

WHO PAYS THE COST.

The Garza Revolution in Mexico

THE TRUTH NOW MADE KNOWN.

Papers Found in the Edicts of a Captured Revolutionary Which Prove That the Clerical Party is Putting Up the Needed Funds.

LAREDO, TEX., Jan. 5.—Startling developments in regard to the Garza revolution are coming to light. The head and front of the whole matter is coming out. The papers found in the saddlebags of Pablo Mirano, one of the captured revolutionaries, throw a great deal of light on the situation. It proved conclusively that what was foreshadowed four days ago is true, and that is, the Clerical party is furnishing the money with which the campaign is being conducted.

For the Head of Revolutionary Garza—One Hundred Millions.

LAREDO, TEX., Jan. 2.—Colonel Ceran, of the Mexican army reiterates his denial of the revolt at Mer and the killing of General Garcia. There has been no demonstration on the Mexican side for some time. All the people on either side of the river are in sympathy with Garza and it is impossible to get any assistance looking toward his capture. It is said that the Clerical party behind Garza furnish him with money, and that as soon as he enlists 5000 men they will furnish him millions to carry on his campaign. Neither Garza nor the main part of his followers are on this side of the river. They crossed into the State of Tamaulipas and are now in the mountains. The Mexican government has offered a reward of \$300,000 for Garza's head. So far the Mexicans have killed over 100 men on the suspicion of being revolutionaries, and this has ended in driving other poor ranchers to join the revolt. At Pueblo the populace has revolted and every priest has been placed in jail.

Water and Steam as a Power to be Supplanted by Electricity.

ST. PAUL, Minn., Jan. 4.—It is announced today that a revolution in flour making, as great as the introduction of the roller process some years ago, is to occur here within the next few months. It is no less than the substitution of electricity for water or steam for the running of an immense mill to be erected on West Third street, on the site of the St. Paul roller mill, burned two years ago. The plan is the brainchild of Mr. Smith, who introduced the roller process of wheat crushing 12 years ago, and who is a practical miller of many years experience. Mr. Smith has been experimenting for the past 12 months with electricity for moving mill machinery, and said today: "I have become thoroughly convinced of its cheapness and its entire practicality. I shall introduce it in the big St. Paul mill, with entire confidence that it will settle the question of cheaper power."

Writes a Letter on the Dublin Castle Explosion.

LONDON, Jan. 4.—Michael Davitt has written a letter to be published in the Times protesting that it is cowardly to insinuate that the recent explosion at Dublin Castle might be traced to Patrick Ford. Davitt says that it is more probable that as the Times' friend Pigott is dead, that the newspaper reprinted has another agent whose duty it is to breach the gospel of dynamite as Davitt did the gospel of forgery. Davitt also suggests that the explosion was due to one of the government menials, whose object it was to influence the coming election in Rosendale. It is said to be probable that Davitt will be a candidate for representative for Roxford in Parliament. It is reported that Jennings, representative of Stockport in Parliament, a gentleman well known in the United States, has decided to retire and accept Clifton Hundreds. It is added that Jennings' references to the conservative party of which he has been considered a member over his non-attendance in the New York Herald have had much to do with Jennings' proposed retirement.

The Treacherous William the Carrier Down the Steamer Telephone.

PORTLAND, Oe., Jan. 5.—At 3 o'clock this morning while the steamer Telephone, of the Astoria boat, was coming into the mouth of the Willamette with some 80 odd passengers and \$500 worth of freight on board, owing to the dense fog, she was run upon a breakwater, springing a leak-jumping stern first and leaving about 50 feet of deck above water. All the passengers and crew were rescued.

Trouble Over Tobacco

THEIRAN, Jan. 5.—The priests continue to interdict the use of tobacco. There is a monopoly of the tobacco, as well as the interior trade. They also clamor for the expulsion of members of the tobacco corporation. Yesterday a riotous mob assembled at the shah's palace to demand satisfaction. A detachment of troops was ordered to disperse the rioters, and several persons were killed. The feeling of alarm has not subsided.

New York Senate Organizes.

ALBANY, Jan. 5.—The Republican senators met today and decided to attend the opening session of the Senate. Albany, Jan. 5.—Both branches of the Legislature assembled at 11 o'clock. The Senate elected officers chosen by the Democratic caucus. Edwards, independent, voted with the Democrats. No efforts at obstruction made by Republicans.

California Grain Exports.

SAN FRANCISCO, Jan. 5.—The wheat and flour exports from this port for the year 1891, being reduced to wheat cents, aggregated 20,644,000 cents, value \$83,105,000, as against 16,580,000 cents value \$22,114,000 for the year 1890.

