

SCANDINAVIAN NEWS.

King Oscar Reported Greatly Improved.

NOTES FROM THE FAR NORTH

Telephone Apparatus Sent to China—A Very Radiant Paper—A Patent to Prevent Snoring—Sensation Caused by a Bishop—General Notes.

STOCKHOLM, Jan. 11.—The crisis seems to be over. The king has been rapidly gaining during the last three days and Dr. Brunelius, the king's favorite physician, gives the best of hope.

Three hundred and sixty people emigrated to America Dec. 27, by way of Gothenburg.

The police force of Stockholm will wear fur caps during the winter months.

A 25-year-old dog is owned by Olof Ersson, of Naeset, Ventland.

At the end of the year 1891, \$4,160,000 were deposited in the postal saving banks of the country.

Farmers of many localities in the southern part of the country were plowing as late as Dec. 27.

A number of telephone apparatus has been manufactured and sent to China by the firm of Ericsson & Co., of Stockholm.

A farmer in Hamnerdal, Jemtland, is the happy owner of a monstrous calf with two heads, two tails and eight legs.

White fish are now being caught in great number in Lake Vettern, and deposited in the many small lakes of Smoland and Vestergotland.

A great number of what looked like mosquitoes fell recently down with a rain shower in the vicinity of Toras.

All the government railways are counted as one there are now just 100 railroads in the country, for there are in all 99 lines run by private companies.

The following bold head lines appeared in the Outgoten the other day: A Republican Form of Government, instead of a Monarchical One; A Free Church instead of a State Church; This is the Final Aim of Our Paper.

A prominent and influential newspaper said the other day: "The minister of public worship ought either to learn the demands of the times and act accordingly, or resign, or the Riksdag ought to change the laws so that churches can have ministers of their own choice."

A wholesale merchant named Svenson, of Helsingfors, has taken out a patent on a "lung protector" invented by himself. It consists of an elastic band which is placed around the forehead and the chin for the purpose of keeping the mouth shut during the sleep. Snoring is also prevented by the same means.

At a mission house in Vermland, says The North, a public meeting was called for the purpose of arousing the public sentiment to the realization of the necessity of strengthening the defenses of the country. But the result was wholly unexpected. When two officers of the army had spoken, Rev. Bjornin, the pastor of the place also spoke in favor of stronger defenses. Being direct to the point, he expressed their astonishment at their pastor who always used to preach peace, but now preached fortifications, war, wholesale and without reserve. They would not support and defend their fatherland, they coolly answered that "under the present circumstances they did not see any reason why any one should ask the Swedish people to defend their country."

CHRISTIANIA, Jan. 11.—Dr. Otto Land, a prominent physician of Copenhagen has died.

The city of Molde, will celebrate its 400th anniversary June 23, of the present year.

Three fishermen, of Sirevåg, were drowned off Eidsvold, the other day.

Their annual meeting was celebrated by Anders Neilsen, a ship broker of Kragero, and his wife.

The prominent wholesale merchant, Olof Sundt, of Christiania, died at the age of 57 years.

At the international skating race held at Hamar a few days ago, Harold Hagen the Norwegian champion, beat the world's record, making three miles in 8 minutes, 46.75 seconds, and one mile in 2 minutes 9 seconds.

It is proposed to provide the boats engaged in the codfisheries with a petrolean engine powerful enough to propel the boat and haul in the nets, experiments with that end in view having been made by interested fishermen.

A consignment consisting of 3,500 barrels of herrings, canned goods, etc., was recently shipped from Bergen direct to New York. A large number of parcels and packages intended as presents to friends and relatives in this country went along.

The money market of Christiania is very tight at present. It is thought that the large private banks, four of which have an aggregate capital of about \$17,000,000, will have to increase their cash balances by disposing of their merchantable securities so as to enable their customers to tide over the difficulty. Every day gilt-edged paper is released by the banks because they have not got any money to loan. On the contrary, every effort is made by them to draw in as many loans as possible.

DEMERSK. The influenza is frightening everybody in Copenhagen. About 4,000 cases a week are reported.

