

POLITICAL ANNOUNCEMENTS.

FOR COMMISSIONER.

At the request of friends, I hereby announce myself as a candidate for commissioner, subject to the decision of the republican nominating convention.

FOR REPRESENTATIVE.

At the earnest solicitation of many friends, I hereby announce myself as a candidate for representative, subject to the decision of the republican nominating convention.

FOR SHERIFF.

At the request of many friends, I announce myself as a candidate for the office of sheriff.

CHAS. ROYNE will likely be the choice of the democrats for school superintendent.

The popular bookkeeper of Coffin & McFarland's, Mr. E. P. Voruz, is spoken of for the superintendency.

JUDON BALDREAY, of Pendleton, is spoken of in connection with the supreme bench of the state, says our Eagle.

The Herald's Washington correspondent telegraphs: "The boiled down, double distilled and clarified sediment at capital concerning the democratic presidential election is that neither Hill nor Cleveland can win the fight for nomination and that the nominee must come from the West," and it does look that way.

From what can be learned, J. C. Leasure, of Pendleton, is making a decided bustle for the republican nomination for congressman. All the democrats hope that he will get it, for Raley, or any other good man, would "wipe the earth with him." The republicans can elect Ellis, and therefore for this and many other reasons well-known to our readers, he should be the nominee.

THE SEMI-WEEKLY.

With this issue we begin the publication of a semi-weekly paper instead of a weekly, as heretofore. We believe the public will be better satisfied with two papers a week, giving the latest local and general news, rather than one, which, under the circumstances, could not be depended upon as furnishing the latest transpiring in the telegraphic world.

It will cost much more to get out our new paper than the old one, but the benefits arising therefrom to all patrons, whether subscribers, advertisers or both, are such that we hope to be recompensed, in part, for the additional expense.

It is certainly an important feature of the new paper, and one that advertisers should not overlook, that it will reach all the patrons twice a week, and remind them as to who wants their business and are inclined to offer inducements to get it. In our experience with a weekly in Heppner, and in other fields, it is noticeable that those who do the largest, judicious advertising are the ones who do the bulk of the business, and we are quite certain that this will not be overlooked by the business men of Heppner.

It is the intention of the Gazette to meet the demands of the section in which it is located. Yes, more; it will keep in the lead as an enterprise in Morrow county, it push and money will do it, feeling confident that, though it may not please all, it can be a factor of good in the community which has assisted to build it up to what it is at present.

Thanking you all for past favors, and hoping to still merit your patronage, we beg to remain

Yours Truly,

THE PATTERSON PUBLISHING CO.

EIGHT MILE EDITION.

Next Friday's issue of our semi-weekly will be largely devoted to the Eight Mile country, therefore it shall be denominated the "Eight Mile Edition." Do not subscribers and advertising patrons understand what this means? It is just this: Believing that the various sections of Morrow county deserve more than passing notice, and further, that the people would be anxious to avail themselves of the opportunity to present their claims as a superior farming country, we have, at a great expense, sent a competent representative to personally visit every farmer and stockman of the county.

With this laudable and all-important purpose in view, our agent, Mr. T. K. Roberts, has been laboring earnestly and patiently with the people of Eight Mile for nearly two weeks, and with the result that our next issue will be one of over 3,000 copies. Of course, a large number of these are extras, ordered by our Eight Mile patrons to send away. We have also gained a large number of new subscribers in this vicinity.

There is certainly no better way to present the Eight Mile country, or any other part of Morrow, and it will be followed up as large, if not larger editions. Our advertising patrons will remember that they are getting a vast amount of advertising in this way, which costs them nothing, above the ordinary price that is charged for inserting same in all editions of our semi-weekly. Value of advertising per inch depends on circulation, only. It is like sugar, raisin, coffee and other merchandises, the price depends upon quality and quantity. Now, advertisers, if you want to be strictly "in it," let your light shine forth in each and every issue of the Gazette, and then you will be sure to get the benefit of the thousands and thousands of extra copies which will be sent out during the next few months. We are using every effort to make the columns of the Gazette more desirable, and all we can expect in return is the market value of what we have to sell.

