

Continued from 2nd page.

POLITICAL ANNOUNCEMENTS.

FOR COMMISSIONER.

At the request of friends, I hereby announce myself as a candidate for commissioner, subject to the decision of the republican nominating convention.

FOR REPRESENTATIVE.

At the earnest solicitation of many friends, I hereby announce myself as a candidate for the office of representative, subject to the decision of the republican nominating convention.

FOR SHERIFF.

At the request of many friends, I announce myself as a candidate for the office of sheriff.

FOR ASSESSOR.

Through the solicitation of friends, I hereby announce myself as a candidate for the office of assessor, subject to the decision of the county democratic convention, Apr. 14, 1902.

FOR SCHOOL SUPERINTENDENT.

T. C. Aubrey respectfully asks the people of the county for the superintendency.

The Eight Mile write-up has taken nearly the whole of the issue, consequently much local matter remains over till our next. The publication of the new ballot law will be resumed in our Tuesday's issue.

As the school election is near at hand, it will be well for the residents of the district to know who are voters. The new school law says: In all school districts in this state with a population of one thousand and upwards, any citizen of this state shall be entitled to vote at a school meeting who is twenty-one (21) years of age, and has resided in the district thirty (30) days immediately preceding the meeting, and who has property in the district upon which he or she pays a tax.

REPUBLICAN COMMITTEE MEETING.

A Fair Representation, and Dates Set for Holding Primaries and County Conventions.

Members of the county republican central committee met at 1:30 Saturday afternoon at the court house, instead of the Palace hotel parlors, as advertised. O. E. Farnsworth, chairman, presiding. On roll being called, the following committee members were noted present: O. E. Farnsworth, Heppner; J. F. Willis, Lexington; Thad Armstrong, Alpine; D. N. Hardman, Dairy; J. C. Large, Mattoon; D. R. Jayne, Wells Springs; S. N. Morgan, Gentry; I. M. Keen, of Ione, being absent, R. C. Willis was appointed to represent that precinct. Jerry Brown, of Lena, came in later on.

On motion of D. R. Jayne, seconded by Thad Armstrong, March 19th and 26th were chosen, respectively, for primaries and convention, the former to be held between the hours of 2 and 6 o'clock p. m., and the latter to assemble at 10:30 a. m.

The representation was placed at one delegate for every twenty, or fraction thereof, ten or over, one delegate at large for every precinct, the latter to be chosen at the primaries in the same manner as other delegates. On this basis there will be forty-six delegates in the convention, represented as follows: Heppner, 5; Cecil, 2; Castle Rock, 1; Ione, 3; Wells Springs, 2; Eight Mile, 4; Dry Fork, 2; Alpine, 2; Mattoon, 2; Dairy, 5; Lena, 2; Lexington, 1; Pine City, 2; Mount Vernon, 5; Gentry, 5.

A BANKER'S INDORSEMENT.

From the Oregonian.

There is probably nothing as disgusting as a sickly specimen of humanity. By this we mean those people who suffer from diseases which, early yield to electric treatment. They are miserable themselves and make others miserable. Because some doctors inform you that your case is hopeless does not make it so. Take the case of Mr. Tucker, president of the Bank of Genesee, Idaho, whose card we give below. It speaks volumes for Dr. Darrin:

GENESEE, Idaho.
DR. DARRIN—Dear Sir: The electric and medical treatment you gave me one year ago for chronic catarrh and other troubles of fifteen years' standing has been successful. Yours truly,
H. A. TUCKER.

A. E. Miller, 276 Knott street, Albina, Ore., writes he is cured of urethral stricture by Dr. Darrin's electrical and surgical treatment. He was considered hopelessly incurable. Mrs. A. Banister, of Meadow, Lewis county, Wash., still relies on a cure of excruciating pains in the eyeballs, liver and kidney complaint, deafness 31 years and an ovarian tumor by Dr. Darrin.

Dr. Darrin is permanently located at 707 Washington street, Portland. Office hours for those unable to pay, 10 to 11 a. m. Those able to pay, 10 a. m. to 8 p. m. Sundays, 10 to 12. Sufferers from all curable chronic, acute and private diseases should call at once. All kinds of surgery, special and general, painlessly performed. Tumors and cancers removed. Artificial eyes inserted giving all the natural movements. Cross-eyes straightened, hair lip and facial blemishes cured and delicate operations on eye, ear, nose and throat performed without pain. Examinations free at the office or by letter. All cases strictly confidential. Question blanks sent free.

REPUBLICAN ORGANIZATION.

The Members of the County Republican Central Committee.

The following are the members of the republican central committee of Morrow county: Heppner (chairman), O. E. Farnsworth; Mount Vernon, S. N. Morgan; Lexington, J. F. Willis; Dry Fork, W. F. Holmes; Cecil, J. B. Ely; Alpine, Thad Armstrong; Eight Mile, D. N. Hardman; Dairy, J. M. Keen; Ione, J. C. Large; Mattoon, Jerry Brown; Castle Rock, Thos. Scott; Pine City, D. R. Jayne; Wells Springs, W. R. Ellis.

