

THE SLEEPING BEAUTY.

A Young Girl Has Slept For Five Months

EXCEEDINGLY STRANGE CASE.

A School Teacher Who Has Slept 135 Days Can Only Be Awakened With Great Difficulty, Soon to Become Unusually Weak.

LANSING, Mich., Oct. 26.—Miss White, the young school teacher, is still sleeping. She has now been slumbering almost constantly for 135 days. She is now lying at the house of Dr. Brown, of Stockbridge, several miles south of here, who has had charge of the strange case since its inception and had the patient removed to his own house so that he might give her closer attention.

Miss White, until stricken, was a bright young woman and had taught school in the neighborhood of her home. While attending a business school in Jackson, in July of last year, she was attacked with nephritis. An abscess formed in her side and after intense suffering she was relieved of it. Some time afterwards she was attacked with epilepsy and suffered terribly from convulsions, having as many as 53 in a single hour. These continued until June last, when the young woman suddenly dropped into slumber so deep that for days no one was able to arouse her.

Her weight has steadily decreased until at present she weighs but 50 pounds, having lost over 200 pounds since the beginning of her sleep. Dr. Brown is the only person who has been able to arouse her, and the operation requires from 20 minutes to one hour. She is fed three times a day with milk nourishment. She remains awake for about half an hour, during which she converses intelligently and shows an interest in reading newspapers.

At the end of an hour she relapses into an unconscious state, in which she remains until her physician again awakens her. Dr. Brown thinks that the girl is now gradually gaining vitality, and it is believed that she will soon come out of her long slumber.

REDDING, Cal., Oct. 26.—As predicted, the boy arrested for robbing the bank at Redding stage last Monday night made a consistent testimony to Detective Thomas and United Sheriff Rice. He then took them to where Wells Fargo & Co.'s box was in which the gun was hidden, and where the money was taken. The man arrested at the same time for the same offense still maintains his innocence.

NEW YORK, Oct. 26.—The following is an extract from a letter from Robert Bonner to the New York World: "I have heard a great deal about the two minute trotter. I do not expect to see any horse trot a mile in two minutes. My good friend, General Tracy, secretary of the navy, says, if he is correctly reported, that he expects that within two years the two minute trotter will have arrived. I cannot agree with him and as proof that I have the courage of my convictions I will give \$5,000 to see any horse within two years trot a mile in two minutes, five seconds, on a regular track with a Cleveland." The man, Mand S. trotted, or any other regulation track, such as Buffalo, Rochester or Hartford.

PHILADELPHIA, Oct. 26.—It was reported in D. M. Carville's today that William F. Harrity, secretary of the commonwealth, is to be made chairman of the National Democratic committee, succeeding Calvin S. Brice, who, it has been announced, will retire after the next national convention. The fact that Mr. Harrity is to be chosen after the November elections to fill the vacancy in the national committee occasioned by the death of ex-Congressman Scott, of Erie, is regarded as a strong basis for the report. It is also reported that the plan has the approval of ex-President Cleveland and Governor Pattison, the confidence and friendship of whom is enjoyed to an unusual degree by Mr. Harrity.

ST. LOUIS, Mo., Oct. 26.—Colonel John O. Day, late general attorney of St. Louis & San Francisco railroad, who is being sued by that road to get possession of some land purchased by O'Day for the company, and which it is alleged he refused to surrender, denies in toto all allegations of the petitioner.

ST. MARY'S, W. Va., Oct. 26.—Daisy Le., a beautiful 17-year-old girl, committed suicide here today. She had been reproved by her father on account of a young man who was paying her attention, and her brother also reproached her. She went to a drug store, secured a dose of poison, and was found half an hour later in her death agony.

CHICAGO, Oct. 26.—The grand jury this morning returned several indictments in the criminal court against parties concerned in the poor house and insanity asylum boudle scandal. The court officials refuse to give out the names until arrests are made.