Professor Schurman, the well-known ex-Congressman, died in Skarup on the Feyn island.

A new railroad line has been proposed between Aalborg and Hadsund.

At Holslet, a young carpenter, was arrested on the charge of using blasphemous language against religion, the king and the goddesses.

On Vildersdale, Copenhagen, a parrot which was repeated a day long. This was very annoying to the neighbor Hans. Hansen, who, time and again, asked the owner of the bird to have this stopped. But it did not seem to help. One morning the report of a revolver startled the owner and he happened to find a young man named Jacobson, and got criminals to testify against him. A year after the tragedy Bell was arrested by the police and on the trial he swore that Bell confessed that he had killed Jacobson. In the affidavit, Schmidt alleged that the testimony was false.

SAN FRANCISCO, Jan. 16.—Edw. W. Campbell, who has made several sensational statements in the Bell matter case, returned from Chicago this morning.

Bell is in the San Francisco county jail under sentence of hanging for the murder of a young man named Jacobson. For a long time the case was a mystery and it was rumored that Jacobson had been killed by a lover of his sister. A year after the tragedy Bell was arrested by the police and on the trial he swore that Bell confessed that he had killed Jacobson. In the affidavit, Schmidt alleged that the testimony was false.

PLUMB'S SUCCESSOR.

Bishop W. Perkins to Succeed the Deceased Senator's Term

Senator Perkins, of Kansas, is an Ohio man. He is in his fifty-first year, a lawyer by profession, having been admitted to the bar at Ottawa, Ill., in 1867. Mr. Perkins had served previously four years in the army, as adjutant and captain in a regiment of colored soldiers the greater part of that time. His first office in civil life was as county attorney of Labette county, Kansas.

BISHOP W. PERKINS.

Subsequently he was a probate judge of that county two terms, and for nearly ten years held by appointment the office of judge of the Eleventh judicial district of Kansas. He was elected to the Forty-eighth Congress as Congressman-at-large, and to the Forty-ninth, Fiftieth and Fifty-first Congresses. His incumbency of Senator Plumb's chair will last about a year; in January, 1893, the Kansas Legislature will elect a Senator, him or some other man.

He Sent to Puget Sound for Ice and Got Piles.

[S. F. Examiner.]

Just now all Oakland is in a great bother over the millions left by Dr. Samuel Merritt and his sisters, Mrs. C. M. Garcelon; but the story of the marvelous luck which enabled Merritt to start those millions is known to few. When he came to California he was a poor physician, with a recommendation from Daniel Webster and some knowledge of the sea. He soon pulled together something of a practice, saved his money and chartered a ship. He sent the ship to Puget Sound to load ice for the summer consumption of the growing city on San Francisco bay. He reasoned well that if ice formed in merchantable quantities in the latitude of San Francisco, on the Atlantic it would be found surely as far north as Puget Sound on the Pacific.

The ship sailed away and was one of the first vessels to enter the northern sound. There the owner waited for her return. He walked out upon the sands and scanned the ocean for his ship. Finally he gave her up for lost. Just then she sailed into the harbor. He rowed out to her and clambered up for pilot. The cargo of pills brought him greeted him as this from his captain.

"Ice doesn't form on Puget Sound." "For a moment he could see nothing but blue rain, but he was soon reassured. The captain, a hard-headed chap, had not been idle all the months he was away. When he landed there was no ice on the sound he set his crew to work cutting trees and trimming them for piles. The cargo of pills brought him as much as four cargoes of ice in cities where wharves were needed, and this freak of fortune opened up the great trade in Puget Sound lumber.

Another Confession.

SAN FRANCISCO, Jan. 16.—The attorneys for Sidney P. Bell, under conviction for the murder of Samuel Jacobson on Great Eastern, argued in Judge Murphy's court this morning in support of the motion for a new trial. Attorney Henley announced that a man called on him last night and announced that another party confessed to having killed Jacobson while engaged in plundering the latter's residence.