Mem. State Cen. Com. 66th

Does it Contain Ammonia?

The charge is being made that the Royal Baking Powder contains ammonia. We would have supposed that the emphatic condemnation of ammonia baking powders by the most eminent physicians throughout the land, and the fact of the three leading chemists of Minnesota making their report to the Senate Committee recently showing that bread baked with the "Royal" contained ammonia and the hostility now being manifested by the public against all ammonia and alum baking powders would have driven them permanently from the market.

In view of the fact that Baking Powder has become an indispensable article in every kitchen, it is gratifying to know that there are brands in the market to which no suspicion of any kind has ever attached. Dr. Price's Cream Baking Powder is a pure cream of tartar powder free from every taint of ammonia, alum or other harmful substance.

Dr. Price's Cream Baking Powder is reported by all authorities as free from Ammonia, Alum, or any other adulterant. In fact, the purity of this ideal powder has never been questioned.

120 acres—80 acres in cultivation. My wheat last year averaged 20 bushels, barley 45; will seed 100 acres; expect to break 30 acres and summer-fallow 50 acres. Of course I think we are going to have a good crop this year, and I want you to send me the Gazette. Get up, Bill! gee Tom! and away he went.

E. D. REED
Owns a fine ranch adjoining, but no amount of search would disclose his whereabouts. Mr. Reed has a comfortable home and keeps some fine horses.

THOS. SADAN,
An old resident of Eight Mile was circulating among old friends.

S. O. MILLER
Owns a good farm of 320 acres, 130 in cultivation, and is operating another ranch in connection with his own. He has 175 acres already in and will put in more. Expects to break 50 acres and summer-fallow 50 more. Plenty of water on ranch. Average crop last year, 20 bushels per acre.

S. L. GORDON
Stopped at the end of a furrow long enough to say that "I own 480 acres of land, of which 100 acres is in cultivation. Average wheat crop last year 30 bushels; barley, 44; will seed 110, summer-fallow 100 and break 50 acres. Small orchard, in good condition."

F. M. COURTER
Was just about to say that he did not want any "Royal Path of Life," "Business Guide," "Bill's Manual," "Stanley in Africa," "Benj. Butler" in calf; that his library was already supplied with "From the Manger to the Granger," "How to Start a Bally Horse," and he was about to continue an inventory of his literary possessions when a still small voice inquired if he (Mr. Courter) was interested in farming. "Oh!" he exclaimed, "I understand your case. You are the Gazette's new hired man. Excuse me; I took you for one of those book agents that come around semi-occasionally and make one sigh for transportation into eternity. Yes, I am interested in farming, and have 480 acres—130 in cultivation. My crop averaged last year 20 bushels of wheat, 33 of barley and 35 of oats to the acre. Had a good crop of corn on sod. Corn can be raised with little or no work. Will seed 50 acres this year, break 80 acres and summer-fallow 60 acres. Put out your horse and stay for dinner. I want to show you my place and the finest timber-crested in Morrow county." One word was enough for jaded beast and his timid, inexperienced rider. And here let public notice be accorded that the representative of the Gazette will never overlook an invitation to dinner. The dinner was excellent, after which the timber-culture was examined. Mr. Courter has, without doubt, the finest timber-culture in Morrow county, consisting of ten acres planted to box-elder, lumbard, poplar, catalpa, Russian mulberry, alantia, locust and pine. The culture contains 9,000 trees in good, thrifty condition and ranging from four to eighteen feet high, the majority being over ten feet high, while 6,000 are over twelve feet high. The success of a timber-culture depends upon the care it receives. The rows must be far enough apart to admit of thorough cultivation.

G. W. JUCKES
Owns 320 acres—40 acres in cultivation; average crop, 20 bushels per acre. Will seed 45 and break 150 acres. Raised some fine peaches last year.

H. S. AND OSCAR MONTGOMERY
Are engaged in farming. Have 160 acres, one-half of which is in cultivation. Their wheat last year averaged 30 bushels per acre. Will seed 50 acres and summer-fallow 60. They are not one bit nervous about a good crop this season.

W. R. MUSKIE
Is one of those busy bodies who always finds something to do and generally succeeds in any undertaking. Has half a section, 220 acres of which is in cultivation. Wheat averaged 30 bushels per acre, barley 48. He will seed 115 acres. Will summer-fallow 100 acres and break 60 acres. He believes that thorough tilling of the soil is the only safe plan to pursue. Has a small orchard in thrifty condition.

A little farther down the road a man dressed in the garb of a granger and wearing a good, honest-looking, sun-burned face answered to the name of H. W. ROBINSON.

He is farming; owns 480 acres; till 200 acres. Average wheat crop last year 25 bushels per acre; barley 27. Will seed two hundred and ten acres, break 150 and summer-fallow 75 acres. Is engaged in stock raising some. Had an excellent crop of potatoes last year.

A. S. HAINES & SONS
Are extensively engaged in farming, having a square mile of fine, level land and two hundred acres in cultivation. Wheat crop last year averaged thirty-five bushels per acre. Will break about one hundred acres this year. Had an excellent crop of potatoes last season. Mr. Haines has been appointed postmaster to fill the vacancy made by the resignation of E. B. Stanton, of Eight Mile.

