NO MORE BACKACHE

Recently the following notice appeared in the San Francisco Chronicle:

"Judge S. had been sick only about two weeks, and it was not until the last three or four days that the malady took a serious turn. At the beginning of his illness he suffered from diabetes and stomach disorder. Later the kidneys refused to perform their functions and he passed quietly away. Thus ended the life of one of the most prominent men in California." Like thousands of others his untimely death was the result of neglecting early symptoms of kidney disease.

IF YOU

are troubled with diabetes, gravel, or any derangement of the kidneys or urinary organs, don't delay proper treatment until you are forced to give up your daily duties. Don't waste your money on worthless liniments and worse plasters, but strike at the seat of the disease at once by using the greatest of all known remedies, the celebrated Oregon Kidney Tea. It has saved the lives of thousands. Why should it not cure you? Try it. Purely vegetable and pleasant to take. \$1.00 a package, 6 for \$5.00.

The Secret of Fine Pastry.

Is wholly in using Dr. Price's Cream Baking Powder.

The only pure Cream Tarter Powder sold on the market. Other brands contain either ammonia, alum or some other adulterant. Ammonia or alum powders dry out, make the dough too porous, leaving a bitter taste, etc.

No agency has assisted so much toward perfection in cookery as Price's Cream Baking Powder. Its ingredients are simple and so blended as to exist in exact chemical proportions, so after use there is never any excess of either left in the food. Hence there can be no impurities whatever left in the finished food. No bitter taste, no taint of ammonia, but food raised with Dr. Price's Cream Baking Powder partakes of the natural sweet flavor of the flour and keeps moist and fresh for days. This powder possesses qualities peculiar to it alone. No other makes such delicious pastry. No other contains the white of eggs.
