

THE GAZETTE.

LONG CREEK.

From the Eagle. Long Creek's process flouring mill is running night and day. It is turning out an excellent grade of flour, and is giving general satisfaction.

C. G. Caspar, who is thriving out in Morrow county, writes this office that due to matters that are unavoidable he is meeting with ill luck. Gas is a rustler and all he wants is time and he'll get there.

Long Creek is to have a brass band. A meeting was held Saturday evening and officers were elected and steps taken to purchase instruments. The business fraternity of the town should give the new enterprise every possible encouragement.

The Journal that deals wholly in "foxy" comments on typographical errors that appear in the columns of its exchange is certainly "hard up" for news. No man becomes so thorough in proof reading but what an error will occasionally pass being detected, and any reasonable minded man will pass such unnoticed.

News has reached this office that a man named Tibbets has made the discovery of an immensely rich ledge of ore on Elk creek above the Johnson's mines. It is a ledge of great extent and is between two and one-half and three feet thick, and is decidedly the richest ore found on Elk creek. Just the quantity of ore in this find, awaits future developments.

A WORD FOR ELLIS.

From the Times-Mountaineer. Next June will witness the election of two congressmen from this state, and it is not premature to prepare a contest. In the first district the Republicans of the Willamette valley will name some eligible candidate who will undoubtedly be elected, and the second district has also good material for the position. We have heard several names mentioned; but the Times-Mountaineer, after carefully canvassing the field, firmly believes that Hon. W. R. Ellis, of Heppner, would more fully represent Eastern Oregon than any other person. His interests are identical with those of the Island Empire, and the greatest reliance can be placed in his honesty and integrity. Having lived east of the Cascade mountains for many years, he fully understands the requirements of representing the Columbia river to the navigation of the producers, and will not doubt use the most earnest endeavors to accomplish this object. We hope the next Republican nominating convention will place the name of Hon. W. R. Ellis for congress on the ticket in the second district, and we are satisfied he will carry the strength of the party.

The teachers of Oregon either need the support of patrons in endeavoring to maintain order and discipline or the establishment of a reform school of more than ordinary dimensions. The teacher will find his work more congenial if the state will undertake to assist in educating the unruly spirits. But until such an institution is founded, larger and more thorough than anything now within the limits of the state, the teachers are forced to do the best they can. The Portland agitation is sufficient to convince one that this proposed school should not only be large enough to contain all the unruly pupils, but a goodly number of the parents, as well as the editor of the Oregonian. If these older heads are controlled, there will be little trouble with the children. If corporal punishment is to be abolished, give us a bigger reform school. Advocates of reform should not stop when they have shown the best means of tearing down, but should go on a little further and prove how a better and more substantial structure can be established in its stead.

When Columbus was made a prisoner in San Domingo the Governor who arrested him feared there might be an attempt to rescue. So he trained a big gun on the entrance of the citadel, or castle, in which Columbus was confined. That cannon has lain in the same place ever since until now, when Mr. Ober, a Word's Fair representative, recovered it, and with the permission of the Governor of San Domingo, brought it to the United States. It has been shipped to Chicago that he may use it in some way in ornamenting the Exposition grounds.

A wheat blockade for Eastern Oregon and Washington is at hand. Portland warehouses are full of wheat, with the exception of those of Ballou, Guthrie & Co. Our branch here has received word not to ship any cars loaded with wheat, except those consigned to the above-mentioned firm. This move might be construed into a plan to lower the price of wheat, but in this instance it is certainly not the case. Wheat has been rolling into Portland for weeks past, and as few ships have arrived for cargo, the bulk of this year's wheat crop, that has been shipped, remains in Portland.

If the Heppner mill is worth operating at all, it should be run night and day. All flour made in excess of present demands will find ready sale before the season ends. This is the Gazette's opinion only, which the paper "begs pardon" for offering, as the present directorship, perhaps, know their business. We are informed that as soon as water increases in the creek in sufficient quantity to run the mill, steam power will be dispensed with, and the mill run to its fullest capacity.

The amazing statement is made by Edward Atkinson, eminent statistician of Boston, in Frank Leslie's Illustrated weekly this week, that the invention of the automatic, self-binding, wheat harvester enabled this country to resume specie payment in 1879 by making it possible to gather the enormous wheat crop and get it to market.

JAMES YATES, R. EDGEMO man, boasts of having the largest potato on record, one weighing 4 1/2 pounds. Mr. Yates is not "in it." Any farmer in Morrow county will challenge Mr. Yates to call him and go from 2 to 4 pounds better. The Gazette had a potato on exhibition last year which weighed nearly 9 pounds.

SOL HINCH, the Oregon diplomat, has returned from Turkey on a brief visit. Two years absence had not weakened him from Oregon's attractions.

PRIVATE WORDS FOR WOMEN.

