

POLITICAL ANNOUNCEMENTS.
FOR ASSESSOR.
Through the solicitation of friends, I hereby announce myself a candidate for the office of assessor, subject to the decision of the county democratic convention, Apr. 14, 1892.
J. J. ROBERTS.

NEXT Friday's issue will be devoted chiefly to the interests of Lexington and vicinity, and will be an edition of quite 5,000 copies. It was the intention to get it out much sooner, but there was too much work for the short space of time allotted for this important task.

It is generally understood that Hon. W. R. Ellis has the entire delegation from the seventh judicial district on his side, for nomination to congress, second district. This we understand, is backed up by other counties. Ellis will go into the convention with the strongest following of any of the Eastern Oregon candidates.

We acknowledge the receipt of a photograph representing the whaleback steamer, G. W. Wetmore and others, passing the Sault Ste. Marie locks, between Lake Superior and Huron. Linnae Hubbard, to whom we are indebted for this picture, adds as a "Prophecy of the Whalebacks,"

"Quick as the Cascade Locks are done
We will carry the INLAND products
Of Oregon, Idaho and Washington
To every seaport under the sun."
The friends of Hon. W. R. Ellis, of Heppner, are confident that he will draw the winning card in the congressional shuffle at the Portland convention. They assure that he will have the delegates from the sixth judicial district practically solid behind him, and that he will be the second choice of the majority of delegates from other sections. The judge is a clean man, an unwavering republican, and will be handsomely elected if the convention confers the nomination upon him.—Pendleton Tribune.

There will be no lack of congressional candidates in Eastern Oregon who hope to capture the first prize of the republican state convention. Baker county for a while led the van in the number of aspirants, but now takes second place, giving way to Umatilla county, which has four candidates. Meanwhile the seventh judicial district holds to its first choice and will stand solidly for Ellis as its candidate. Senator Norval, of Union county, is being frequently spoken of as a possible nominee, and the fact that he is the only farmer among all the aspirants seems to be greatly in his favor.—Times-Mountaineer.

In the second congressional district in this state there are two prominent republican candidates, either of whom would ably represent this region, in the lower house and who are men of such exceptional good characters politically and socially, that no opposition need be feared in the ranks of the party. We refer to Hon. W. B. Ellis, of Heppner, and Hon. J. B. Eldy, of Pendleton. These gentlemen are interested in the growth and prosperity of that portion of Oregon east of the Cascade mountains, and if either is favored by being elected to congress, he would ably advocate the measures so much needed for the development of the boundless resources of this portion of the northwest.—Times-Mountaineer.

Two bills passed the senate last week—Dolph's appropriating sufficient to complete the canal and locks at the Cascades, not exceeding one million seven hundred and forty five thousand dollars, and Mitchell's bill appropriating eight million two hundred and sixty thousand three hundred dollars, the full amount of estimate for the completion of a boat-railway at the Dalles, all immediately available. Judging from the actions of the lower house during the session, so far, this will hardly meet with their approval. The portage at the Cascades is proving such a boon to our people up here that we would be content with such a provision at Celilo, which would give immediate relief. There is no telling how long it will take to complete the Cascade locks, and we fear the ship railway is more theoretical than practical.

ALLIANCE COLUMN

RESOLUTIONS.

Passed by the Umatilla County Alliance in session at Pendleton, January 6, 1892:

WHEREAS, the republican and democratic parties have had control of the municipal, county, state and national elections; for more than a quarter of a century, and during this whole period have abused the powers and privileges entrusted to their hands and have criminally wasted our public domain, bestowing the same with a lavish hand upon the corporations of the wealthy classes, thus centralizing and putting into the hands of the favored few that which of right belonged to the many, thus giving the few the power to oppress and take undue advantage of the many, and

WHEREAS, unjust discriminations have been practiced against the farmer and laboring man in favor of corporations, and the ballot has been so manipulated by political bosses and rings in the interest of the bondholders and corporations generally and the voice of the people who produce the wealth is no longer heard only as venal slaves to the political bosses, and

WHEREAS, there has been several reform organizations having in view essentially the same object, that is the correction of the ballot box and in our law making departments, the above and many other crying evils which are endangering the very existence of our free institutions. Therefore we, the members of Umatilla County Alliance, for the love of our homes and country, do propose to join in with the general uprising of Americans which is taking place all over our land to preserve intact our free institutions, and to this end be it resolved:

1. We demand the abolition of national banks; we demand that the government shall establish sub-treasuries or depositories in the several states which shall issue money direct to the people at a low rate of tax not to exceed 2 per cent. per annum on non-perishable farm products and also upon real estate, with proper limitations upon the quality of land and amount of money; we demand that the amount of the circulating medium be speedily increased to not less than \$50 per capita.

