

CHILI IS DEFEATED.

United States Said To Be In The Wrong

CHILI'S CAPTURE DEPLORED.

Corral City Still Exists Between the Two Governments—One of the German Navy Inaugurated Between Valparaiso and Santiago.

SAN FRANCISCO, Nov. 2.—W. D. Colton, an old resident of this city, who was formerly the Chilean consul here, makes some sensational statements over his own signature. He makes every effort to defend the Chilean government and says:

"There is evidently much more noise being made over the matter than the facts justify. In Chili these affairs are being discussed in a calm and thorough manner. Chili does not seek trouble with the United States but merely insists that this so-called serious affair needs to be thoroughly investigated before any reply can be given to dispatches sent by the state department. If Chili is wrong she will admit it, but she will not unduly hasten any more than would the United States under similar circumstances.

"Chili is naturally hurt that so great a nation as this should have shown so great hostility during all their troubles; in fact the whole action of the United States for years has been against Chili while the latter has always done everything to harbor kindly feelings, newspaper articles to the contrary notwithstanding. The writer knows for a fact that Minister Egan was a strong partisan of Balmaceda. This government undoubtedly is responsible for the loss of many lives in Chili. Had not the Chilean been forced to return to this country the war in Chili would have been ended long ago. This government is wrong, and if the question were left to a popular vote it would be almost unanimous in favor of Chili."

CORRAL CITY STILL EXISTS. VALPARAISO, Nov. 2.—The Liberal Electoral, semi-official organ of the Junta, publishes an editorial which says that for the last few days rumors have been prevalent at Santiago that an alarming rupture of the amicable relations between Chile and the United States was imminent. "We assure the public," it added, "that these rumors are unfounded. We know this to be a fact for this very day dispatches have been received from Señor Pedro Montt, our minister at Santiago, asserting that the utmost cordiality exists between himself and Secretary Blaine. This certainly is the very opposite of hostile feelings."

Two officers of the German navy were insulted Saturday night while on a train running between Valparaiso and Santiago. The insult is supposed to have been the outcome of the feeling towards German naval officers because the German war ship Leipzig harbored a number of Balmaceda's adherents. The German admiral Valdeiz complained about the insult to the intendente, who has promised to use all his power to prevent a repetition of it.

It Will Be Erected in the Former Capital of the Confederation. RICHMOND, Va., Nov. 2.—Mrs. Jefferson Davis and her daughter, Miss Winnie, arrived here on the late train last night and were driven to the residence of General Joseph R. Anderson, whose guests they are while here. The object of Mrs. Davis' visit is to confer with the officers of the Jefferson Davis Monument association with reference to the design and for a location of the monument to be erected over the remains of her husband, which, with her consent, shall have their final resting place in the former capital of the confederacy.

Both the wife and daughter of the late chieftain are inclined to yield to the wishes of the monument association in both of these matters, and it is not at all unlikely that they will ask the executive committee to reach an agreement on these points among themselves and then submit the result of their deliberations to the widow and daughter for approval. The sentiment seems to be in favor of a mausoleum in the yard of the Davis mansion, which was the White House of the confederacy and is soon to be converted into a considerable museum.

Valuable Express Package Wanted. HOSEY GROVE, Tex., Nov. 2.—An express package containing \$2000, sent by the Wells-Fargo Express Company from Austin, Tex., to the Planters' National Bank in this city, is missing. The express messenger claims that he delivered it to the negro who drives the express wagon on Thursday night, and the negro claims that every day he has a hard journey to travel for some time to come.

A Two to One Fight. CITY OF MEXICO, Nov. 2.—At the military camp San Pablo, near Buena Ventura, Coahuila, there was a sanguinary battle recently between John F. Moulton, an American, and Antonio Ventura and Leonardo Rodriguez, Mexicans. The Mexicans fell upon Moulton knives in hand and he defended himself with a dagger. At the conclusion of the fight Ventura was dead, Rodriguez had four dagger wounds in his body and Moulton was badly slashed.

Visited by Cholera and Plague. CONSTANTINOPLE, Nov. 2.—Kavages of cholera in Damascus show an alarming increase. The record for the week past shows 180 cases and 90 deaths. Owing to the prevalence of cholera, Hadjia nearly as badly situated as Damascus, but the Aleppo plague has subsided.

Shut at Its Base. TAPPAN, N. Y., Nov. 2.—The question of restoring the monument erected by Cyrus W. Field over the spot where Major John Andre was executed is being agitated here and popular feeling seems to be in favor of the project. The main shaft of the monument, a block of solid granite five feet high and three feet square, is still in a fair state of preservation, though chipped in many places by relic hunters. It lies prostrate where it fell when overturned the second time in 1885. Of the pedestal not a vestige remains.

Mrs. Parnell Still Very Ill. DUBLIN, Nov. 2.—Dispatches from Brighton say that Mrs. Parnell is much weaker today and Freeman's Journal says that unless a change for the better takes place in her condition within two days it fears the worst will happen.

A Chinese Girl Leaves With Her Captain's Money.