A Wealthy Congregation Splits as a Result and Jewish Papers Take Up the Discussion and Treat It in a Grave Manner.

ST. LOUIS, Mo., Jan. 4.—The Shaarremeth congregation includes among its members many of the wealthiest Hebrews of the city and is considered the most fashionable and aristocratic synagogue in St. Louis. Rabbi Samuel Sale is an eloquent, and at times, an aggressive preacher. He is an advanced thinker and has recently been preaching a series of sermons in which he took the ground that there should be but one day of worship. He made a strong argument in favor of the Hebrews abandoning the observance of Saturday and turning their services on the Christian Sabbath.

The first sermon on this subject referred to in a light vein. His assistant sermon provoked criticism, and his third was of such a character as to cause some members of his congregation to discuss the subject gravely. Many of them did not like it and said so. Their views got into the print and the rabbi replied to them.

A few days ago Morris E. Sadler, one of the board of directors Shaarremeth resigned and joined Temple Israel. It is learned that many others have announced their intention of doing the same thing on account of the rabbi's radical views. In Shaarremeth there are three classes, the orthodox, who cling to the old philosophy of Judaism, and the conservatives, who, while agreeing with the ancient customs and laws, endeavor to bring these beliefs in touch with the spirit of the times, and the radicals, who favor the extrication of many fundamental features of orthodox Judaism. While it is acknowledged that Dr. Sale is an authority on Jewish matters, it is possible that a serious split may result.

The Victim Was Followed and Killed Solely for Robbery.

CRYSTAL FALLS, Mich., Jan. 2.—News has just reached here that Patrick Curry was brutally murdered Thursday night by Frank Stein, near Sagola, a number of miles from here. Curry was foreman in Curry & McKenna's camp and was brother of A. M. Curry, of the firm. He was very popular and seemed to like every one, especially Stein, whom he had befriended in many ways.

Yesterday Curry went to Iron Mountain to get checks for \$150 cashed. He took with him two watches to be re-wound, and he saw him draw the money on the checks, and knew that he had the watches, followed him to Iron Mountain and returned on the same train with him, alighting at Rambleville, a few miles below Sagola. Curry got off the train at Sagola and started down the track on foot to his camp, four miles away. Stein started up the track, met Curry within one mile of the camp and killed him with some blunt weapon, crushing his skull into a pulp on the railroad track. He then robbed the corpse of the money and watches and made his escape. He is likely to be lynched if caught.

Must be Citizens and Six-Months Residents to Catch Fish.

CHICAGO, Jan. 5.—Officials of the Washash road here have received intelligence that two passenger trains on that line, one going west from Toledo, the other east from Kansas City, came into collision early this morning at Alladin, Ills., two miles east of Hannibal, causing a disastrous and fatal wreck. Engineers Wilson and Bonchard were killed, as were three Italians in smoker, and a number of passengers wounded. East bound train had right of way; it pulled into the depot at Alladin and was waiting for a boat train to take the side track. It came along, but jumped the switch and crashed into the standing train. Both engines were completely wrecked and engines instantly failed. The trains took fire and both smokers and baggage cars and one chair car were derailed.

DICKINSON, N. D., Jan. 5.—About 1:30 this morning a double track train crashed into a bridge two miles west of Sentinel Butte. The head engineer discovered the bridge on fire and the air brake was applied, but too late. The engine and one car went through, killing Fireman Clough and seriously injuring the other fireman. Both engineers jumped and saved their lives.

A Series of Prizes Offered to Settle the Heavyweight Championship.

SAN FRANCISCO, Jan. 5.—At a meeting of the California Athletic Club directors last night a resolution was adopted authorizing the offering of a series of prizes to decide the heavyweight championship. The men selected as candidates are Sullivan, Slavin, Mitchell, Corbett, Jackson, Maher, Choyenski, and McMillan. The prizes are to be of not less than \$7500 each, and may be raised to the club's entire income less the expenses month by month, until the championship is settled. It was also resolved to offer a purse to Fitzsimmons and Choyenski.

The Mines Will Start Up.

RENO, Jan. 2.—The Gazette has excellent authority for belief that the Holmes Mining Company, of Candelaria, is making careful preparation for starting the Candelaria mine. Labor will be obtained and work resumed soon. The company has decided it could not pay the wages prescribed by the miners' union, to wit: \$4, but that \$3 was the outside limit they could pay, and the result was the closing down of the mines.

Prinz Von Michels is Inmate.

NEW YORK, Jan. 4.—Prinz Von Michels, who caused so much annoyance to the family of Jay Gould, by his insistence that the Goulds should marry him, was pronounced insane today, and will be sent to the asylum tomorrow.

A Vessel From Tacoma Will Be a Total Loss.

