

UPON THEIR DIGNITY.

The Chileans' Backs are Still Up.

CHERISHING A GRIEVANCE.

The Representatives of that Country Calls on Secretary Blaine With Formal Notice—Fifteen Charges on Field Against the United States.

WASHINGTON, D. C., Oct. 28.—Senator Pedro Montt has evidently received his cue from the Junta which has been the subject of the complaints at the White House conference last Friday was that Mr. Montt has avoided the State department since the establishment of the provisional government notwithstanding that the United States was the first to recognize the new Chilean government. His neglect as the official representative of the Junta was the subject of much unfavorable comment. He has now officially notified Secretary Blaine that he has received notice of his appointment by the Junta as envoy extraordinary and minister plenipotentiary from Chile to the United States.

Senator Romero, the Mexican minister, accompanied by Senator Montt, arrived at the State department about noon today. Minister Romero performed his part by formally introducing the diplomat, and Senator Montt did the rest. He informed Secretary Blaine that the reason he had not presented himself was due to his absence from the city almost continuously since the overthrow of Balmaceda. He also informed the secretary that he had now received notification of his appointment. The official documents which are necessary to establish him in his office are now on their way to Washington.

Secretary Blaine received the Chilean with all due courtesy, and any business which requires the co-operation of the Chilean representative will hereafter be transacted through Senator Montt. The interview was short and pleasant. As soon as Minister Montt's credentials arrive he will be formally presented to the President by Secretary Blaine.

If the feeling of the Chilean representatives in this city are any reflex of the sentiment entertained by their countrymen against the United States, then the outrage at Valparaiso can be understood. While diplomats place the seal of secrecy upon their official lips, in ordinary conversation the bitter hatred and denunciation of our government crops out.

A visit to the legation today to ascertain if the visit of the Junta to the State department was indicative of a more cordial feeling between the two countries and the beginning of the end of the present bad feeling, revealed that as this government was apparently running things to suit itself, one would have to look to the State department for information. It was not even admitted that Mr. Montt had called at the department, much less was there any suggestion of the character of the meeting between him and the Secretary Blaine.

The spirit that predominates at the Chilean legation is not calculated to bring about entente cordiale with Chile. It is a spirit of self-complacency that will admit of no question of the Junta's attitude or of the peaceable or dignified character of the Chilean government. According to the idea as expressed by Mr. Julius Foster, the United States has been playing the part of a tyrant. It is charged by him that the United States violated the principles of neutrality ever since Secretary Foster ordered the Itata to be held at the port of San Diego.

The legation has on file some 15 charges against this government, ranging from the alleged murder of Minister Egan to Balmaceda, to the assertion that the Admiral had the search light of the Baltimore turned on the bay at Valparaiso to prevent the torpedo boats of the insurgents from doing their work. The charges are run on these allegations, until the Chileans have persuaded themselves that they are a long suffering meek and patient people. Senator Montt has announced that he has decided not to say a word officially. Mr. Foster declares that he is not a diplomat, nor does he believe in diplomacy, but he must obey Mr. Montt's orders.

WASHINGTON, D. C., Oct. 28.—Senator Montt, the Chilean envoy here, called on Secretary Blaine today and had a long talk concerning the assault upon American sailors in Valparaiso. Senator Montt explained the details of the affair which had come to him in his official capacity and charged that Minister Egan is really responsible for the trouble existing between Chile and the United States. He said that during the revolution in Chile when the Congressmen endeavored to make a secret advance on Valparaiso and surprise Balmaceda's troops, the United States vessel Baltimore played the part of a spy.

He charges the Baltimore crew was making a forward movement; that the vessel, which should have maintained a neutral attitude, steamed along the coast and along the landing places, where the insurgents were located; that the Baltimore then hastened to Valparaiso and reported to Egan, who immediately laid the Baltimore's plans were divulged to the enemy through Egan's espionage.