NEW YORK, Oct. 26.—The board of three United States appraisers, consisting of Justice Wilkinson, Sharratt and Sharp, rendered a decision this morning in case of the worsted yarn parities concerned in the decision of Appraiser Cooper and General Appraiser Hunt. The decision was sustained on the invoice value of the goods, but five per cent. was deducted for account of commissions. The board, however, disallowed 24 per cent. of this deduction and advanced 2 1/2 per cent. on the value of the goods.

JAMES STEPHENS.

The Fenian Head Centre is Back in Dublin.

After but little has been heard of him for 20 years, at this juncture in Irish affairs James Stephens reappears in Dublin. He is now 70 years old, and it is not likely that he will be active in agitation, particularly as there is an indictment for high treason standing against him in Dublin. The old man lives on an annuity bought for him a few years ago and his admirers are trying to raise money wherewith to buy him a house in Dublin. It is needless to say that the head centre of the Fenian movement has no sympathy with Gladstonian Irishmen and that his intimates among the Irish people are of the more advanced school. The nearest approach to Fenianism now in existence in Ireland is, perhaps, the Young Ireland Society of Dublin, which contends for the policy, identical with that of the organization of which Stephens was the head, which would make open war for the absolute independence of Ireland. It is conjectured that Mr. Stephens may have an understanding with John O'Leary, leader of the Dublin organization.

A H-brown coin as old as Christendom—Had a Watch Chain Made of His Own Ribs—The Latest Norwegian Election News.

STOCKHOLM, Oct. 17.—The crown prince of Sweden arrived at Baden-Baden September 19. Majla Nilsson, a widow of Skeby, Vermland, celebrated her 101st birthday September 21. Erik Stefanson, a poor Swedish farmer, was arrested in Gothenburg the other day. He imagines himself to be Jay Gould, the American railroad king, and was sent to an asylum.

A cargo of 2,000,000 kilograms of American wheat was received at Stockholm the other day. The export of Swedish butter was 11,600,000 kilograms during the first eight months of this year, as compared with 9,411 kilograms in 1890.

The largest cargo of American wheat ever received at Malmo arrived at that port the other day. The cargo contained 210,000 tons and the custom duty amounted to 55,000 crowns. Fire destroyed the sawmills and lumber yards at Fredrikfors, in the parish of Delbo, the loss is heavy.

Rev. Kleberg, of Tuve and Lundby parishes, has been sued for receiving collections in his churches contrary to the law. The phonograph is the name of an apparatus invented by Oscar Volpert, of Stockholm. The apparatus is to be attached to the telephone during one's absence, and it will receive the message, repeat it and reproduce it at any time.

The school board of the Kingsholm public school has prohibited the smoking of cigarettes by the pupils. It was found that a number of boys had stolen both cash and goods for the purpose of being able to buy cigarettes. The postmaster of Iottanas has in his possession a Hebrew coin which experts claim to be of the same stamp as the one which Jesus received when he betrayed Jesus. The inscription is: "The Shekel of Israel" on one side and on the reverse, "Jerusalem, Thou Sacred One."

The temperance organizations are becoming more and more urgent in their appeals to the government to prohibit the manufacture of whisky from small grain. King Oscar has pronounced his indignation by declaring that the radical papers are exaggerating the suffering caused by the increased prices of bread-stuff.

At the last meetings of the Salvation Army of Gothenburg, Miss Lucy Booth, the young sister of the general, has been present. "If beauty," says a reporter, "can promote progress of the army, Miss Booth ought to do it, for a more regular beauty of the Jewish type it would be hard to find."

The "North" tells the following interesting story: A watch chain made of human ribs was carried every day by G. S. Vallin, of Lulea. After a great deal of exposure while at sea he was taken ill in California and sent to St. Joseph's hospital in British Columbia where he was laid up for two years. Having made several slight operations on him without effect, a surgeon and physician finally made one large operation by which he cut off about two inches of seven ribs on the right side. Vallin now became well enough to return to Sweden, although his wound is to be kept open continually. After his return he had the pieces of his ribs made into said chain, which, perhaps, is the only one of its kind in the world.