NASHVILLE, Tenn., Nov. 2.—Savannah detectives have been notified yesterday and arrested Wong Chong, a Chinese girl, on complaint of Lee Kee, a tea merchant of New York. They also arrested a Chinaman called Jim Lee, who came here a few days ago with Wong Chong. According to their story Jim Lee and Wong Chong were married in China five years ago, and went to San Francisco to live. Here Lee Kee met the girl and she says abducted her, taking her to New York.

Not long after Jim Lee knew what had become of his wife, then he went to New York and stole her away from Lee Kee, taking her to Savannah. Lee Kee alleges that Wong Chong stole \$6000 from him when she left. The case was reported in a Chinese paper which fell under the eye of Wong Chin Lee, in Savannah. He informed Lee Kee that Jim Lee and Wong Chong were in that city and Lee Kee telegraphed to have them arrested. The couple had left Savannah in the morning, arriving here last Sunday, and the girl entered the Fisk university.

Suicide of a San Francisco. SAN FRANCISCO, Oct. 31.—William Center, a prominent merchant and a son of John Center, committed suicide in the head with a revolver at his residence. The deceased was once a director of the Oceanic steamship line and also of Spreckels' sugar refinery. He sunk a fortune in building a railroad between Coverdale and Healdsburg, which proved a failure.

While superintendent of its construction a few years ago he was attacked with sunstroke and later was ill with typhoid fever. These affected his mind and he was looked upon as demented for the last two years. He was a member of the Knights Templar, Knights of Pythias, Odd Fellows, Bohemian Club, Union League Club and other organizations.

Lovers Thought an Effort Was Being Made to Separate Them. MIDDLETOWN, Ky., Nov. 2.—Samuel Howell, a near relative of Clark Howell, editor of the Atlanta Constitution and speaker of the Georgia house of representatives, has eloped with Miss Nina Merch, a saleswoman in a dry goods store here. Howell came here several months ago to take a position in the office of the Middleboro Belt Railway Company. He is scarcely 18 years of age, and was exceedingly quiet and unassuming. Among his acquaintances was Miss Merch, who was formerly of Grand Rapids, Mich. Miss Merch is a very pretty young woman and a warm attachment sprang up between the two young people.

Nobody knew of the attachment, but it appears that Howell's relatives, believing he might do better at home, urged him to return to Atlanta and for a time he passed Monday for the trip. Howell, fearing their intention was to separate him from his beloved, went to Cincinnati, where he arranged to have Miss Merch meet him. This was done a few days later, and the young couple were married and then proceeded at once to the home of the bride, where they are now residing. It is stated here that Howell's relatives are very indignant and the young couple will have a hard journey to travel for some time to come.

There are 3000 Unionist voters in Coke, and they do not appear to be settled as to their course in the election.

A Girl Attacked as She Was Leaving Church Services.

HAZLETON, Pa., Nov. 2.—Lizzie Drom, aged 14 years, was attacked by an Italian at Turlock last night as she was leaving a church on Green street in the most populous part of the city. The Italian sprang from behind a tree as she was passing, and seizing her by the throat, shoved her violently against a fence. The girl fought the villain bravely, but the firm clutch at her throat prevented her at first from making any outcry. By a desperate effort, however, she freed herself of the Italian, and away and screamed loudly for help.

Her cries of "murder" caused a commotion among the congregation, who were just coming from the church. F. Boyle, president of the Congregational Society, witnessed the assault, and a number of other persons ran to the girl's rescue. When the fiend saw them approaching he let go of his victim and ran down the street. A number of the congregation followed, but the fugitive fled through several streets, closely followed by his pursuers, and finally managed to make his escape.

The girl was badly frightened and part of her clothing was torn, but she sustained no serious injury from the assault. She believes she could recognize her assailant again, and the police are already looking for him. His motive, no doubt, was robbery, as the girl wore some jewelry, whose value probably attracted the attention and invited the attack. Considering the locality and the result of the attempted robbery the assault was one of the boldest ever made in this city.

Expelled From the Boston Association of National Banks. BOSTON, Nov. 2.—At a meeting of all Boston National Banks at the clearing house this morning resolutions were unanimously adopted that all banks in the association should at once combine to relieve the necessities of the depositors in the Maverick National bank by making an advance to such depositors upon security of assignment of their claims against the Maverick bank. A committee was then appointed to carry the resolution into effect, and the Maverick bank was expelled from the association.

Colonel French says this morning that he has not made an assignment. He states he fully believes that if the affairs of the Maverick bank today will be settled with wisdom and prudence by the receiver, stockholders and depositors will get back all the money they entrusted to the bank's care.

NEW YORK, Nov. 2.—The suspension of the Maverick bank of Boston did not cause much surprise among the bankers of this city. It had been talked about for a week as a coming event, and if any banks here were involved they had a chance to protect themselves. The suspension was authorized to deliver his certificate of deposit to the Democratic State committee and does not know how it came into their possession.

