GLEE CLUB—A number of Heppner's people, representing some of our best musical talent, was organized last Monday evening into what they call The Mozart Glee Club. The principal object is improvement in musical culture.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited, and when Syrap of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasant and refreshing to the taste and prompt and effectual to cleanse the system gently in the spring time or, in fact, at any time, and the better it is known the more popular it becomes.

Good Words—State Superintendent McElroy returned from Eastern Oregon yesterday, where he attended the Morrow county teachers institute and supervised other features of educational work. He reports a fine attendance of teachers and an active interest in school work at the institute. The material interests of the state are advancing. The wheat crop was good this year and far above the average and a bringing good prices.

The farmers are greatly encouraged and correspondingly happy. Heppner, the county seat, is rapidly improving and now has one of the best hotels in the state. The ladies and citizens of Heppner gave the teachers a splendid public reception and banquet at the close of the institute—Salem Statesman.

There is little doubt but that many persons suffer for years with ailments that could easily be cured by the use of some simple remedy. The following incident is an illustration of this fact: My wife was troubled with a pain in her side the greater part of the time for three years, until cured by Chamberlain's Pain Balm. It has, I think, permanently cured her. We also have used Chamberlain's Cough Remedy whenever needed and believe it to be the best in the world.—P. M. Poston, Peunville, Sullivan Co., Missouri. For sale by Sloan—Johnston Drug Company.

IN GOOD CONDITION—Mrs. Lizzie Carnes, sister of the editor's better half, arrived here Thursday evening, leaving for Walla Walla Monday morning. She reports Washington's crops to be in a thriving condition.

I feel it my duty to say a few words in regard to Ely's Cream Balm, and I do so entirely without solicitation. I have used it more or less half a year, and have found it to be most admirable. I have suffered from outarrh of the worst kind ever since I was a little boy and I never hoped for cure, but Cream Balm seems to do even that. Many of my acquaintances have used it with excellent results.—Oscar Ostum, 45 Warren Ave., Chicago, Ill.

Mr. and Mrs. Fein will shortly go to housekeeping in John Day, which they have selected as their future home. Accept congratulations. "Die" has been running the gamut for some time, but was compelled to surrender at last, and was allowed to state under very propitious circumstances.

Keely's Gold Cure for the habit of using morphine, opium, etc., is no fake. It is just as represented—a sure cure, a boon to mankind. Our interest in the world at large leads us to commend it for the relief of the unfortunate. See local ad. elsewhere.

BACK AGAIN—"Uncle" Jack Morrow and Dick Howard returned Friday from the mountains, Mr. Morrow being unable to continue the trip on to McDuffey spring. However, he is contemplating spending some time at a mineral spring which can be reached by rail—perhaps the Arkansas springs. He is really in better condition than a few days ago, and hope of early recovery is entertained.

TEACHER WAS BOSS—Mark L. Noble the Lexington pedagogue, had some trouble last Monday with a young fellow named A. F. Mason, who persisted in visiting the school and disturbing it. Mr. Noble spoke to the young man regarding his conduct, which somewhat exasperated him, and at the close of the school he called on Mark to apologize or take the consequences. He did neither the first nor took the other. Besides Mr. Mason was arrested and fined \$25 by the Lexington J. P.

TOUGH ON THE LOSERS. Some Facts about the Cattle Stealings of Treat & Gingles.—Hollard Agent on the Main Line Refuses to Give Information Regarding Stolen Cattle.

Mr. S. N. Morgan has been scouring the sands of the Columbia this fall in an endeavor to round up his cattle, and while in Heppner last Saturday, gave the Gazette considerable information concerning the cattle stolen by Treat & Gingles.

The last two car loads of their pilferings consisted of cattle of the following brands: 14, J. B. connected; 2, H. connected; 3, W. S. connected. The other two cars were not seen by anyone except the sons Postmaster Teeters, of Castle Rock, who noticed that some of the cattle bore the brand S. N., which is Mr. Morgan's brand. They were shipped by one, Parker, but this is known to be an assumed name. The company's agent at Castle Rock, however, refused to give any other information, claiming that they had no right to do so, unless the party desiring such had an order from the court. Being desirous of knowing the rules of the company in this respect our reporter sought further light from J. C. Hart, the U. P. agent at Heppner, which he politely gave without any hesitancy. He says that though the law agents will refuse to give such information, they cannot be compelled to do so, unless orders are received from higher authority, or from the courts to open books. There is certainly a very good reason for this. If the agent gave such information without an order from the court, the shipper might be thus injured, for his business would be exposed to a certain extent. On the other hand, it gives a thief the opportunity to skip, sell and pocket the proceeds before all the necessary routine could be gone over to apprehend him.

Mr. Morgan thinks that the principal part of Treat & Gingles' shipments came from Eight Mile country. He, as well as many other stockmen, are of the opinion that stock yards at Castle Rock accommodate few, if any honest stockmen, and should be removed. The charges per car to Portland are \$10 more at Castle Rock than from Arlington, and the same as from Umatilla. It is not a convenient point for shipment in any sense, except for those who deem it best to scrape a little more as possible.

This iron-clad rule, which Mr. Morgan complains of, should be modified. An affidavit made before a notary or justice and filed with the agent, should be sufficient to guarantee him or his company against any damage to or apprehension of their stock. Our stockmen should look after the matter and save themselves many losses in the future, which, under the present circumstances, after stock are once on the railroad, will be difficult to prevent.