"Last evening, your honor," continued Henley, "a man came to my office and asked for J. A. Brown, who has been sent out here from the East to look after certain portions of the case. He told Brown that he knew something of importance. He told Brown that a man came to his house on the night of the homicide and told him that he had entered Jacobson's house on the night in question for the purpose of committing burglary. The self-confessed burglar told this man that he was in Jacobson's house for about an hour before the fatal case broke out. He was discovered in the back parlor, and that in an affray he had to shoot Jacobson. This man I speak of says that he was awakened by his wife when the alleged burglar called, and that she will substantiate his statements. To show his sincerity Brown will go to this man and take any representative of the defense. Subpoenas were then issued for the alleged man and his wife.

Several affidavits were then read. The first was that of E. W. Campbell, of Truckee. Campbell declares that he was paid money and promised immunity from punishment for burglary to commit perjury at the first trial of Judge Murphy. The next affidavit was also from Campbell and declared that the detective, Brown, had never offered him \$1000, or any other man, to swear that Bell had not killed Jacobson. Then the noted Campbell confession made in Chicago last week followed. The substance of this has already been given in these dispatches.

The next affidavit was that of Charles G. Schmidt, Bell's cell mate, now dead. On the trial he swore that Bell confessed that he had killed Jacobson. In the affidavit, Schmidt alleged that the testimony was false.

MINNESOTA, WISCONSIN, MONTANA, DAKOTA, AND BRITISH COLUMBIA IN THE GRASP OF THE FROST KING—WASHINGTON STATE NOT IN THE LIST.

St. Paul, Minn., Jan. 18.—The cold weather reported Saturday night as from the way from the extreme Northwest, arrived before the night was over and early yesterday morning the mercury in the city was down to 20 degrees below zero once more.

Some reports of colder weather have been received, the same reports come from all over the Northwest. At La Crosse the mercury is at zero. Huron reports 10 below. In Montana, at Miles City, 23 degrees below, which seems to be extreme for that state. Helena only 2 degrees below with a grin. Fort Buford, N. D., has a temperature of 25 below; Bismarck 22 below, and other North Dakota points range from 10 degrees below at Calgary, to 36 below at Qu Appelle, Winnipeg and Minneapolis each recording 30 below.

In this State the coldest weather is at St. Vincent, where it is 30 below, at 7 o'clock, but other reports from unofficial sources give colder weather, although the general range is from zero to 23 below. Colder weather is predicted for today.

St. Paul, Minn., Jan. 18.—It is still cold here and all over the Northwest. The temperature throughout this State and the Dakotas is from 14 to 40 degrees below with occasional spots even colder than that. The coldest weather is in Manitoba and the Northwest territory where it is from 15 to 20 degrees lower than in this State. The motor man on one of the suburban electric cars who was badly frozen last week has died.

Washington, D. C., Jan. 18.—The war and navy departments. A decided change has come over officials in these two departments. They are less potent. On all hands there is the feeling that war is approaching.

Commodore Ramsey, chief of the Bureau of Navigation, a very positive but extremely conservative in opinion this morning: "It looks warlike this morning."

Senator Montt, evidently appreciating the gravity of the situation, called at the house of Secretary of State Blaine, but he had not arrived and Senator Montt, after waiting some time went to Blaine's residence to see him. His mission was too important to communicate to Assistant Secretary of State Wharton, and the latter was not aware of Senator Montt's presence at the department.

"If we must have war with Chile, we should give her all the money in the South Sea Islands," is the expression that one hears frequently in official circles. It is generally admitted that war would be very expensive at so great a distance from this country.

New York, Jan. 18.—The selling and decline in the stock market this morning is attributed in part to the war scare, and the belief that a rupture between Chile and the United States was imminent.

The President today denied himself to all visitors and worked on the Chilean correspondence. He is preparing his message to Congress. It is the belief that the message and correspondence will be sent to Congress on Wednesday.

Secretary of State Blaine was unable to leave his house today because of an attack similar to that of a week ago. He recovered from it soon, however.

The rumor is circulated to the effect that the Chilean minister has notified this government that an apology from Chile will be forthcoming. This could not be confirmed.