J. W. RECKITT
Has a comfortable home, surrounded by

three hundred and twenty acres of good land; two hundred and forty acres under crop. Yield last year, fall sown grain, 35 bushels per acre, while the spring sowing turned out 18 bushels per acre. Barley 35. Believes in thorough cultivation. Fruit trees in fine condition. Believes the outlook for a crop is good.

E. P. YACOVY
Owns a valuable tract of 480 acres; 100 acres in cultivation. Average crop last year, wheat 25, barley, volunteer crop, 20, oats, volunteer, 25 bushels per acre. Will seed 100 acres and summer-fallow 100. Is paying some attention to stock raising. Fine orchard in bearing. Prospects of a good crop is fair.

WM. ALLISON
Owns 320 acres; 100 in cultivation. Average wheat crop 35 bushels, oats 40. Will seed 80 acres and summer-fallow 80 acres. Small orchard in good, thrifty condition.

J. G. YOUNG
Has a pleasant home on a half section of bunchgrass land; sixty acres under cultivation. Last year raised an average of fifteen bushels of wheat per acre and twenty-eight bushels of barley. Will seed sixty acres and break fifty acres. Mr. Young is an old soldier and was with Sherman on his famous march to the sea.

G. H. COLVIER
Has possession of 320 acres; only a few in crop; will break 100 acres this season. Mr. Colvin has but recently settled in this locality.

SAMUEL WARFIELD
Has a clear title to a half section of Oregon's best soil; last 125 acres in cultivation. Large crop of hay last year; two and a half tons per acre. Will seed fifty acres and break eighty. Reads the Gazette, would not be without it.

S. M. WARFIELD
Owns 320 acres; 90 acres in cultivation. Summer-fallow produced 31 bushels per acre, while spring sown only reached 23. Will seed 75 acres and break 50 acres. Raising stock; has some fine horses.

W. J. HARRAH
Owns a fine farm of 480 acres; 110 under cultivation. Volunteer crop 15 bushels per acre, summer-fallow 25 bushels per acre. Believes that the summer fallow will always bring a fair crop.

V. L. COFFEY
Owns 480 acres; 90 acres in cultivation. Spring wheat averaged 20 bushels per acre. Has 70 acres already sown to grain and will break 100 acres. Fine young orchard in bearing. Plenty of apricots last year. It is evident that fruit can be raised if it receives any attention.

WM. HARGREWOOD
Owns 320 acres; 80 acres in cultivation. Average wheat crop 29 bushels; hay, volunteer crop, one ton per acre. Eighty acres of grain already sown; will summer-fallow 150 acres and break 100; five acres in fruit. Has some stock.

W. T. M'NAB
Stopped long enough at the end of a furrow to say that he has 320 acres of good land, 175 under the plow; average crop last year from summer-fallow 35 bushels, spring sowing 25 bushels. Will seed 160 acres, break and summer-fallow 115 acres.

THOS. H. MORGAN & SON
Have a little garden enclosed, comprising eleven hundred and twenty acres; six hundred acres under cultivation; average wheat crop last year, 28 bushels per acre. Will seed 300 acres, of which 200 acres is already sown; will summer-fallow and break 600 acres. Fruit trees in fine condition. Mr. Morgan thinks the prospects for a large crop is good this season.

M. A. OLDEN
Owns a half section, of which 125 acres are under the plow. He, however, operates more land, for his crop last year was 25 bushels per acre on 500 acres. Has 500 acres already seeded. Will summer-fallow and break 400 acres. Has about 50 head of stock and 15 acres in fruit.

C. L. DORMAN
Owns 640 acres, but is operating 900 acres last year's crop of 400 acres averaged 25 bushels per acre; hay 1½ tons. Will seed 300 acres and summer-fallow 400 acres; fine orchard in bearing. Prunes and cherries do excellent here; had some fine grapes. Is paying some attention to stock. Has about 100 head of horses and cattle; among them are to be seen some fine Hereford and Polled Angus cattle.

J. M. BAKER
Owns 400 acres; 230 in cultivation; average wheat crop 25 bushels, oats 30 bushels per acre; hay 1½ tons. Will summer-fallow and break 140 acres. An acre of orchard in fine condition.

R. A. & M. ELLIOTT
Own 640 acres; 165 in cultivation; average wheat crop last year on sod, 22 bushels per acre; 100 bushels of potatoes per acre; will seed 20 acres; 100 already sown; expect to break 150 acres; expect a good crop the coming season.

Thus one sees a fair report as taken from practical farmers. Several large farmers were absent from home and the report is therefore a trifle incomplete.

Gents' and boys' boots and shoes in endless variety. Ask to see the best shoe ever sold on this coast at \$2.50, at

C. S. Van Duyn's.

Lower FEED YARD.

In it for the year '92. No Post Hay or Wooden Barley here. All horses groomed and fed in the proper manner. Feed for sale. Good corral and free camp house. Horses to hay 75c per span per day. Bus runs to and from trains night or day.