WASHINGTON, Oct. 28.—Minister Egan has received a reply from the minister of foreign affairs of the provisional government, Senator Matta, in which he sends a safe conduct to refugees in the American legation under protest, and recognizes the precedents quoted by Minister Egan in which the Chilean government claimed similar rights for refugees in Peru, who later were allowed to depart from that country, and acknowledge the claim of extra-territoriality.

At the same time Senator Matta does not abandon altogether the position maintained by the Junta that these refugees in the legation must, in spite of the rights of aylum which are thereby conceded, eventually be tried before the tribunals. The Junta is greatly stirred up over recent dispatches from the United States government on the question of the outrageous assault upon sailors from the Baltimore in the streets of Valparaiso October 16.

It seems the leaders are disposed to consider the matter in a serious light, but the subject is of such grave import that it requires earnest deliberation before any definite reply can be given. A letter published in the newspapers has created a vast amount of heated discussion. It is signed by Augustin Edwards, a well known banker, and Eduardo Matte, and vindicates Minister Egan from continued and severe criticisms that has been passed upon his conduct of the office by various bitter adherents of the Junta. The letter has caused a great deal of criticism.

The Pet Grenadier Guards Again Make a Demonstration.

LONDON, Oct. 28.—Military circles and the public in general were startled today by the publication in the columns of the daily press of details of another riotous outbreak on the part of the Grenadier guards, who are now stationed at Windsor castle. This second mutiny of the same battalion within six months had its origin in the ill feeling permeating many of the corps of the British army on account of the insufficient and unpalatable rations which the men claimed were served them for meals on Wednesday, October 14. These rations they claim were especially bad and caused the smoldering feeling of insubordination to break out.

The privates of one company refused to eat the rations and they were confined to the barracks for one day and the corporals of the same company were placed under arrest pending inquiry into the riotous conduct of the privates. Inquiry into the outbreak showed that the grenadiers had upon previous occasions complained of the quality of bread served them and the justice of their complaint not being admitted the men threw the bread out of the barracks' windows into the square.

The adjutant of the battalion declared that he was not aware the men had acted in the manner mentioned and he was wholly ignorant of the entire conduct and that he had not received any report upon the subject. Thereupon Mr. Fray says: "The Evidence of 100 witnesses can prove the facts of such an outbreak and the consequent arrest possible, without a colonel or adjutant knowing about it. What has been said about a gulf separating the officers from the men is not far short of the truth."

THE IRISH CAMPAIGN.

Dillon Injured by a Blow and Pierce Faction Fights Reteging.

CORK, Oct. 29.—John Dillon was pursued and attacked last night while driving to attend an anti-Parnellite meeting. He was pelted with stones and during the fracas received a severe blow on the knee from a stick. The injury is not of a serious nature, but on account of the swelling, Dillon must be quiet. Consequently the injured parliamentarian ceased his work of canvassing in behalf of the nominees of the McCarthyite party.

CORK, Oct. 29.—The fighting which took place between the McCarthyites and Parnellites last night in the streets of Cork was more serious than first appeared. There were a series of scuffles between the contending parties, the most severe being one in which Dillon was disabled. All night long half drunken men reeled about the streets individually and in groups. From time to time the two gangs meeting on corners would dispute for the mastery of verbal compliments would follow and then an appeal would be made to the ever ready black thorn or to a convenient boulder.

Quay and which had been indorsed by Mr. Quay, who received the amount named through his bank at Beaver, Pa. ROCHESTER, Pa., Oct. 28.—Senator Quay was called on at his home in Beaver early this morning and questioned as to the certificate of deposit for \$8877 from the Keystone bank to Barsley, through the Receiver Deposit Bank November 29, 1889. He said: "In October, not November, 1889, I gave a note to a gentleman representing the Republican city committee of Philadelphia for \$3000, upon which to raise that amount of money for the campaign of that year. What was done with it I know nothing personally except it was afterwards returned to me canceled paid, as I understand, by the Republican State committee. The Barsley draft is the amount less the discount."