The eminent and successful electric physicians, Drs. Darrin, have discovered and perfected a system of treatment that has caused a revolution in the treatment of female diseases. Wherever their treatment is tested and known it has done away with nearly all dosing with nauseous drugs and surgical operations, whereby so many precious lives have been lost. It has proved in thousands of cases to be a positive cure for the following female diseases:

Ovarian tumors, polypus ulceration and dropsy of womb, inflammation, congestion and falling of womb, leucorrhoea, painful and suppressed menstruation, bearing down pains, backache, headache, locking joints, melancholy, absence of ambition or desire to live, or, in fact, any complaint having its origin in a disordered state of the generative and accompanying organs, whether from constitutional causes, hereditary, accident, tight-lacing, miscarriage or other causes. Their method of treatment is harmless, pleasant and mild.

Drs. Darrin refrain from making public the names of hundreds of ladies who have been restored to health, with deference to the delicacy of their afflictions.

The doctors are permanently located at 70 1/2 Washington street, Portland, Oregon, 9 a. m. to 8 p. m.; Sunday, 10 to 12. They are equally successful in the treatment of all curable chronic, acute and private diseases, such as errors of youth and impotency. Electricity is the principal factor in their treatment.

UPPER HIEKA CREEK.

Mr. Editor: It has been some time since we have been permitted to write you, having been away from home most of the time, but hope from now on, I will be able to give you items from our part of the country.

We are having nice rains. Mrs. Annie Webster visited her sister, Mrs. B. F. Hevland, one day last week. Mrs. B. F. Hevland is visiting her parents, Mr. D. W. Bard, on Six Dollar Canyon.

Mr. Fred Thomas has Mr. D. A. Harren's band of sheep on his ranch for a few days.

I hear that there are parties in these parts, looking some of their horses. I hope they will find them.

The lumbermen have been busy hauling their winter wood. They had better move to the timber.

The Hamilton threshing machine is at Mr. Andrews'. They will go from there to Mr. Penland's Sanford ranch.

Mr. Wm. Penland was in these parts the other day looking for the McKenzie ranch, but he took the wrong road.

Since I last wrote, there has been some changes in our neighborhood. Mr. Jack McKenzie has sold his ranch to Mr. Smith Burch.

Mr. Hamilton has just finished threshing his large crop of grain. We have not heard the average, but know that it must be large.

I hear that a prominent farmer of our neighborhood was calling at James Tolbert's a few days ago. He must be contemplating changing cooks.

There is a lady in our vicinity who wanted a cellar, and her husband was too busy to dig it. He went to help one of his neighbors harvest and when he returned home she had one dug 10x12 feet, 4 feet deep. If any one has a woman that can beat that, we would like to hear from them.

Oct 14, '91.

LAST WEEK'S RACES.

Some Close Contests Between Visiting and Local Horses—Deacon Versus Gray Dick, No Go.

The race last Friday between Joe Cotton and Pay Day, quarter of a mile, resulted in a victory for Cotton to 23 1/2 seconds. The main stakes were \$50 a side. Little outside betting was done. The stakes in the race between Deacon and Gray Dick were withdrawn.

SUNDAY'S RACE.

Our sporting people were called out by the track Sunday to see a quarter dash between Geo. Akins' Deacon and Jim Jones' Tim, \$50 a side, on two preparations at the 300-yard stake and at the end of the quarter stretch. Deacon won on both, coming out at the end of the quarter in 23 1/2. "Uncle" Charles Cochrane acted as tapper; George Conroy and Frank Farrier, judges at the 300 yard stake and George Harrington and Dave McAtee at the end of the quarter. It was a close race, and some money changed hands on the result.

SIGNAL FLAGS.

The following is the interpretation of the signal flags as displayed on the Calves Hotel: White flag, six feet square, indicates clear or fair weather. Blue flag, six feet square, indicates rain or snow. White and blue flag (parallel bars of white and blue), six feet square, indicates that local rains or showers will occur, and that the rainfall will not be general. Black triangular flag, four feet at the base and six feet in length, always refers to temperature; when placed above number 1, 2, or 3 it indicates warm weather; when placed below numbers 1, 2, or 3 it indicates colder weather; when not displayed, the indications are that the temperature will remain stationary, or that the change in temperature will not vary more than four degrees from the temperature of the same hour of the preceding day from March to October, inclusive, and not more than six degrees for the remaining months of the year. White flag, six feet square, with black square in center indicates the approach of a sudden and decided fall in temperature. This signal is not to be displayed unless it is expected that the temperature will fall to forty-two degrees, or lower, and is usually ordered at least twenty-four hours in advance of the cold wave. When the last mentioned is displayed, the temperature flag is always omitted. 449-11.

A MIND OF HER OWN.