The Gooseberry section will, perhaps, be given the next opportunity to be heard. There is a vast amount of excellent farming country over there, and we are quite sure that our report shall be a good one.

WOOL, GRAIN AND GRAIN BAGS.

From T. E. Fell, manager of the M. C. L. & T. Co., we learn that there was about 2,000,000 lbs of Eastern Oregon wool in Boston Jan. 1st. All but inferior grades is selling for 17c, which is equal to 13c here. Upon the present market, good average E. O. is worth 15c in Heppner.

The movement in wool has been comparatively light so far this year. Sales in Boston have been 3,025,000 less during the first six weeks of '92 than they were for a corresponding season of '91. The fact that light sales have left but small stock on hand, indicates that manufacturers have no great supply upon which to work before the clip of '92 is in market, hence wool growers may expect a steady market opening at 15c for average wool, with advancements corresponding with trade requirements.

During the fiscal year of 1891 the imports of woolen goods were valued at \$43,235,469.00 chiefly of a class of goods in which labor in production, rather than wool, is the greater factor in cost.

Wheat has advanced about 5 cents per bushel abroad, during the past ten days. The shipping demand in Portland and San Francisco is light, but millers are offering about 2c per bushel above export value, for the reason that grain held in interior warehouses, from which it may be shipped direct to mills, will net about 3c per bushel more than wheat held in storage by farmers in warehouses in Portland owned by exporters. Exports of wheat during the past week from the U. S. was 4,002,000 bushels, against 3,641,000 the week before, and 2,230,000 bushels for the same week of last year.

That the shortage of breadstuff abroad is being supplied by shipment of corn, instead of wheat is manifest by the following figures: In 1891 the weekly shipment was 325,000 bushels; for 1892 it is 3,254,000, nearly three million in excess. The price of wheat above a certain figure is governed by corn. With the commencement of corn shipments, the price of corn doubled, wheat declined nearly ten per cent.

Grain bags will be grain bags next season. There is no surplus carried over this season. The jute crop from which all grades of bags are made is about one-third short. Contract for June delivery are now 1 1/4c higher than was asked at this season last year. The probable cost of sacks during the harvest months of '92 will not be less than 10c, and more likely to be 12 to a fair crop.

A LITTLE MORE GRACE SUBSCRIBERS!

Judging that many did not see our announcement of two weeks ago that the price of the Semi-Weekly Gazette would be \$3 per year, we have decided to make this proposition: Until April 1st, 1892, all old subscribers renewing and paying up all arrearages, or new subscribers, can have the two papers for the coming year for \$2, cash in hand.

After that date all, without exception, will be charged \$3 per year. If you want to save a little, drop in this is positively the last chance to get a good thing cheap.

We need the money, not your promises; that is why we offer thirty days more grace. Improvements have been made on "jawbone," the day of settlement is near at hand.

Don't put it off to the last minute to see the "Pats" about the new semi-weekly. The Pat. Pub. Co. 67-74.

HERE'S BUSINESS.

Ayers, Jr. Best grade cigars always in stock. a.

Can't Cook as Mother Did!

How many a young wife's heart has been saddened by hearing the above remark! And yet how often the words are true; especially when cake, pastry or biscuit are in question! The reason is plain, yet it is "like telling a secret."

Our mothers used and are using Dr. Price's Cream Baking Powder. They cannot be misled into using any of the ammonia or alum powders. No dyspepsia no sallow complexions, when mother did the cooking.

The first symptoms of ammonia poisoning, says a New York paper, which appear among those who work in ammonia factories, is a discoloration of the nose and forehead. This gradually extends over the face until the complexion has a stained, blotched and unsightly appearance. Dr. Price's Cream Baking Powder is the only pure cream of tartar powder that contains the whites of eggs.

Dr. Price's Cream Baking Powder is reported by all authorities as free from Ammonia, Alum, or any other adulterant. In fact the purity of this ideal powder has never been questioned.

Dr. Price's Cream Baking Powder is reported by all authorities as free from Ammonia, Alum, or any other adulterant. In fact the purity of this ideal powder has never been questioned.