LONDON, Jan. 5.—A dispatch from Sydney, N. S. W., states that fire broke out on the American ship W. H. Lincoln, from Tacoma and despite all efforts to extinguish the flames, they are still burning. Part of her cargo is still aboard of her. From present appearances the dispatch says, the ship and everything aboard of her will be consumed.

COL. HAINES' FUNERAL.

SEATTLE, Jan. 5.—The funeral of Col. Haines this morning was the largest Seattle has ever seen. Many places of business were closed, and thousands upon thousands of people watched the procession.

Cab Strike in Paris.

PARIS, Jan. 5.—A strike commenced in this city. None of the cabs of the Compagnie Urbaine are out.

Not Much Salary, But Good Commercial Opportunities Offered—Senator Allen Promises His Appointment Over California's Opposition.

WASHINGTON, D. C., Jan. 2.—Senator Allen called at the White House today to urge the president to make an early appointment of the United States marshal at Kanagawa, Japan. There is only one candidate for this place from the State of Washington up to the present time, and his appointment will be pushed by Senators Allen and Squire and Representative Wilson. The California delegation have decided on a man for that position, but the candidate being urged by the Washington delegation Senator Allen has every reason to believe will secure the appointment. When seen by the Post-Intelligencer correspondent tonight Senator Allen said that he did not care to make public at this time the name of the candidate he was urging for the marshalship.

The above comes from Washington as a special to the Seattle Post-Intelligencer. It is a part of the plot which was ventilated in the News of a few days ago, by means of which the Senator from Walla Walla expects to cement his political friendships that he will be able to name his own successor in the United States Senate.

The young man whom Senator Allen is urging upon the President in opposition to the California delegation is a prominent young Tacoma man whose father is a good pull with the politicians. He is the president of a local corporation of influence and wealth and has gained a large experience in business matters.

The office of United States marshal at Kanagawa under Consul Tillotson is not very profitable one so far as salary goes. The salary is \$75 per month, but there are fees as well, beside which there is a good pull with the politicians. He is looking toward Japan for commerce it is expected that he will be enabled to forward Tacoma's interests even more than his experience in business will enable him to be of much value to Tacoma enterprises there.

The Government Talking of Putting Out Such a Ship.

WASHINGTON, D. C., Jan. 2.—Inquiry, it is stated, has been sent to San Francisco asking for an estimate of the cost of fitting up a big merchant vessel into a floating machine and repair ship. It is proposed to outfit the ship in a complete manner so that if any break whatsoever occurs in one of our vessels repairs can be made on the spot, and the expense of sending the vessel to the navy yard can be saved. In this case speedy action is desired, and such vessel will undoubtedly be furnished with all the necessary machinery and tools and be sent to southern waters if war should occur with Chili.

One in Illness on the Washash Another in North Dakota.

CHICAGO, Jan. 5.—Officials of the Washash road here have received intelligence that two passenger trains on that line, one going west from Toledo, the other east from Kansas City, came into collision early this morning at Alladin, Ills., two miles east of Hannibal, causing a disastrous and fatal wreck. Engineers Wilson and Bonchard were killed, as were three Italians in smoker, and a number of passengers wounded. East bound train had right of way; it pulled into the depot at Alladin and was waiting for a boat train to take the side track. It came along, but jumped the switch and crashed into the standing train. Both engines were completely wrecked and engines instantly failed. The trains took fire and both smokers and baggage cars and one chair car were derailed.

A Georgia College Buys a Fund of Fifty Thousand Dollars.

MACON, Ga., Jan. 5.—President Nunnally of Mercer university authorizes the statement that the \$40,000 of the endowment fund of the university has been raised. J. D. Rockefeller, the Standard oil king, said last year he would give \$10,000 to Mercer university if the Baptists of Georgia would subscribe \$40,000, so as to make a total of \$50,000.

Rockefeller gave until the first week in January, 1892, for the money to be raised.

President Nunnally made a thorough and persistent canvass of the State, delivered addresses and many sermons on the subject of raising the money. Now, at the very last hour, the final dollar of \$40,000 has been subscribed, and the Mercer university is in possession of a new endowment of \$50,000.

A Chicago Druggist "Touched."

SPOKANE, Jan. 5.—Word reached here yesterday that the stage plying between Kootenay station, on the main line of the Northern Pacific, and Bonner's Ferry, on the Kootenay river, was held up Saturday within a mile and a half of Kootenay station, and Ed L. Huntley, a Chicago clothing man, was robbed of diamonds valued at \$8000, in addition to his gold watch and money. There was one other passenger on the stage, and the robbers got about \$130 from the two passengers in addition to the diamonds and other valuables. The United States mail was not disturbed. It is believed that the highwayman had been keeping track of Huntley, and knowing he was on the stage, went out from Kootenay station to meet it.

