THE GAZETTE.

WAONER will hereafter have direct mail service to Heppper, via Hardman.

Our esteemed neighbor comes out with seven column folio this week. Though we don't get along like neighbors should, the Gazette is pleased at this effort on his part to make his paper more interesting to patrons.

THE United States supreme court up-

THE Farmers Alliance very justly object to alien ownership of public land. This is perfectly right, but they ruin it all by advocating that the government it can be bor rowed. The people abould support the government not the government the people.

Our neighbor assures us that we are Macleny, Or., May 28, 1891. Dr. Darrin: Dear Sir, you wish to know if my hearing is all right and if ing himself what it is. That he, him I am satisfied with the treatment I re-

I am satisfied with the treatment I re-self, is responsible for taking the coonty printing at \$25 per year, this paper again affirms. Howseer, the Gazette is willing to concede that newspaper rows are very foolish, yet it asks nothing at the hands of the Record.

WE hear that many of Morrow consty's supervisors are awakening to the necess sity of better roads and are appreciating the responsibilities devolving upon them by looking after thorongutares in their respective districts. This is as it should be. We have not had the best reputa-tion in the matter of keeping up our roads, but it is boped that hereafter no one will have reason to say, "Morrow oounty has the worst roads in the state." R. H. Whitson, foreman of the Record, made a trip to his possessions near trans, otherwise everything and belows cats were in their accostom-de places. From him, we learn that bunchgrass is prospering at it never did before. More thorough farming and seasonable rains are responsible for it. In a local of recent issue it was stated

Even Lotan with his sack could not stem the tide of popular sentiment, that con-solidation is the best for all. It costs less to maintain one city government than three, and even we buochgrasser-take much pride in saying that "Oregon has the biggest, busiest and hest town in the Northwest." This sentiment, cchoed and re-echoed, will give Oregon and Portland much prestige abroad, re dounding in great good. A citizen of Oregon, who cannot rejoice at the suc-cess of consolidation, is not worthy to reside within the limits of our state. Mr. Wren has 30 acres of grain in all, including wheat the bill" as represented, but has only 200 acres of grain in all, including wheat of corn which bids fair fo meke s good orop. Johnny Lockuane, mixologist at Frank's place, opposite City Hotel, has on hand the following: Punches, gren adine, milk, orgest, zufandel, strawberry. betheada. Cocktails; pineapple, soda Also port wine sangarees, egg lemonudes, abie, milk, orgenian and Gazette on file.

A COMMON carrier cannot refuse pas-sengers or express, matters not from where they come. Mr. McCoy, in his efforts to force the sale of the Monn-ment-Canyon City stage line, has pulled off his stages between Monument and Long Creek. He resorts to this as a dirty means to rain the Heppaor-Monn-ment line, and to compel the purchase of his Grant county lines heretofore In any event, Heppner will see that stages run regularly between Monument

and Long Creek, carrying freight and passengers as of old, and no discrimi-nation on the part of Mr. McCoy will be tolerated. This action on his part will hart Heppner in or remedied immediate by. Heppner may quarrel a little openation

DEATH OF JUDGE BIRD.