CHRISTIANIA, Oct. 17.—A large number of English tourists will visit Norway next January. A widow of Vossevangen was 103 years old the other day. The big new church at Rausdal was dedicated the 23d of September. Their iron wedding was celebrated by Anders Salvesen, of Langeland, and his wife. The "groom" is 92, the "bride" 83 years of age. Both are in good health. A new railroad is to be built from Hamar through Sel. One hundred thousand dollars have been appropriated by the city of Teunberg for a canal there. Large cargoes of rye and wheat have reached Bergen from America, the import of rye alone being one-third in excess of ordinary years.

The mackerel catch is estimated at only one-ninth of last year's. Juniper berries used in the preparation of juniper oil are now imported from Hungary and Italy, though the juniper bush is distributed all over Norway, and could be made to yield quite a little revenue. A telegram dated Christiania, October 9, gives the latest election news as follows: Seventy-four members have already been elected, including 51 members of the Left, 13 Moderates and 10 members of the Right. Norwegian papers are as full of campaign notes and accounts of meetings, etc., as any of the American journals during the no-rest of their political career. Russia seems to be warmly interested in the later works of Bjornson. "A Glove" has been translated by a sister-in-law of Count Tolstol, the great author, and published with an introduction to the effect that his translation had been undertaken by his special request. Bjornson's peace agitation also has attracted the attention of the great Russian. DENMARK. COPENHAGEN, Oct. 17.—An industrial exposition was opened in Fredericia, Sept. 17. Their diamond wedding was celebrated the other day by Mads Brems, a well known musician, of Herteslev, and his wife. The Danish diet is to meet during the present month by order of the King. A massive gold ring from the Viking age has been found at Wiborg. A new Catholic church is being built in Copenhagen. The jail of Grenaa, has been empty since August 28. The new 19 crown bills are ugly and made of such poor paper that they are already falling to pieces. The health of Philippen, the murderer who is now serving a life sentence in the Horesus, is poor and it is generally

The health of Philippen, the murderer who is now serving a life sentence in the Horesus, is poor and it is generally

admitted that he will not live long. FINLAND. VIBORG, Oct. 17.—Finland has 118 drugstores. The wolves are increasing fearfully at Saaremaa. A new general hospital is to be built in the parish of Hovaniemi. Maxim Jacobsson Timoskainen, of Tiomants, died the other day at the advanced age of 104 years. A wife of Halia, was delivered of triplets, two boys and one girl. The little ones weighed 23 pounds together.

Back to Work. WASHINGTON, D. C., Oct. 26.—Secretary Blaine this morning resumed the discharge of his duties as secretary of state. He rose early and the soon after breakfast went over to the white house. Secretary Tracy joined him there and together they had a long conversation with the President. He was nearly noon when Secretary Blaine left the white house and walked over to the department of state. He at once entered his private office and plunged into his business. There appeared to be no official news in the department respecting the late phase of the Chilean trouble. Nothing has been received from Commodore Schley, and Secretary Blaine sent word that there was nothing to communicate on the subject. D. B. ROGERS'S SURGEON-GROWING. PITTSBURGH, Pa., Oct. 26.—The amount of school-board Treasurer Doelinger's shortage is growing and will probably reach \$30,000. Doelinger is reported in the accounts of the Dexter Spring Company, a modern building and loan association and the estate of Archibald Wallace, of which Doelinger is executor. He is said to have gone to the country, but no one seems to know his exact whereabouts. DEATH ENDS FROM DRIVING WHISKY WITH A STRANGER. WATERBURY, Conn., Oct. 26.—Last night John Briordley, a farmer, died at the house of John Foley, a farmer who lives near Naugatuck. Briordley was found in the underground near the Naugatuck turnpike, not far from this city, on Thursday night and was carried to Foley's house. He was unconscious and could tell nothing about himself. The Foley did not know who he was until late last night, when he partly told the story of his experience and fell back on his bed and died. He said that while driving on the road early on Thursday night he overtook a well-dressed stranger who asked him for a ride to Waterbury. They had not gone far when the stranger asked Briordley to take a drink from a small whisky flask which he carried. Briordley refused at first, but the stranger persisting he afterwards took a small drink. He soon began to lose his senses and he knocked out of the wagon a blow which he had in his hand. His skull was found to be crushed in where he received the blow, which wound was the cause of his death. Briordley was an offensive old man who for nearly 15 years had peddled farm produce and liquor, and sold bottles and quarts. He was widely known and well thought of. STEAMERS AND CABLE FROM PUGET SOUND TO CHINA. ST. PAUL, Minn., Oct. 26.—George N. Sims, managing director of the Lombard Trust Company (limited), of London, says: "I have been made representative of about \$5,000,000 of English capital and am directed to place it where the greatest benefit can be derived. I am not in for speculation, but to invest it in safe real estate, factories and industries. It is my intention to go to Tacoma, Seattle, Portland, Everett and other cities along Puget Sound. "I shall probably put a great deal of money in Everett and seaport towns, as I believe the Panama canal will be opened in five years, perhaps less; then there are two great enterprises under consideration that will affect Northwestern interests greatly; one is the establishment of a line of steamers between Puget Sound, China and Japan. The other is the laying of a submarine cable between the same places. These enterprises are not fully matured, but I assure you they are almost certainities. I am not interested in either but should like to be, as they will be very profitable."