Washington, D. C., Jan. 18.—A flurry of telegrams from the Secretary of State was received of a cablegram from Commander Evans, "Fighting Bob," as he is known in the navy. The intelligence of the Chilean minister of foreign affairs is that the Chilean minister is giving out the commander's dispatch with its spirited comments, in an evidence of the deep feeling now existing in the cabinet.

The news follows continue this sort of business. It is a matter of course that wouldn't surprise any of us to see Fighting Bob give them a touch of American spirit in a form that would make a declaration of war superfluous.

He only said last night: "The department will reply to Commander Evans' cable tomorrow. The retort must be taken to a place of safety. I am not prepared to say where they will be sent, or who will be ordered to take them, but you can state that they will be promptly transferred to neutral territory, possibly on board a United States war vessel."

Washington, D. C., Jan. 18.—Secretary Tracy has sent a cablegram to Commander Evans, of the Yorktown, ordering him to proceed to Callao, Peru, and land the Chilean refugees at that place.

SAYS STILL ACTIVE.

Washington, Jan. 18.—The navy department is still a scene of great activity. The secretary had frequent consultations with the chief, and outward signs denote that great work is being done. The greatest activity prevails in the bureau of naval intelligence, the agents of which, it is said, have been at work on a plan of possible campaign for the capture of the Falkland Islands, and the capture of the Chilean fleet.

WASHINGTON STATE MEDIA.

St. Louis, Jan. 18.—Adjutant-General Wickham of the state militia, has issued a general order that all companies of the First Regiment be recruited without delay to their full strength, that the recruits, as far as possible, be made up of men between the ages of 18 and 30 and that they be ready for active field service at 10 days' notice. The commanding officer of the regiment is required to return to the adjutant-general, showing the extent to which the order has been complied with. General Wickham is on his way to Washington, but his order is explained on the ground that he has gotten the news with more delay, than he would have had had he been in St. Louis, than the Black Plague.

The grip after ten years' respite, or fifteen, if the very mild type which prevailed in the United States in 1873 be not worthy of consideration, broke out in Kansas early in November, 1891. In three weeks it had swept half the population of St. Petersburg, and by the middle of December its analog was over the whole of Northern Europe. The New York World, in an article last week, on information supplied by Dr. George E. Shady, told the people of the United States that in all probability westward the course of grip would hold its way. Westward it came, and in fifteen days after Dec. 23 it is estimated that fully 200,000 people had been attacked by it in New York alone.

The fact of the matter is, and there is sufficient proof for it now to refute all statements to the contrary, that grip is independent of weather. The mortality in New York in unbroken winter days has equalled that of days of extreme humidity. In the epidemic of 1865-66 Dr. Shady said that the localities would be the same, whether it was April showers, or April showers came and the death-rate and the statistics were undiminished. Dr. Shady now says there is no more making prophecies about the grip.

Then incidentally let it be remembered that the disease has appeared almost simultaneously in the torrid zone and in the temperate zone; that England, Italy, Spain, France, Germany, Egypt, and smaller Asia, and widely varying localities of the United States and Canada have been attacked almost simultaneously.

STANDARD FOR 25 CENTURY.

Boston, Jan. 16.—The Boarding today by unanimous vote adopted a resolution appropriating \$90,000 marks (about \$225,000) to defray the expenses incident to the securing of an effective exhibition of German industries at the approaching world's fair at Chicago. The announcement was received with enthusiastic cheers.

RECRUITING OFFICE.

San Diego, Jan. 18.—The Charleston is still here, but is expected to leave Tuesday morning. Gen. B. E. Coon returned to recruiting office here for the first brigade of volunteers.

RESISTS INTERFERENCE IN PROTECTION OF REFUGEES—COMPLICATIONS INCREASING—RECALLING STATE MILITIA IN MISSOURI—HOWELL TORPEDOES READY FOR USE.

Washington, D. C., Jan. 18.—The war and navy departments. A decided change has come over officials in these two departments. They are less potent. On all hands there is the feeling that war is approaching.