Quay's Certificate of Deposit. WASHINGTON, Oct. 31.—Lacey, comptroller of the currency, sent a telegram to Senator Quay this morning saying that so far as he was able to learn no one connected with the treasury department was authorized to deliver his certificate of deposit to the Democratic State committee and does not know how it came into their possession.

Bolted Three Hours. NEEDLES, Cal., Nov. 2.—The east-bound train struck a misplaced switch at the end of Francisco yard yesterday and the engine and one car were overturned and derailed. The engine was hurled to one side of the cut. Fireman Charles Johnson fell under the boiler and was pinned to the ground by heavy timbers and machinery while the escaping steam cooked his limbs and part of his body for nearly three hours. Engineer George Cook was thrown through the cab window but landed miraculously with a serious injury. It is believed Johnson cannot recover.

THE IRISH CAMPAIGN. Both Factions Wildly Excited.

PARNELL'S SISTER ATTACKED.

PEASANTS Still Dying of Starvation and Fever—English Merchants Think a War With Chili Inevitable—A Revolt Is Feared in Spain.

LONDON, Nov. 2.—A Dublin dispatch says that the Parnellites are wild with excitement over Timothy Healy's indecent attack on Sunday, not only on Mrs. Parnell, but also by an attack on Parnell's sister. His words have added to the fire, and Harrison, a Parnellite Member of Parliament, is quoted as saying that he wonders whether after such expressions McCarthy, Sexton and other respectable anti-Parnellites will associate with Healy.

Harrison declares that Healy's attack on Parnell's sister in the form of an insulting remark, that his allusion to an English prostitute was intended for Mrs. O'Shea and not for Miss Parnell, moves any possible doubt that Healy's animosity to Parnell was personal and vindictive and had nothing to do with patriotism.

It is reported today that relatives of Parnell were in consultation as to taking steps against Healy either legally or otherwise for his insult by innuendo on Parnell's sister, a lady whose reputation has never been assailed, and that Healy may find it dangerous to continue his vituperative course toward the Parnell family.

As to Healy's remark that the Parnellites were cowardly Harrison said today that it was Healy who showed himself a coward by avoiding Cork and failing to share the dangers of the contest with Dillon, O'Brien and Tanner. Instead of that he remained at a safe distance and reviled women who could not retaliate.

ROMANIA WILL REMAIN FREE. BERLIN, Nov. 2.—It is stated on semi-official authority that King Charles of Roumania has received assurance satisfactory to him as to the course of Germany in the event of the invasion of Roumania by the Russians. A COSTLY STEAMSHIP. LONDON, Nov. 2.—The English government is taking steps to remain the British steamship Sultan, sunk in 1890. The vessel cost \$1,200,000 and it has cost already \$60,000 to raise and bring her to England.

DYING OF STARVATION. ST. PETERSBURG, Nov. 2.—A harrowing story comes from the province of Samaria. The peasants are so reduced by starvation and want that many of them are unable to go even to the government distributing points for supplying food. In one village no less than 42 have perished and the number of deaths in the whole province will amount to not less than 1000. The survivors in most instances are too weak to attend the burial of the dead and officials are compelled much against their will to inter the remains. Samaria is being visited by typhoid fever, which is prevailing among those who have managed to survive the famine.

ENGLAND AND CHILI. LONDON, Nov. 2.—The feeling on the subject of Chili remains very strong, especially among the people interested there. The almost frantic talk of the London Times is explained by the statement that Colonel North, the nitrate king and friend of the Prince of Wales, owns an interest in that paper and has for a long time. North has an excuse to prevent war and is using all his influence in that direction, so far as it can be brought to bear on the newspapers and similar channels. A prominent merchant writes today that according to his private advice the alarmist news from Chili is unfortunately only too well founded and that all parties in England who were interested would make no mistake in getting ready for the worst.

REVOLT FEARED IN SPAIN. MADRID, Nov. 2.—The queen regent has directed the authorities to make an intelligent search for all persons suspected of having treasonable designs. The Spanish government is said to have received information to the effect that a plot is in progress for the overthrow of the monarchy and the establishment of a republic, and that this plot is shared in by persons of prominent standing. While no arrests have been made, the government is keeping a vigilant watch for any signs of open rebellion.

In a Concocted Mood. NEW YORK, Nov. 4.—The Valparaiso correspondent of the Herald says: I am just in receipt of a report from Santiago to the effect that the minister of foreign affairs, Matta, has sent a dispatch so Minister Egan relative to the Baltimore case. Women Careless of Health. It is claimed by some that this part of the state is unhealthy for women, but the unhealthfulness is almost, if not entirely, caused by the carelessness of the women themselves. They get in the habit of staying in the house during the winter season, because it rains, when the fact is, that if they would but think so, there are few days during any part of the year when it would not only be safe, but actually beneficial for them to be out. Then when they do so, there is evidently more thought given, by the majority, to the appearance, than to the propriety of their dress. Shoes with soles of a thickness only suitable for indoor wear and wraps just heavy enough for a summer evening are worn, when they should have shoes with thick soles and wear warm wraps and gossamers. A little more use of the common rules of health would cause less complaint about the climate.—Montesano Vidette.