2. We demand that congress shall pass such laws as shall effectually prevent the dealing in futures on all agricultural and mechanical productions, preserving a stringent system of procedure in trials such as shall secure the prompt conviction and imposition of such penalties as shall secure the most perfect compliance with the law.

3. We condemn the silver bill recently passed by congress, and demand in lieu thereof the free and unlimited coinage of silver; the coin to be a legal tender for all debts, public and private.

4. We demand the passage of laws prohibiting alien ownership of land, and that congress take prompt action to devise some plan to obtain all lands now owned by aliens and foreign syndicates, and that all lands now held by railroads and other corporations in excess of such as is actually used and needed by them be reclaimed by the government and held for actual settlers only.

5. Believing in the doctrine of equal rights to all and special privileges to none, we demand that our national legislation shall be so framed in the future as not to build up one industry at the expense of another. We further demand a removal of the existing heavy tariff tax from the necessities of life that the poor of our land must have. We further demand a just and equitable system of graduated tax on incomes. We believe that the money of the country should be kept as much as possible in the hands of the people, and hence we demand that all national and state revenues shall be limited to the necessary expenses of the government economically and honestly administered.

6. To own and operate the railroads, telegraphs and other arteries of transportation and communication by the government, with due regard for the rights of the people.

From Nebraska.

Ex-Senator Van Wyck, of Nebraska, who is a member of the Farmers' Alliance, urges agitation along lines which he says "will not provoke opposition or criticism." Among his propositions are these:

To declare illegal all syndicates, trusts and combinations preventing competition, and then such penalties as will suppress them; for an increase of circulation by the free coinage of silver for postal savings banks; for government ownership of postal telegraphs; for loans to the people on such security and rate of interest as congress may determine, and for legislation providing an amendment of the constitution requiring the election of United States senators by vote of the people.

A Warning—Don't Use Big Words.

In promulgating esoteric cogitations or articulating superficial sentimentalities and philosophical or psychological observations, beware of platitudinous ponderosity. Let your statements possess a clarified consciousness, compacted comprehensibilities, consistent consistency and a concentrated cogency. Eschew all conglomerations of hazy garrulity, jejune lamination and asinine affections. In trying to impress upon others the superiority of the Wisconsin Central Lines, and why you and so many others use this thoroughfare from St. Paul and Minneapolis and Duluth and Astland to Milwaukee, Chicago and points east and south, it is not necessary to use jaw-breakers. Let your extemporaneous descantings and unmediated expatiations have intelligibility and veracious vivacity, without rhodomontade or thrasonical bombast. Sedulously avoid all polysyllabic profundity, patulous variety, ventriloquial verbosity and vapid vagabondage, shun double entendres, prurient jocosity and pestiferous profanity, obscure or apparent. In other words talk plainly, naturally, sensibly and truthfully say the Wisconsin Central Lines is THE ROUTE, and that ends it.

Misnaming Things.

The experienced huntsman in the woods never wastes time looking for bear in Bear Hollow, nor deer along Deer Creek, nor would he hope to shoot any great number of ducks on Duck Lake, for his experience has taught him that such points are always misnamed, and this lesson holds good with almost everything in life. For instance, in the case of the brands on articles of food, spices and other ground food products, the things branded or labeled "pure," "strictly pure" or "absolutely pure," are without exception the most villainously adulterated. 'Tis the wolf in sheep's clothing always.

The most brazen case is that of the Royal Baking Powder. This article is branded and paraded before the people as "absolutely pure" when it contains ammonia. You can smell it in the can and often in the biscuit while hot.

What woman would use an ammonia or alum baking powder if she knew it? They not only destroy the stomach, but ammonia will destroy the complexion.

Not so with Dr. Price's Cream Baking Powder, the only pure cream tartar powder to be obtained, and the only baking powder made by a physician. Dr. Price has devoted a life-time to perfecting this old-fashioned, indispensable article of the culinary art that has stood all the tests and remained the standard for forty years.

The "wooded island" in the Exposition grounds is beginning to assume the character which in great part it will have during the fair—that of a gigantic flower garden. Already the horticultural department has received 27,000 rose bushes and other plants, several thousand of which came from abroad. These are being transplanted on the island.

A California "big tree" has been sectioned in Tulare county to be shown at the Exposition. A committee of the board of trade, after an extended tour of inspection, picked out a tree measuring 87 feet 9 inches in circumference at the base, 85 feet five feet above the ground and 65 feet at a height of sixteen feet.

We commend this remark of an exchange to American dairymen: There are 16,000,000 cows in the country and it does look as if there should be milk enough to go around without having to wear out so many pumps.