One of the robbers stepped into the road in front of the stage, and, presenting a Winchester, ordered the driver to stop. The driver, who was holding a pistol, which he hid with a loud "Whoo!" Another robber then stepped to the side of the stage. Huntley, who was sound asleep, was partly awakened by the sound of the driver's voice. Seeing something cold against his neck, he turned and, turning his head against the muzzle of a Winchester, while at the same time a voice commanded him to "Wake up and dig up" and he was quickly alerted. The driver was promptly obeyed, the only jewelry left on Huntley being a fine diamond ring which was overlooked. Officers started in pursuit as soon as the stage reached the station. Huntley offers \$500 reward for the capture of the robbers and \$1000 for the return of the diamonds. This is the first stage robbery that occurred in this section for many years.

Likely to be War.

LONDON, Jan. 5.—The statement that the Bulgarian government politely declined to rescind the decree of expelling the French journalist, Chadoine, from Bulgaria, is confirmed. A Paris special says that the French believe the matter will be arranged amicably.

A SCORE OF VICTIMS.

Champion Murderer of the World.

HAS KILLED NINETEEN MEN

A Mob Bent on Hanging Him, Angered at His Removal From the Jail in Which He Was Confined, Burns the Building.

NASHVILLE, Tenn., Jan. 5.—Tallton Hall, the so-called assassin of 19 men, was removed from the jail yesterday to save his neck. A mob organized and would have hung him. They advanced on the jail and were so wild over his removal that they set fire to the jail, his removal to Wixena in a closed-covered wagon. The people of that section are wild.

Tallton Hall has in all probability killed more people than any living man. He has killed his two brothers-in-law. He then killed his step-father, three cousins, his wife's first husband and a number of others. After joining forces with Jim Knight he killed and wounded a number of the Floyd county Jones faction, except Old Jones, who filled the desperado with buckshot. He killed the sheriff of Floyd county while the latter Dick Vance, a noted desperado.

Three of his cousins attempted to waylay Hall, but he shot them all. He then went to Catlettsville, Ky., and killed his half-brother, John Adams. Since then he has been continually unfortunate enough to incur his ill-will.

Between Guatemala and Salvador—Disturbed Communities Illegal.

CITY OF MEXICO, Jan. 5.—The President, in answer to a committee of Guatemalans, who had requested that there be a cessation in the persecution of the church, said that he was unable to comply with their wishes, as he was obliged to carry out the obligations of his office in Mexico of civilized communities.

Telegrams which have been received here from the Apulchala say that the people in the northern portion of Guatemala are ripe for a revolution in favor of the republic.

Telegraphic communication between this country and Guatemala is interrupted. The rumors that there has been fighting in Guatemala have been traced to friends of Salvador. The Mexican government has received no news of the alleged disturbances in that country. Despatches were received here yesterday, however, from Chichias, which borders on Guatemala, saying that a revolution in that republic was inevitable.

Canadian Pacific to Compete for Alaska Business.

PORT TOWNSEND, Jan. 4.—It is now settled that a new line of steamers will be put on the Alaska route in the spring by the Canadian Pacific Navigation Company, which has had an eye on the profitable Alaska business for over two years, has now become satisfied that the venture would bring fair returns on the investment. The whole ground has been canvassed thoroughly, and the coming season will see the company in the field with one or more vessels.

Captain Carroll, who has been in the Alaska trade for years and has commanded the leading ship in the Pacific Coast company's fleet, will command the new steamer, and was recently invited to meet the officials of the Canadian Pacific and give his opinion regarding the advisability of entering the Pacific Coast company's territory. He is said to have made such an impression that the details of the opposition line were left entirely to him.

The company has not yet selected the steamers to go on the route.

The boats needed will be brought from the Atlantic coast. The intention of the company was at first to sail their Alaska vessels under the British flag, making Victoria the home port. Carroll has, however, convinced them that it would be a better plan to make the steamers American and in that case this will be the port of discharge and sailing.

Captain Carroll has been fitting backward and forward between here and Victoria for several days.

When questioned he refused to deny or confirm the above facts. He is to be master of the first of his position boats equipped.

Sixty Falls to Put Up His Money Against Sullivan.

NEW YORK, Jan. 4.—Neither Frank Slavin, his friends, Charlie Mitchell, nor any representative of theirs put in their appearance at the Herald office today at the hour they appointed to meet Charley Johnson, John L. Sullivan's backer, to cover the \$2500 put up by Johnson some two weeks ago. After waiting half an hour for them to appear, Johnson drew the forfeit money. He says he is ready to put it up again at any time that the Australian can induce some one to back him against Sullivan.