How Theatrical Managers Advertise Their Attractions. SAN FRANCISCO, Oct. 26.—The town has been in a ferment the past few days over advertising war waged between the San Francisco Straight Tip companies. Sinbad has just finished running the Baldwin theatre and moved over to the Grand opera house on Sunday night. At the California tonight James T. Powers opens his San Francisco engagement in a Straight Tip. Sinbad has been doing an enormous business with Powers and a Straight Tip are big favorites here. The war began on Thursday with a \$500 bet between John F. Harley, the business manager of a Straight Tip, and George Bowles, who occupies a position with Sinbad, that a Straight Tip, before Sunday would be the better advertised show of the two. This morning Bowles came down to the California theatre and paid the bet. He acknowledged a fair and square defeat. Sinbad was literally sold under by the vast amount and extent of the Straight Tip advertising matter. The deal was, the cigar stores, the shop windows all the principal public places were arrayed with the pictured gory of powers and a straight tip. In addition Harley sent up 15,000 top ball boys with a light igniter on Saturday evening. Like a myriad of fire flies these hung over the city and made a most brilliant display, which attracted an admiring gaze of thousands. The climax to the light, on Saturday night or rather early Sunday morning 13 of the rival bill posters were arrested, and their fines equalled the city treasury this morning to the extent of \$112. Although the expense was considerable, but Bowles is out \$500, and a Straight Tip rules supreme in San Francisco.

WASHINGTON, D. C., Oct. 26.—A feeling in favor of international bimetalism seems to be growing and to be likely to prevail in European cabinets if the leading European powers can be convinced that the United States does not intend to purchase iron ore on credit. Several gentlemen of high standing privately agreed early in the summer to make some inquiries of foreign financiers with a view to an international agreement and to report the results to the President and secretary of the treasury without expense to the government. They discovered so friendly a feeling to the use of silver in Europe that they recently asked and obtained credentials from our government showing who they are and what their instructions are, for the purpose of being authorized to call on the United States officially to any program. The fact that these credentials have been asked for is regarded by the President as very encouraging and to indicate a feeling in England, France and Germany in regard to the demonetization of silver. The gentlemen who have been making the inquiries would not have asked for such credentials if they had not felt the time approaching for serious negotiations with European powers, for they have no personal or financial interests signifying their office.

Change of Venue Denied. SAN FRANCISCO, Oct. 26.—Counsel for Charles Schmidt, who is being tried for burglary, and who has figured prominently in the Bell murder case, moved for a change of venue today, on the ground that the court and district attorney were prejudiced against defendant, because of letters to the district attorney, which were read in court Saturday. Judge Trout denied the motion and the work of impelling the jury began.
