIES

We invite your inspection of our new Fall and Winter Goods. Every Department filled to overflowing with the latest styles. Call in and examine our elegant assortment in

COFFIN & McFARLAND,

The National Bank Building, Heppner, Oregon.

LONG CREEK.

From the Eagle.

Geo. W. Conant, the Heppner GAZETTE rustler, has been in town a few days.

Bert Simons, of Heppner, arrived here Tuesday. Bert is one of the best horse shapers in Eastern Oregon.

On the stage line between Heppner and Monmouth is a team that is about 22 years old. Frank and Jim have been pulling stage for about 16 years.

A man named Corn and a woman named Wheat, were recently married in an early marriage, when the chon consulted the audience by singing, "What will the harvest be?"

Bert Bosworth, one of the Heppner GAZETTE "boys," came over on the stage last Friday, in time to "run off" last week's issue of the Eagle. He will remain in the office until Pat arrives home. The shop is under great obligations to Bert for his timely assistance.

Some boys got on a "high lonesome" last Tuesday night, with the intention of changing the color of the town from its present beautiful white and roots, which renders them safe among us. It is the use of these roots and herbs which renders that generally dreaded event so remarkable safe and easy with them.

Osage Osage Pills should begin three weeks before Thanksgiving. They are to be expected in the fall. Please call for our catalog. Price, per box, \$2. For sale by T. W. Ayers' Jr., Druggist, Heppner, Oregon, or sent in plain wrapper, post-paid, on receipt of \$2.00.

EASY LABOR & PAINLESS CHILDBIRTH

GUARANTEED OSAGE PILLS,

BY THE USE OF PURELY VEGETABLE AND PERFECTLY HARMLESS.

Being compounded from numerous herbs and roots, which have been in use among the Osage Indians for years. It is the use of these roots and herbs which renders that generally

dreaded event so remarkable safe and easy with them.

Osage Osage Pills should begin three weeks before Thanksgiving. They are to be expected in the fall. Please call for our catalog. Price, per box, \$2. For sale by T. W. Ayers' Jr., Druggist, Heppner, Oregon, or sent in plain wrapper, post-paid, on receipt of \$2.00.

THE SAKE M DICINE CO., WICHITA, KANS.

TRAINING GROUNDS.

Work Commenced on the Race Track at T. J. Matlock's Ranch.

Cass and Tom Matlock are at work on a circular mile track on Tom's ranch, seven miles from Heppner, on Hinton creek, a mention of which was made in last issue. It is built on purpose to train the fine colts which were foaled at the farm, and will be a first-class race track.

It would be well to note that the Matlock stables on this Hinton creek ranch contains some noteworthy animals, viz:

Repetta, record 1:41; present age, 10 years. Her sucking colt, Unatilla, is the best in the country.

Sheepdog, record 1:42; present age, 10 years. Her colt, Sassy, record 1:43; present age, 7 years.

Both are in training for the Spring races.

Lady Duffy, record 1:44; present age, 7 years.

Both are in training for the Spring races.

Both are in training for the Spring races.