Some of the young men criticized Miss Lehman rather severely for breaking up the dance the evening of the 3d, which was intended as a farewell party in honor of Miss Hattie Hill, who was starting for Washington. Miss Lehman took a six shouter and paraded the streets Sunday evening, presumably with the intention of dispatching some of her critics, but there was no bloodshed.

Miss Lehman is principal of the Harrier school at \$125 per month, was elected county superintendent at last election, and were it permissible by the laws, would now be serving in that capacity.

QUICK WORK.—Mr. Von Cadow of the Palace Hotel, met with a small loss by fire on October 18th. He carried insurance in two companies represented by Messrs. Brown & Hamilton, and within eight days after the fire the above-named firm had adjusted the loss, communicated with the insurance companies and paid Mr. Von Cadow for all damages he had suffered.

OUR VERY BEST PEOPLE.

Confirm our statement when we say that Dr. Acker's English Remedy is in every way superior to any and all other preparations for the throat and lungs. In whooping cough and croup, it is magic and relieves at once. We offer a sample bottle free. Remember, this remedy is sold on a positive guarantee by the Slocum-Johnston Drug Co.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment.

Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only c-stitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly upon the mucous membrane of the surface of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c.

BE SURE.—On Nov. 13th and 14th, J. L. G. Wilson will offer for sale in Heppner, 20 acres and colts, 20 yearlings, 13 two-year olds and 50 mares and colts. Twelve months time will be given all who desire, with 10 per cent interest, approved security, and 5 per cent discount for cash. All livestock should be present here at these dates.

There is little doubt but that many persons suffer for years with ailments that could easily be cured by the use of some simple remedy. The following incident is an illustration of this fact: My wife was troubled with a pain in her side of the greater part of the time for three years, until cured by Chamberlain's Pain Balm. It has, I think, permanently cured her. We also have used Chamberlain's Cough Remedy whenever needed and believe it to be the best in the world.—P. M. Poston, Benvenue, Sullivan Co., Missouri. For sale by Slocum-Johnston Drug Company.

MORROW COUNTY STILL IN IT.—S. N. Morgan, of Sand Hollow, won second prize, offered by the Royal New Yorkers, for the best 18 bushels of wheat, which consisted of six different varieties. The first prize was won by a Canadian farmer, so Mr. Morgan is the boss of the United States in the wheat raising line, from the R. N. Yorker's standpoint. We saw some of the same kind of grain at Minor Bros. Saturday last, and it surely is hard to beat.

DR. ACKER'S ENGLISH PILLS Are active, effective and pure. For sick headache, disordered stomach, loss of appetite, bad complexion and biliousness, they have never been equaled, either in America or abroad. Sold by Slocum Johnston Drug Co.

SHEEP DYING.—Norman A. Kelly reports that the sheep are dying enroute from the Bios. Jas. Jones lost 400, J. M. Hager 300, Neil Jones 11 head, and others various numbers. All it is supposed to have been the cause, and others are warned to be on the lookout while bringing their stock from the mountains.

Hibbard's Rheumatic and Liver Pills. These Pills are scientifically compounded, and uniform in action. No gripping pain so commonly following the use of Pills. They are adapted to both adults and children with perfect safety. We guarantee they have no equal in the cure of SICK HEADACHE, Constipation, Dyspepsia and Biliousness; and, as an appetizer, they excel any other preparation.

WEALTH OF THE BIOS.—The Gazette has shown last Friday some samples of the new discovery. Fire brick and building stone which was recently discovered in the Bios mountains. Prof. Roberts, who is in the employ of the government, says that it is even a better quality than the manufactured article. In the natural state, beneath the sun face, it can be cut out in blocks like clay, but upon being exposed to the surface hardens, and the more it is heated the harder it gets. The discovery promises to be a bonanza.

Nobody will suffer from liver disease if they take Simmons' Liver Regulator.

HOW A GIRL MAKES MONEY. "I give my experience for the benefit of others. I sent \$5.00 to the Queen Toilet Co., Cincinnati, Ohio, and received 3 agents outfits and my own county territory. I started two of my friends to work and also canvassed myself for one month; my friends are not yet canvassed before, but we found it no trouble to take orders, even close to drug stores for people could not help buying when they saw with their eyes what their eyes could not see. I now have nine sub-agents in my own county and a branch office at my home, which the company mentions in their advertisement in our county papers."

My clear profit last month was \$100. "The only give me all the business I can attend to." ELLA BLACKBURN, Agent for Deacon Co., Ind.

This Company's advertisement appears in this issue of our paper, [Ed. 436-11]

Slocum-Johnston Drug Co. Fresh goods received weekly.

Pap Simons & Son, the boss horse-shoers and blacksmiths.

Bull, the baker. Buy your bread and cakes and save money. Try it.

New firm, and prices as low as ever. Lichtenthal & Schirzinger, old stand.
